## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY.  
NEW YORK, September 20, 1898.

The following list of "changes" corrects the Tariff Book "of July, 1898," to date. Changes in the list of "New Offices" are not included.

The hand **✱** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Ward, Col., which was formerly a single star station, but which is now a Western Union office in Square 827.

See Special Notices at end of this circular.

- 946 Diamondville.

## CABLES.

## CUBA.

Erase from page 437 of Tariff Book the rate beyond Havana to Calmarera and Guantanamo, and enter Calmarera and Guantanamo on page 437 as 73 cents per word from W. Union offices east of the Mississippi River, and 83 cents per word from offices west of the Mississippi River.

## BERMUDA AND TURKS' ISLAND.

A reduction in the rate to Bermuda was made August 1st. To obtain the new rate to Bermuda, deduct 39 cents from the rates given on page 431 of the Tariff Book. Thus, Tariff Book rate New York to Bermuda is 81 cents per word. The new rate is 39 cents less than 81, or 42 cents.

The rate to Turk's Island will remain as given in the Tariff Book, viz.: 25 cents per word less than the Tariff Book rate to Bermuda, or 14 cents per word more than the new rate to Bermuda. Thus New York to Turk's Island is 56 cents per word.

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 195), Catskill Mountains (page 199), and Lake George (page 207). When accepting messages for such localities, the receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake

George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 30th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 427 to 443, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 877 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any Steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten

word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOMAS T. ECKERT

President.

#### TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, September 17, 1898.

#### To All Transfer Agents and Offices:

The transfer service has been resumed at Iron Mountain, Mich., and temporarily discontinued at New Britain, Conn.

The transfer service has been permanently discontinued at Baldwinsville, N. Y., and discontinued for the season at Narragansett Pier, R. I.

The transfer service was temporarily discontinued at Windsor, Ont., on August 19th, and resumed on September 1st.

The transfer service will be resumed at Bozeman, Mont., and Ironwood, Mich., on October 1st.

On September 15th, Long Branch, N. J., was reduced from Class B to Class D, transfer office.

On October 1st, the following offices will be added to the list of transfer offices.

#### In F. R. Steele's district:

Victoria, B. C. .... Class B.

Port Townsend, Wash. .... Class C.

Managers will correct their lists accordingly.

THOS. T. ECKERT,

President.

#### DATES OF BIG INVENTIONS.

THE air brake was invented by Westinghouse, 1874; the torpedo by Bushnell, 1777; watch, by Peter Hele, 1477; thermometer, by Drebel, 1609; telescope, by Lippersheim, 1608; printing, by Gansfleisch, 1438; cotton gin, by Eli Whitney, 1793; microscope, by Jansen, 1590; lithography, by Senefelder, 1798; lightning rods, by Franklin, 1752; gunpowder, by Schwarz, 1320; balloon, by Montgolfier, 1783; barometer, by Torricelli, 1643.

THE standing army of Russia is usually put at 800,000 men, of Germany at 600,000, of Austria at 275,000, and of Great Britain at 225,000, all on a peace footing. Yet there are, it appears by the last published report of the Interstate Commerce Commission, 830,000 railroad employees in the United States, whose gross wages and salaries are nearly \$500,000,000 a year, or 62 per cent. of the operating expenses of the American railways. There are four employees, on the average, for each mile of railroad track. There are 30,049 station agents, 35,667 engineers, 25,322 conductors, 43,768 switchmen, flagmen and watchmen, and 21,452 telegraph operators and despatchers. At the present ratio of increase—there are now 50,000 more railway employees in the United States than there were in 1895—the total number will not be very far below 1,000,000 at the time of the next census.

Here is an army in which there is no mustering out and no war footing, for the railroad army of the United States, larger than the number of railroad employees of any other country, is essentially an army of peace, and it is steadily growing at a rate larger than the railroads themselves, taking the mileage as a measure of their importance.

TREASURER'S OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, January, 1898.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

First. Every remittance to the treasurer must be accompanied by a letter of transmittal written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expenses must be reported, like any other item, in the monthly account current (form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should shown on blank 65.

Second. Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to \$50.00, 18 cts.
Over \$5.00 to 10.00, 8 cts.	Over 50.00 to 60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over 60.00 to 75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over 75.00 to 100.00, 30 cts.
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

Third. If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

Fourth. If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

Fifth. If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

Sixth. Drafts, express money orders and post office money orders must be made payable to M. T. Wilbur, Assistant Treasurer, and sent by mail. They must not be made payable to M. T. Wilbur without the title.

Seventh. The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

Eighth. The large envelope, Form 124, should be used only for making remittances by express.

Ninth. Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

M. T. WILBUR, Asst. Treasurer.

**Telegraphers' Mutual Benefit Association.**

ORGANIZED 1867.

# TELEGRAPH INSTRUMENTS.

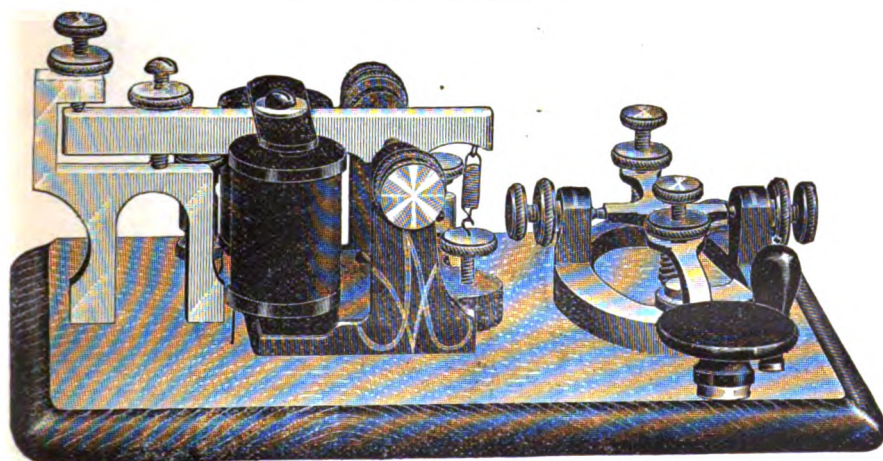

With Legs, 80 Cents.

Without Legs, 90 Cents.

PONY RELAY.

## EUREKA TELEGRAPH OUTFIT.

Outfit Complete With Battery, \$2.25.  
(Without Battery, \$1.75.)

### STEEL LEVER KEYS.

Handsomely finished, full size. No trouble to remove or replace the spring. Postage 12 cents extra. The Lever is nickel plated. Key fully nickel plated, 15 cents extra.

Pony Relays, 20 ohms resistance,	\$2.00
" " 50 " "	2.25
Regular Relays, 150 ohms,	3.25
Box Sounding Relays, no key, 150 ohms,	3.00
" " " with key, 150 ohms,	4.00
Pony Box Relays, no key (Greeley), 20 ohms	2.50
Victor Sounders (Greeley), only a few,	1.25
Our Improved Giant Sounder, local	1.50
" " " 20 ohms,	1.70

(No extra charge for Aluminum Lever on the above.)

Mechanical Telegraph Instrument (Greeley),	.60
Plain Plug Cut-out (including plug), single,	1.25
" " " double,	2.00
Lightning Arrester, with ground switch,	.50

Edison Phonographs, No. 1,	20.00
No. 2,	30.00
Records, per doz.,	5.00

### DESCRIPTION OF EUREKA OUTFIT.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. Steel lever key and sounder gives a loud and clear sound, equal to the best expensive instrument.

### THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.,	\$2.25
Eureka instrument only (no battery or wire), for short lines	1.75
Eureka instrument only, wound for lines 1 to 15 miles.	2.00
Postage on instrument only (battery not mailable).....	.40

We claim this the BEST low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

If goods are to be sent C. O. D. one-third of the amount must be remitted with order or express charges guaranteed by express agent

## MANHATTAN ELECTRICAL SUPPLY CO.

32 CORTLANDT STREET, NEW YORK.

J. H. BUNNELL &amp; CO.'S

## STEEL LEVER

SOLID  
TRUNNION

## KEYS.

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid, and perfect sending, for the following reasons:

The Lever is only one-half the weight of the ordinary brass lever as generally made.

The entire Lever and Trunnions together being made of but one piece of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and by the perfect bearing which the solid trunnion gives, together with the use of hardened platina points, sticking is absolutely prevented.

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

• Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

PRICE,  
1.75.

## LEGLESS PATTERN STEEL LEVER KEY

New Form with Open Base.

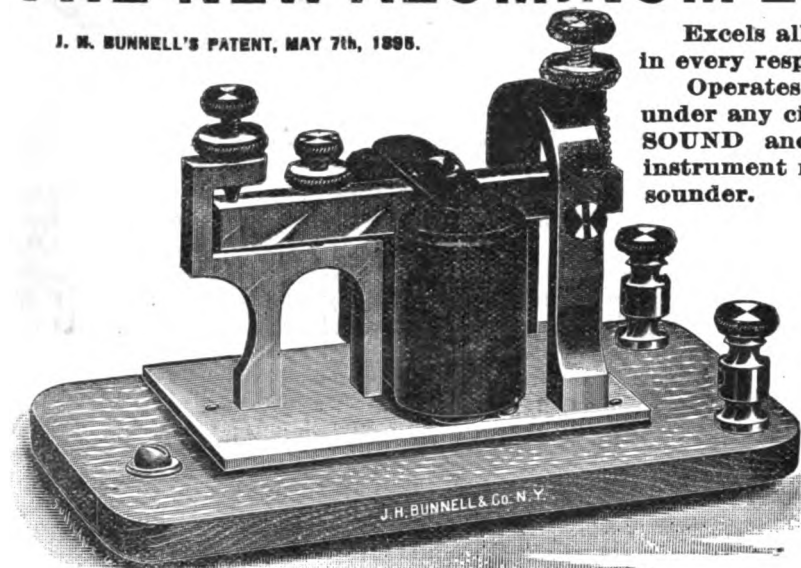

A beautiful and perfect Key suitable for use on Fine Desks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

## THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the FINEST and BEST SOUNDER ever designed.

Operates with ONE CELL only of LOCAL, having no need whatever under any circumstances for the use of two cells. The MARGIN of SOUND and STRENGTH and QUICKNESS with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, . . . . . \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length, \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

## NEW GIANT SOUNDER, 20 OHMS RESISTANCE, AND STEEL LEVER KEY

## COMBINATION SET,

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. Price, \$4.50. Sent by mail to any distance, carefully boxed, and PREPAID by us, on receipt of the above price.

Same set, but wound to 8 ohms (local), \$4.00.

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT, \$4.75.

## The New Departure Learners' Outfit....

## WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.

The IDEAL SET for HOME PRACTICE. Always Ready. NEAT, CLEAN, ATTRACTIVE.

The INSTRUMENT is our well-known "MORSE LEARNERS' APPARATUS" with STEEL LEVER KEY, arranged for use with our "MASCOT DRY BATTERY."

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

Instruction Book goes free with each outfit.

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$2.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card.

These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 50 cents or less.

Price, complete, \$2.00

# IMPOSSIBLE!

Would have been the answer of any bicycle manufacturer if you had asked him prior to the advent of the Columbia Bevel-Gear Chainless to build you a bicycle with the following specifications:

- 1st. No back lash to the driving gear.
- 2nd. All its running parts must be proof against mud and dust.
- 3rd. The driving gear must be the strongest, not the weakest part of the machine.
- 4th. It must be an easy hill climber, a delightful coaster; swift and safe on the level.
- 5th. It must have a rigid frame, graceful lines and up-to-date equipment. In the

Bevel Gear

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, October 20, 1898.

The following list of "changes" corrects the Tariff Book "of July, 1898," to date. Changes in the list of "New Offices" are not included.

The hand  indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Ward, Col., which was formerly a single star station, but which is now a Western Union office in Square 827.

See Special Notices at end of this circular.

## CABLES.

## CUBA.

Erase from page 427 of Tariff Book the rate beyond Havana to Calmanera and Guantanamo, and enter Calmanera and Guantanamo on page 443 as 73 cents per word from W. Union offices east of the Mississippi River, and 82 cents per word from offices west of the Mississippi River.

## BERMUDA AND TURKS' ISLAND.

A reduction in the rate to Bermuda was made August 1st. To obtain the new rate to Bermuda, deduct 20 cents from the rates given on page 431 of the Tariff Book. Thus, Tariff Book rate New York to Bermuda is 51 cents per word. The new rate is 39 cents less than 81, or 42 cents.

The rate to Turk's Island will remain as given in the Tariff Book, viz.: 25 cents per word less than the Tariff Book rate to Bermuda, or 14 cents per word more than the new rate to Bermuda. Thus New York to Turk's Island is 56 cents per word.

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 195), Catskill Mountains (page 199), and Lake George (page 207). When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

Managers of offices at which messages are transferred to or from "ether lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Offices having special rates should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 427 to 448, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 377 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any Steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOMAS T. BOKERT,  
President.

THE Santa Fé road has made arrangements to light all the cars of its limited trains running between Chicago and Los Angeles, a distance of 2,209 miles, with electricity. The electric equipment of each train will aggregate 4,928 candle-power. All berths will be provided with berth lights, and this will be the first train in the world carrying such a large supply of light service exclusively from the car axes. It is the intention also to light the locomotive head-light from the same service, thus making the four limited trains solid axle light trains throughout.—*El. Review.*

TREASURER'S OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, January, 1898.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

First. Every remittance to the treasurer must be accompanied by a letter of transmittal written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expense must be reported, like any other item, in the monthly account current (form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should shown on blank 65.

Second. Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to \$50.00, 18 cts.
Over \$5.00 to 10.00, 8 cts.	Over 50.00 to 60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over 60.00 to 75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over 75.00 to 100.00, 30 cts.
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

Third. If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

Fourth. If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

Fifth. If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

Sixth. Drafts, express money orders and post office money orders must be made payable to M. T. Wilbur, Assistant Treasurer, and sent by mail. They must not be made payable to M. T. Wilbur without the title.

Seventh. The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

Eighth. The large envelope, Form 124, should be used only for making remittances by express.

Ninth. Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

M. T. WILBUR, Treasurer.

George von Chauvin, *Representative*, London.

It takes thirty-seven specially constructed and equipped steamers to keep the submarine telegraph cables of the world in repair.

At the annual meeting of the Western Union Telegraph Co., the old board of Directors was re-elected with the exception of James Stillman and Thomas F. Clark, who were elected new Directors, to fill two vacancies existing.

The old officers were also re-elected except that Thomas F. Clark, Acting-Vice-President was elected a Vice-President, and M. T. Wilbur, Assistant Treasurer was elected Treasurer.

## GOLD AND STOCK LIFE INSURANCE ASSOCIATION

TWENTY-FIRST YEAR.

For Telegraphers and Others in  
Electrical Service.

INITIATION FEE \$1.00; DUES, 50 Cents  
per Month; INSURANCE, \$500.00, in pay-  
ments of \$50.00 per Month for Ten Consecutive  
Months.

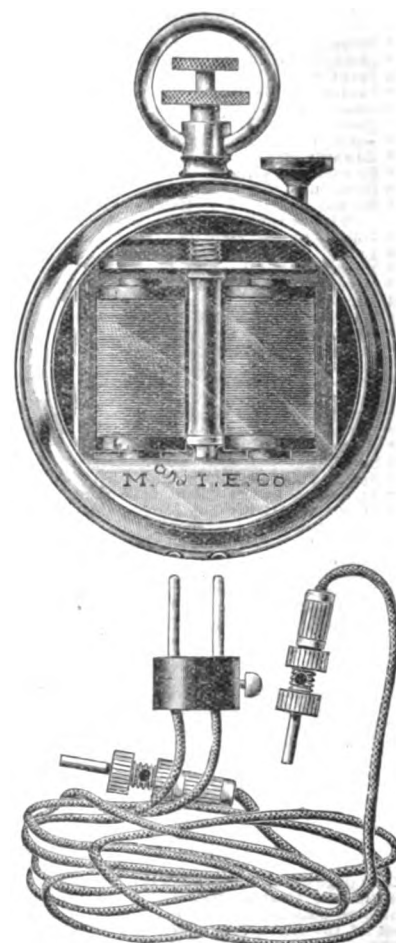

WM. J. DEALY, Secretary,  
195 Broadway, New York.

THE only machine that em-  
bodies all of the expe-  
rience achieved in the making  
of writing machines. It began  
at the beginning, and led the  
way up to the utmost perfec-  
tion of mechanism yet attained,  
i. e., to the Remington Models  
Nos. 6, 7 and 8 (wide carriage).

WYCKOFF, SEAMANS & BENEDICT

327 Broadway, New York

(Cut Illustrates the Combination Morse Watch.)

## The "MORSE-WATCH" SECRET SOUNDER

(WITHOUT KEY).

**\$5.00 EACH.**

Complete with Flexible Headband, 5 foot Silk Cord, and  
"Madtip" Connectors  
Wound to 4, 10, 20 or 25 ohms.  
Other Resistances up to 150 ohms to order.

## The "COMBINATION MORSE-WATCH"

(WITH KEY).

COMPLETE, \$1.00 NET ADDITIONAL.

Loud as a Giant Sounder or Low as a Ticking Watch.

**USES.**—For Typewriters, Operators, Train Despatchers,  
Railway Stations, Linemen, Testmen, Inspectors, Bulletin  
Operators, Newspaper Offices, Brokers' Offices, Military Tele-  
graphs, Signal Service, Police Stations, Election Centers, Clubs,  
Hotels, and all very noisy locations where it is difficult to hear  
the ordinary sounder, and all locations where it is desirable to  
maintain either uninterrupted quiet or absolute secrecy of  
telegraphic communication.

When used with key it makes a fine pocket or practice instru-  
ment. For the latter purpose we supply two small cells of dry  
battery in neat pocket form whenever ordered.

**TERMS.**—Upon all orders accompanied with cash we will  
allow a discount of ten per cent. from the list price, *except*  
where the price is mentioned as *net* in the list. Any such pur-  
chaser buying a Morse Watch from us, who may feel dissatisfied  
with his outfit after inspection of the instrument, can have his  
money refunded, less a expense involved, by returning the  
apparatus to us in good condition within twenty-four hours of  
purchase.

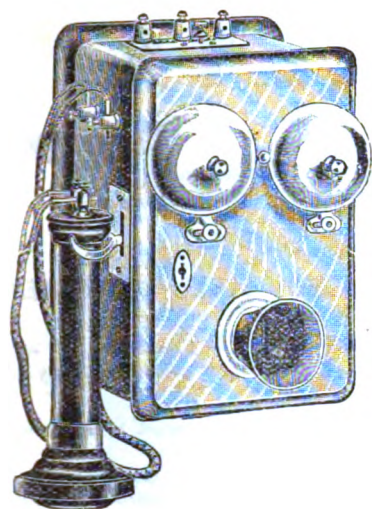

DESCRIPTIVE CIRCULAR UPON APPLICATION.

Manufacturers' and Inventors' Electric Company,

MODELS AND EXPERIMENTAL WORK and  
GENERAL ELECTRICAL SUPPLIES,

96 and 98 Fulton Street, New York.

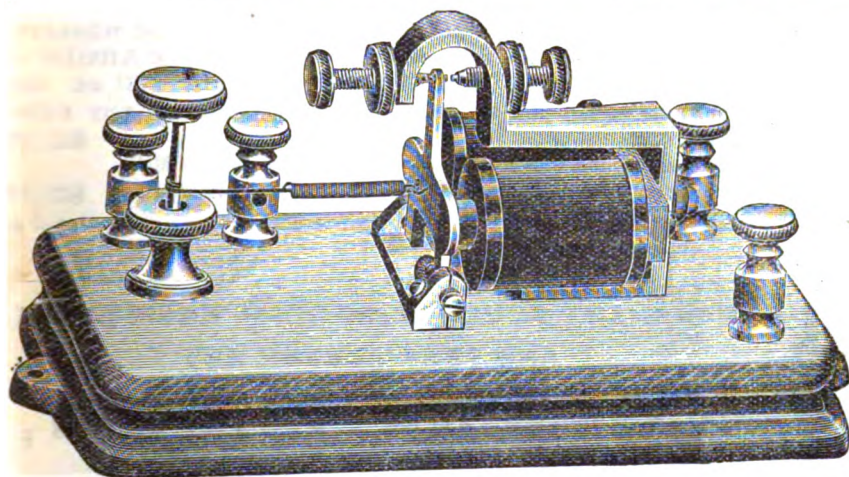

## TELEPHONE OUTFITS.

This cut illustrates our No. 14 Telephone Outfit, which is guaranteed to give perfect satisfaction on lines up to 30 miles in length.

The transmitter is our well known granular carbon type of which there is none better made at any price. The receivers are fitted with compound bar magnets and are the best that can be made. Two Mesco Dry Batteries are furnished with each outfit.

**PRICE EACH STATION, NET, \$6.50**

Lightning Arrester, with ground switch,	.50

### EUREKA TELEGRAPH OUTFIT.

Outfit Complete With Battery, \$2.25.  
(Without Battery, \$1.75.)

#### DESCRIPTION OF EUREKA OUTFIT.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. Steel lever key and sounder gives a loud and clear sound, equal to the best expensive instrument.

#### THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.,	\$2.25
Eureka instrument only (no battery or wire), for short lines	1.75
Eureka instrument only, wound for lines 1 to 15 miles.	2.00
Postage on instrument only (battery not mailable).....	.40

We claim this the BEST low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

If goods are to be sent C. O. D. one-third of the amount must be remitted with order or express charges guaranteed by express agent

Our No. 10 Catalogue (336 pages) is now ready. Mailed on receipt of ten cents.

## MANHATTAN ELECTRICAL SUPPLY CO.

32 CORTLANDT STREET, NEW YORK.

J. H. BUNNELL &amp; CO.'S

## STEEL LEVER

SOLID  
TRUNNION

## KEYS.

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is *only one-half the weight* of the ordinary brass lever as generally made.

The entire Lever and Trunnions together being made of *but one piece* of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of *hardened platina points, sticking is absolutely prevented.*

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

• Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

PRICE,  
1.75.

## LEGLESS PATTERN STEEL LEVER KEY

New Form with Open Base.

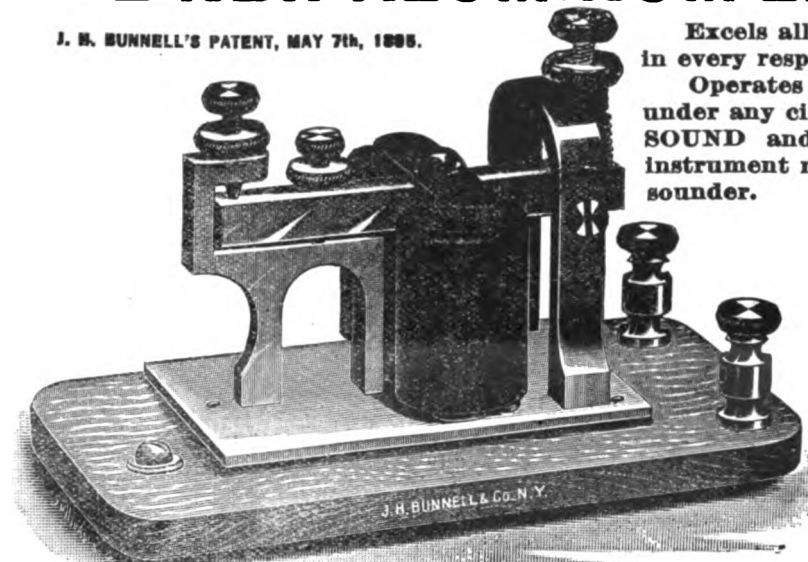

A beautiful and perfect Key suitable for use on Fine Decks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

## THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the FINEST and BEST SOUNDER ever designed.

Operates with ONE CELL only of LOCAL, having no need whatever under any circumstances for the use of two cells. The MARGIN of SOUND and STRENGTH and QUICKNESS with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, . . . . . \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length, \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

## NEW GIANT SOUNDER, 20 OHMS RESISTANCE, AND STEEL LEVER KEY

## COMBINATION SET,

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. Price, \$4.50. Sent by mail to any distance, carefully boxed, and PREPAID by us, on receipt of the above price.

Same set, but wound to 8 ohms (local), \$4.00.

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT, \$4.75.

## The New Departure Learners' Outfit....

## WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.

The IDEAL SET for HOME PRACTICE. Always Ready. NEAT, CLEAN, ATTRACTIVE.

The INSTRUMENT is our well-known "MORSE LEARNERS' APPARATUS" with STEEL LEVER KEY, arranged for use with our "MASCOT DRY BATTERY."

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

Instruction Book goes free with each outfit.

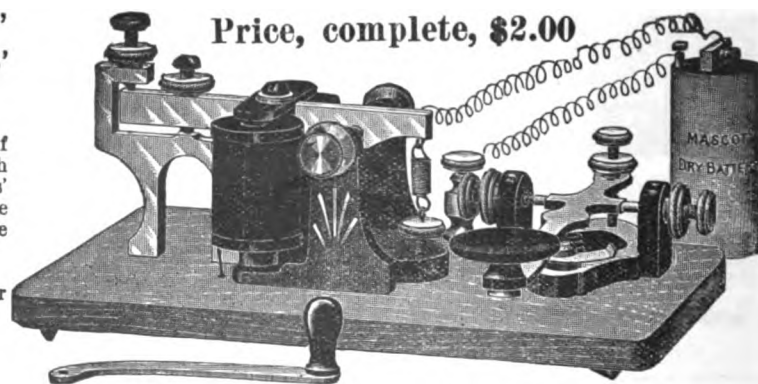

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$3.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card.

These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 50 cents or less.

Price, complete, \$2.00

J. H. BUNNELL & CO. 76 Cortlandt St. New York.

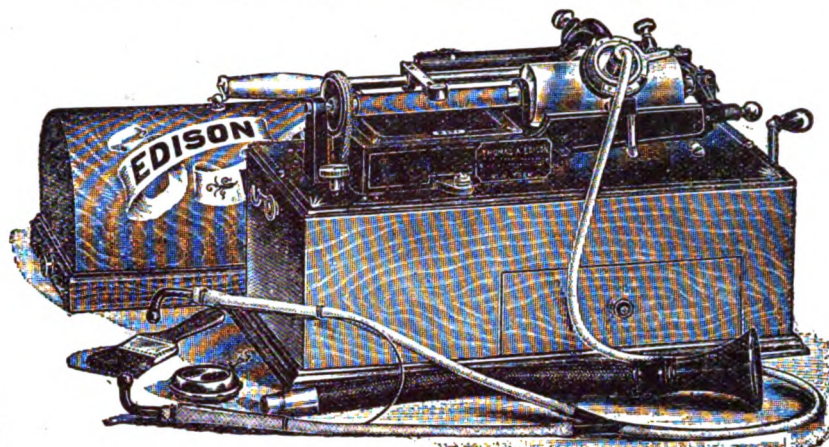

Sent for Catalogues, Circulars, etc., of all the above to

**OFFICES receiving U. S. Government telegrams addressed to Army Officers check and "collect," that not being collected for are turned in with, and taken credit for, in the monthly form No. 4 report for collection from the government, should turn in the water press or other office copies of such (received "collect") telegrams. Copies given by the Army Officers, they are addressed to, upon the Quartermaster General's blue print Official Telegram form No. 87, are of no value for the purpose of collection from the government, as such forms are furnished by the Quartermaster General to Army Officers, for use by them for telegrams they SEND, and are NOT designed for use by them for telegrams they RECEIVE.**

**INQUIRY** is made by an operator at a small office for way of preventing vitriol in battery jars from crystallizing at the bottom.

This trouble is caused by the solution becoming too strong from the formation of zinc sulphate in the cell, and is prevented by drawing off about a third of the solution and filling up with pure water.

**TELEGRAPHERS' MUTUAL BENEFIT  
ASSOCIATION.**

THE thirty second annual meeting of the Telegraphers Mutual Benefit Association, was held at 195 Broadway, New York, on 16th inst.

The meeting was called to order at 4 P. M. by President Walter C. Humstone who expressed his pleasure at seeing such a large meeting and at the attendance of so many agents as delegates from their respective districts.

From the reports of the secretary and treasurer, which were submitted it was shown that the Association has 4,387 members in the Full Grade (\$1,000 certificates); and 279 in the Half Grade (\$500 certificates).

The collections from members during the year amounted to \$58,404.94, and for interest on the Reserve Fund and current deposit account, \$8,312.47.

The amount paid for death claims, 48 in the Full Grade and 8 in the Half Grade, was \$49,500. The sum of \$10,000 was carried to the Reserve Fund making the total par value \$150,968.68.

The report of the Auditors show that the surplus of assets over liabilities at the close of the fiscal year, September 30, was \$164,668.23 which is an increase of nearly \$15,000 over the preceding year.

The proposal for amendment to the Constitution relating to the admission of ex-telegraphers, which was referred at the preceding annual meeting to the Executive Committee for consideration, was reported on unfavorably and on motion was tabled.

The following officers were duly elected: President, Walter C. Humstone, 1st Vice-President, W. H. Young, 2d Vice-President, Chas. P. Bruch, Secretary, M. J. O'Leary, Treasurer, A. R. Brewer. Executive Committee: James Merrihew, E. J. Nally, B. Brooks, Jos. L. Edwards, C. W. Hammond, S. S. Garwood. Auditing Committee: E. B. Pillsbury, Boston, Chairman; W. J. Dealy and T. E. Fleming.

**THE Telegraphers' Mutual Benefit Association**, that has recently closed its thirty-second year, is the oldest existing fraternal insurance association. During its life it has paid to the beneficiaries of deceased telegraphers nearly \$800,000, and accumulated a reserve fund to protect the members against extraordinary or excessive assessments of upwards of \$150,000. This has been effected at a cost averaging less than \$12,000 per annum for \$1,000 insurance. The manifest advantages of membership in this Association are extended to all persons of either sex between the ages of 18 and 45 in good health and employed in the telegraph business.

Full information and application blanks, etc., will be furnished by any of the agents in the principal cities in care of the Western Union Telegraph Co., or from the Secretary, Box No. 510, New York City.

**CHARLES H. SUMMERS**, Chief Electrician of the western division of the Western Union Telegraph Co., died suddenly in San Francisco, on November 2d.

Mr. Summers was born in Kentucky and became an opera'or about 45 years ago. In 1867 he was Superintendent of Telegraph of the Indianapolis, Cincinnati & La Fayette Railroad Co., but for the past 30 years occupied the position in the service of the Western Union Telegraph Co. that he held at the time of his death. He leaves a widow and seven children. His funeral services were held at his late residence in Chicago on November 8th. He had an extended acquaintance, particularly with telegraphers, by whom, as well as by the company in whose service he was so long engaged, he was held in high esteem, for his efficient service, upright character and genial disposition.

### IRON MADE RED HOT WITH WATER.

**ELECTRICITY USED TO PRODUCE AN APPAR-  
ENTLY CONTRADICTIONARY RESULT.**

ONE of the astonishing things developed through the introduction of electricity into every-day affairs is a forge made for bench use, for the heating of soldering irons or light pieces of metal for working on the anvil, where the heating is accomplished by plunging the article to be heated into a tray of water. Nothing could be imagined more contradictory of one's preconceived ideas than this procedure and yet to the electrician it is perfectly simple.

He makes the proper connections, plunges his iron into the water, and pretty soon the iron will begin to glow under water and then to turn red or white hot, just as he desires it for working. When he gets through working the iron he may plunge it into the water again and cool it with a "siss" as expeditiously as he could in any other tank of water. This curious forge is made as follows: The tank is of wood or of any other substance which will hold water and not form an electrical conductor. One wire of the electric circuit passes to the bottom of the tank, where it is connected to a plate of metal which lies there. Over this plate water, preferably saturated with salt, fills the tank nearly to the top and serves to conduct the current to whatever object is to be heated. Nothing could be better for this purpose, for the water naturally closes all about the object and fits it on every side. The other end of the current conducting wire is fastened to the tongs or led to a metal frame work at the edge of the tank on which the tongs or the shank of a soldering iron lie when it is to be heated. The moment the object to be heated is plunged into the water a current passes from the water through the object, and at the same moment some of the water is decomposed by electrolytic action. The nitrogen of the water becomes electrified and adheres to the object to be heated and forms a film of gas, which separates the object completely from the water, while at the same time this gas forms such an obstruction to the passage of the electric current that the energy of the current is turned into heat.

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY.  
NEW YORK, November 20, 1898.

The following list of "changes" corrects the Tariff Book "of July, 1898," to date. Changes in the list of "New Offices" are not included.

The hand **✱** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Ward, Col., which was formerly a single star station, but which is now a Western Union office in Square 827.

See Special Notices at end of this circular.

### CHANGES.

#### ALABAMA.

- ✱ Abbeville, now 25 2 (25 1 N M) Fort Gaines, or Bainbridge, Ga., or Montgomery, Ala.
- 370 Cox Station closed.
- ✱ Dothan, now 25 2 (25 1 N M) Fort Gaines, or Bainbridge, Ga., or Montgomery, Ala.
- ✱ Elba, now 25 2 (25 1 N M) Ozark.
- 331 Horse Creek. P. O. now Horse Creek.
- 358 Merts, closed.
- 358 Prichard, closed.
- ✱ Rock West, closed.
- 319 Shelby Springs, closed.
- 338 Tacon, closed.
- 370 Venetia, closed.

#### ARIZONA TERRITORY.

- ✱ 1014 Canon Diablo, now checks direct.
- 1040 Chalender, now checks direct. P. O. care Supt. Tel. Sta. Fe. Pac. Ry., Los Angeles, Cal.
- ✱ Globe City, now 65 4 (45 3 N M.) Wilcox or Holbrook, or 90 6 Bowie.
- 1039 Huachuca. P. O. address now Turner.
- ✱ Rock Butte. Rate beyond Phoenix, now 50 3.

#### ARKANSAS.

- ✱ ✱ ✱ Bertig, now ✱ ✱ Bertig.
- ✱ ✱ ✱ Blakemore, now ✱ ✱ ✱ Blakemore Station, 25 0 Pine Bluff.
- ✱ ✱ ✱ Cornerstone, now 25 0 Pine Bluff.
- 526 Dyer, closed.
- ✱ ✱ ✱ English, now 25 0 Pine Bluff.
- ✱ ✱ ✱ Fowlertown, should be ✱ ✱ Fowler.
- ✱ ✱ ✱ Goldman, now 25 0 Pine Bluff.
- 487 Harlow, closed.
- 513 Hartman, closed.
- ✱ ✱ ✱ Lake Dick, now 25 0 Pine Bluff.
- ✱ ✱ ✱ Madding, now 25 0 Pine Bluff.
- ✱ ✱ ✱ Moselys, now 25 0 Pine Bluff.
- ✱ ✱ ✱ Motes Plantation, now 25 0 Pine Bluff.
- ✱ ✱ ✱ Mount Nebo, now 25 3 Russellville.
- ✱ ✱ ✱ Mud Lake, closed.
- ✱ ✱ ✱ New Gascony, now 25 0 Pine Bluff.
- ✱ ✱ ✱ Reed Lake, now 25 0 Pine Bluff.
- ✱ ✱ ✱ Sherrill, now Sq. 473 Sherrill.
- ✱ ✱ ✱ Surrounded Hill, now 25 0 Pine Bluff.
- ✱ ✱ ✱ Swan Lake, now 25 0 Pine Bluff.
- 419 Swifton, closed.
- ✱ ✱ ✱ Tomberlins, now 25 0 Pine Bluff.
- ✱ ✱ ✱ Vinegar Hill, now 25 0 Pine Bluff.
- ✱ ✱ ✱ Wabbaseeka, now 25 0 Pine Bluff.
- ✱ ✱ ✱ Webb City, now ✱ ✱ ✱ Webb City, 10 0 Ozark.
- ✱ ✱ ✱ Weedon Place, now 25 0 Pine Bluff.

#### BRITISH COLUMBIA.

- ✱ Agassiz, now 25 2 (25 1 N M) Vancouver.
- ✱ Alisworth, now 75 5 (55 3 N M) Spokane, Wash.
- ✱ Albert Canyon, now 40 3 (30 2 N M) Vancouver.
- ✱ Armstrong, now 40 3 (30 2 N M) Vancouver.
- ✱ Arrothead, now 75 5 (55 3 N M) Spokane, Wash.
- ✱ Ashcroft, now 25 2 (25 1 N M) Vancouver.
- ✱ Balfour, now 75 5 (55 3 N M) Spokane, Wash.
- ✱ Barkerville, now 100 7 (75 5 N M) Vancouver.

## CABLES.

## CUBA.

Erase from page 437, 438 and 439 of Tariff Book the rate beyond Havana to Calmanera, Cristo, Guantanamo, Palma Soriano and Songo, and enter those places on page 443 as 73 cents per word from W. Union offices east of the Mississippi River, and 53 cents per word from offices west of the Mississippi River.

## BERMUDA AND TURKS' ISLAND.

A reduction in the rate to Bermuda was made August 1st. To obtain the new rate to Bermuda, deduct 29 cents from the rates given on page 431 of the Tariff Book. Thus, Tariff Book

rate New York to Bermuda is 51 cents per word. The new rate is 29 cents less than 81, or 42 cents. The rate to Turk's Island will remain as given in the Tariff Book, viz.: 25 cents per word less than the Tariff Book rate to Bermuda, or 14 cents per word more than the new rate to Bermuda. Thus New York to Turk's Island is 56 cents per word.

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 195), Catskill Mountains (page 199), and Lake George (page 307). When accepting messages for such localities, the receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 30th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Offices having special rates should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 437 to 448, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 877 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

**Ocean Steamers.** The arrival of any Steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOMAS T. ECKERT

President.

#### TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, November 18, 1898.

To All Transfer Agents and Offices:

The transfer service has been resumed at Maysville, Ky., and Winona, Miss., and discontinued at Bristol, Pa.

The transfer service was discontinued at Anaconda, Mont., on November 83, and resumed on November 14th.

On November 1st, Nyack, N. Y., was added to the list of Class E transfer offices in H. H. Ward's district.

On December 1st, the transfer service will be resumed at Bristol, Tenn., Sanford, Fla., and Waycross, Ga.

On December 1st, Kearney, Neb., will be advanced from Class E, to Class D, transfer office.

On October 23d, William H. Doherty, was appointed Transfer Agent at Milwaukee, Wis., vice W. A. Stroebel.

Managers will correct their lists accordingly.

THOS. T. ECKERT,

President.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, November 20th, 1898.

The following business franks are hereby revoked:

No. 8070, issued on account of the Keokuk & Hamilton Bridge Company.

No. 9544, issued on account of the Hotel Broezel, Buffalo, N. Y.

No. 9545, issued on account of the Hotel Broezel, Buffalo, N. Y.

No. 9546, issued on account of the Hotel Broezel, Buffalo, N. Y.

No. 9591, issued on account of the Omaha, Kansas City & Eastern Railroad.

Managers will please take up those franks if presented and return them to this office for cancellation.

THOS. F. OLARK,

Vice-President.

ACCORDING to statistics recently published, the capital invested in United States electrical enterprises did not much exceed \$1,000,000 in 1888. The sum now at stake in the same business is \$1,000,000,000. A record in progress and enterprise, and a full explanation of the commanding position now held by American electrical machinery in the markets of the world.

THE United States will have 210,000 square feet of floor space at the Paris Exposition. This does not include the ground for a Government Building, space for an agricultural pavilion, in which agricultural implements will be installed and a fully completed railway train in full operation. The division will be about as follows: Educational department, sciences and arts, 12,000 square feet; general machinery and electricity, 59,000 square feet; transportation and civil engineering, 20,000 square feet; agricultural and food products, 24,000 square feet; horticulture, 4,000 square feet; forestry, chase and fisheries, 4,000 square feet; mines and mining, 8,700 square feet; general manufacture, 57,000 square feet; army and navy, 6,000 square feet; chemical industries, 5,000 square feet; social economy, 2,200 square feet; fine arts, 10,000 square feet. Applications for exhibition room are coming in rapidly.

## GOLD AND STOCK LIFE INSURANCE ASSOCIATION

TWENTY-FIRST YEAR.

For Telegraphers and Others in  
Electrical Service.

INITIATION FEE \$1.00; DUES, 50 Cents per Month; INSURANCE, \$500.00, in payments of \$50.00 per Month for Ten Consecutive Months.

WM. J. DEALY, Secretary,

195 Broadway, New York.

THE only machine that embodies all of the experience achieved in the making of writing machines. It began at the beginning, and led the way up to the utmost perfection of mechanism yet attained, i. e., to the Remington Models Nos. 6, 7 and 8 (wide carriage).

WYCKOFF, SEAMANS & BENEDICT

327 Broadway, New York

TREASURER'S OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, January, 1898.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1891) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

**First.** Every remittance to the treasurer must be accompanied by a letter of transmittal written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expenses must be reported, like any other item, in the monthly account current (form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

**Second.** Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to \$50.00, 13 cts.
Over \$5.00 to 10.00, 8 cts.	Over 50.00 to 60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over 60.00 to 75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over 75.00 to 100.00, 30 cts.
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

**Third.** If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

**Fourth.** If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

**Fifth.** If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

**Sixth.** Drafts, express money orders and post office money orders must be made payable to M. T. WILBUR, TREASURER, and sent by mail. They must not be made payable to M. T. WILBUR without the title.

**Seventh.** The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

**Eighth.** The large envelope, Form 124, should be used only for making remittances by express.

**Ninth.** Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

M. T. WILBUR, Treasurer.

## TELEPHONE OUTFITS.

This cut illustrates our No. 14 Telephone Outfit, which is guaranteed to give perfect satisfaction on lines up to 30 miles in length.

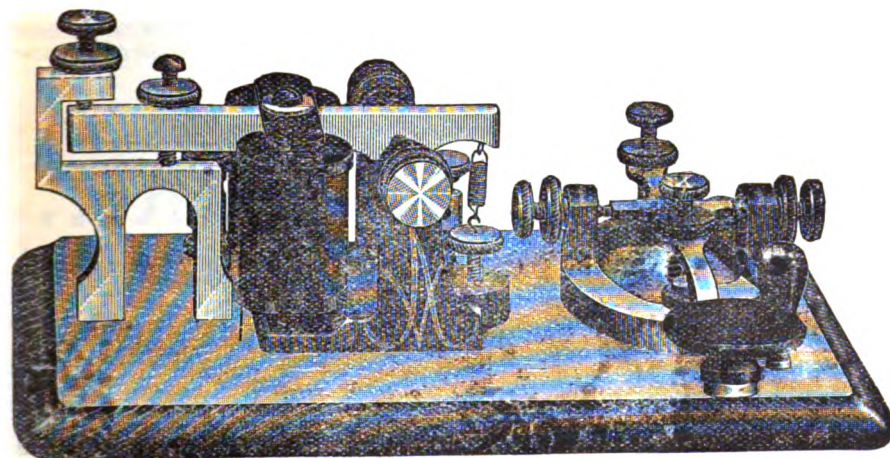

The transmitter is our well known granular carbon type of which there is none better made at any price. The receivers are fitted with compound bar magnets and are the best that can be made. Two Mesco Dry Batteries are furnished with each outfit.

**PRICE EACH STATION, NET, \$6.50**

## TELEGRAPH INSTRUMENTS.

**PONY RELAY.**

### EUREKA TELEGRAPH OUTFIT.

Outfit Complete With Battery, \$2.25.  
(Without Battery, \$1.75.)

Pony Relays, 20 ohms resistance,	\$2.00
" " 50 " "	2.25
Regular Relays, 150 ohms,	3.25
Box Sounding Relays, no key, 150 ohms,	3.00
" " " with key, 150 ohms,	4.00
Pony Box Relays, no key (Greeley), 20 ohms	2.00
Steel Lever Keys, with legs,	1.00
" " " legless,	1.10
Our Improved Giant Sounder, local	1.50
" " " 20 ohms,	1.70

(No extra charge for Aluminum Lever on the above.)

Mechanical Telegraph Instrument (Greeley),	.60
Plain Plug Cut-out (including plug), single,	1.25
" " " double,	2.00
Lightning Arrester, with ground switch,	.50

### DESCRIPTION OF EUREKA OUTFIT.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. Steel lever key and sounder gives a loud and clear sound, equal to the best expensive instrument.

### THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.,	\$2.25
Eureka instrument only (no battery or wire), for short lines	1.75
Eureka instrument only, wound for lines 1 to 15 miles.	2.00
Postage on instrument only (battery not mailable).....	.40

We claim this the BEST low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

If goods are to be sent C. O. D. one-third of the amount must be remitted with order or express charges guaranteed by express agent

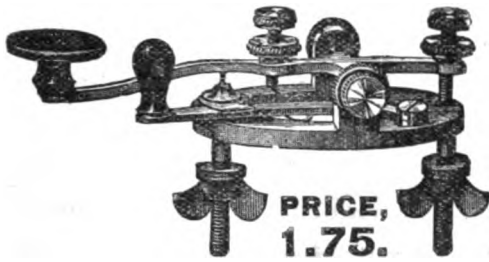

Our No. 10 Catalogue (336 pages) is now ready. Mailed on receipt of ten cents.

## MANHATTAN ELECTRICAL SUPPLY CO.

32 CORTLANDT STREET, NEW YORK.

J. H. BUNNELL &amp; CO.'S

**STEEL LEVER****SOLID TRUNNION****KEYS.**

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

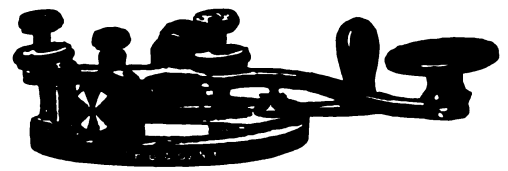

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid, and perfect sending, for the following reasons:

The Lever is only one-half the weight of the ordinary brass lever as generally made. The entire Lever and Trunnions together being made of but one piece of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of hardened platinum points, sticking is absolutely prevented.

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

• Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

**LEGLESS PATTERN STEEL LEVER KEY**  
New Form with Open Base.

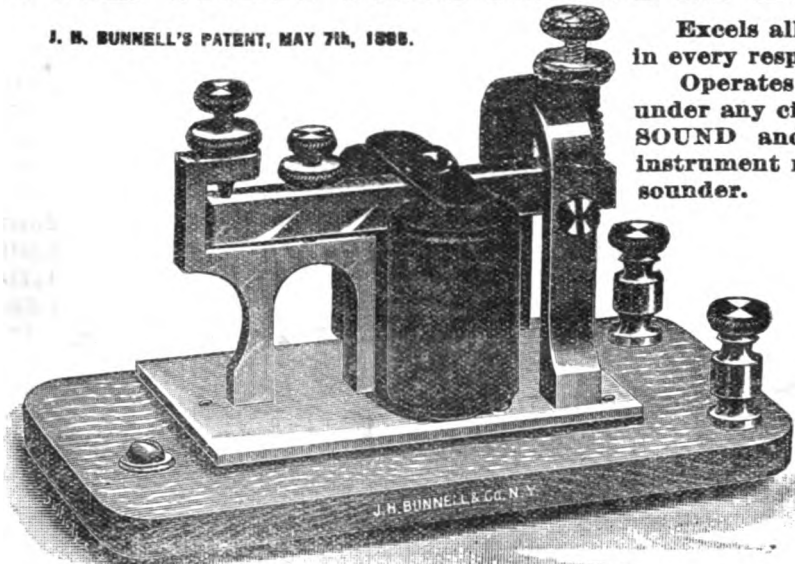

A beautiful and perfect Key suitable for use on Fine Desks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

**THE NEW ALUMINUM LEVER GIANT SOUNDER**

J. H. BUNNELL'S PATENT, MAY 7th, 1888.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the FINEST and BEST SOUNDER ever designed.

Operates with ONE CELL only of LOCAL, having no need whatever under any circumstances for the use of two cells. The MARGIN of SOUND and STRENGTH and QUICKNESS with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length, \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

**NEW GIANT SOUNDER, 20 OHMS RESISTANCE, AND STEEL LEVER KEY**

**COMBINATION SET,**

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. Price, \$4.50. Sent by mail to any distance, carefully boxed, and PREPAID by us, on receipt of the above price.

Same set, but wound to 8 ohms (local), \$4.00.

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT, \$4.75.

**The New Departure Learners' Outfit....****WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.**

The IDEAL SET for HOME PRACTICE. Always Ready. NEAT, CLEAN, ATTRACTIVE.

The INSTRUMENT is our well-known "MORSE LEARNERS' APPARATUS" with STEEL LEVER KEY, arranged for use with our "MASCOT DRY BATTERY."

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

Instruction Book goes free with each outfit.

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$2.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card.

These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 50 cents or less.

Price, complete, \$2.00

**J. H. BUNNELL & CO.** 76 Cortlandt St. New York.

Send for Catalogue, Circulars, etc., of all the above to

**J. H. BUNNELL & CO., 76 CORTLANDT STREET, NEW YORK,**  
TELEGRAPH AND TELEPHONE SUPPLIES OF EVERY DESCRIPTION.

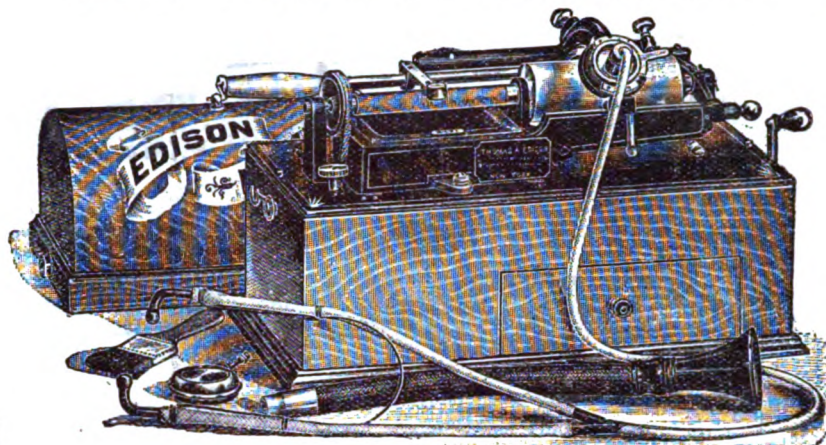

# Edison Phonographs and Supplies

## NEW HOME PHONOGRAPH.

*Thomas Edison*

Musical and Talking Records, 50 cts. each. Per doz. \$5.00.

Triple Hearing Tubes, \$2.25.

14-inch Horn, 40 cts.

Blank Cylinders 20 cts. each.

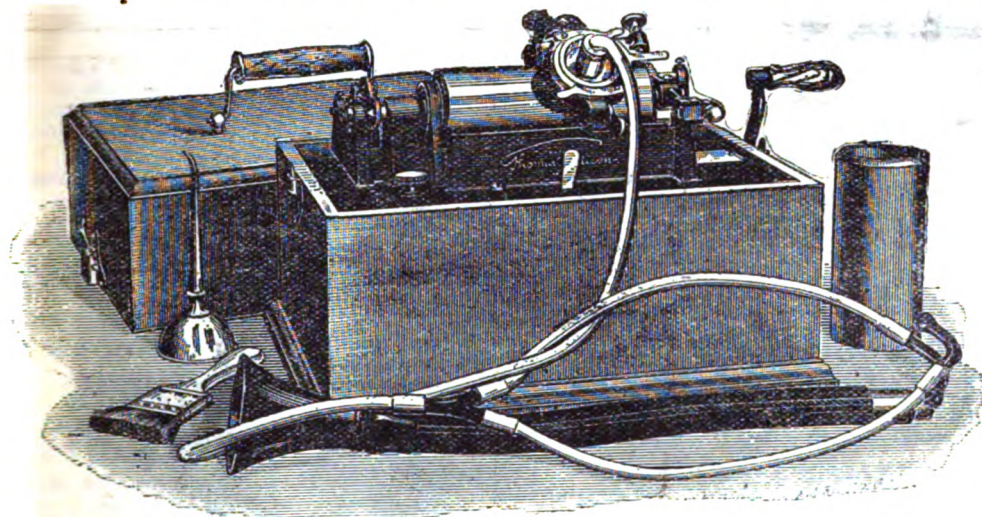

**PRICE \$30.00.** No battery required.

A complete talking and musical machine, equipped with a spring motor that runs six records with a single winding.

Will record, will reproduce, will shave off. Weighs 25 lbs.

CATALOGUES OF MACHINES, OUTFITS, SUPPLIES AND RECORDS MAILED FREE TO ANY ADDRESS ON APPLICATION.

## \$20.00 THE NEW STANDARD EDISON PHONOGRAPHS 20.00

Complete with choice of either Combined Recorder and Reproducer or Automatic Reproducer, \$20.00.

When not ordered otherwise, the Automatic Reproducer will be sent with machine. Extra Speakers, Automatic or Combined, \$5.00 each. This is the Latest Improved GENUINE EDISON PHONOGRAPH. Weight, 16½ pounds.

IT TALKS, IT SINGS, IT PLAYS, IT LAUGHS and will MAKE YOU laugh.

It is put up in a neat, convenient carrying case; has a noiseless spring motor (no battery required). It makes records, reproduces them and shaves off cylinders in a manner equal to the higher priced machines. Full instructions accompany each instrument. It is simple and not liable to get out of order. Any one can operate it.

EVERY STANDARD PHONOGRAPH includes a speaker, a shaving device, a hearing tube, a speaking tube, a camel's hair brush, an oil can, and a winding crank. When so ordered a 14 inch japanned horn will be sent in place of the speaking tube.

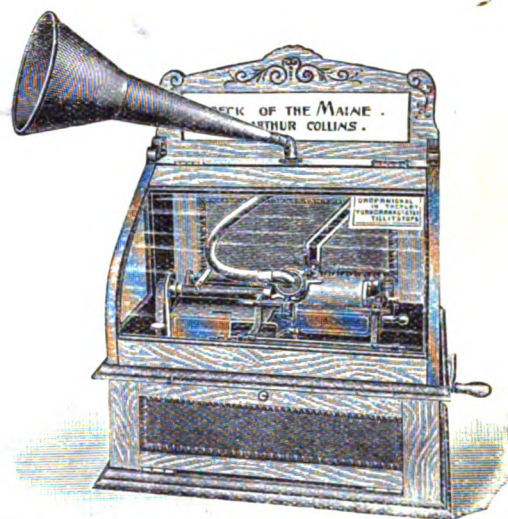

HIGH GRADE RECORDS 50 cents each. Per doz. \$5.00.

WHOLE NO. 546.

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY, }  
NEW YORK, December 20, 1898.

The January, 1899, edition of the Tariff Book is now being distributed, and every office should be supplied with one or more copies on or before January 1, when the new book takes effect.

Managers should read carefully the pages of instruction at the beginning of the book; they should also examine the names, square numbers and P. O. addresses of their offices, and the names and rates of "other" line offices with which they connect, and report at once to their Superintendent any errors which they may discover.

The following list of "changes" corrects the Tariff Book "of January, 1899," to date.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Cade, La., which was formerly a three star station, but which is now a Western Union office in Square 476.

See Special Notices, at end of this circular.

### CHANGES.

#### ARIZONA TERRITORY.

- \* Fort Apache. Erase route via Willcox.
- \* Fort Grant. Erase route via Holbrook.
- \* Globe City. Erase route via Willcox.
- \* Mammoth, closed.
- \* San Carlos. Erase route via Willcox.

- 1158 Snoqualmie.

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 204), Catskill Mountains (page 208), and Lake George (page 216). When accepting messages for such localities, the receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words, "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading, "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Offices having special rates should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 445 to 461, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 395 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOMAS T. ECKERT,  
President

#### 1899 COLUMBIA CALENDAR.

THE FOURTEENTH EDITION OF THE WELL-KNOWN AND VERY USEFUL LITTLE MEMORANDUM PAD MAKES ITS WELCOME APPEARANCE.

THE fourteenth annual edition of the Columbia desk-pad calendar, issued by the Pope Mfg. Co., of Hartford, Conn., is being distributed. This calendar occupies a unique place among advertising devices. It may be said to be largely the product of the Pope company's own customers, whose contributions in the shape of fitting testimonials to the merits of Columbia product, or clever bits of verse about bicycling in general, appear at the tops of the various pages over the names of the contributors.

The pages for Sundays, the first day for each month, and Holidays, present appropriate selections from well-known authors.

Any person may obtain a copy by applying to the nearest Columbia dealer or by sending five 2-cent stamps to the calendar department, Pope Mfg Co., Hartford, Conn.

Size, 2 3/4 inches.

Made like a Watch by a Watch Co.

Counts and records infallibly words and figures written on any typewriter.

Easily read, instantly re-set, capacity unlimited, fully guaranteed.

Send for book about it.

New York.

### GOLD AND STOCK LIFE INSURANCE ASSOCIATION

TWENTY-FIRST YEAR.

For Telegraphers and Others in  
Electrical Service.

INITIATION FEE \$1.00; DUES, 50 Cents  
per Month; INSURANCE, \$500.00, in pay-  
ments of \$50.00 per Month for Ten Consecutive  
Months.

WM. J. DEALY, Secretary,  
195 Broadway, New York.

THE only machine that embodies all of the experience achieved in the making of writing machines. It began at the beginning, and led the way up to the utmost perfection of mechanism yet attained, i. e., to the Remington Models Nos. 6, 7 and 8 (wide carriage).

WYCKOFF, SEAMANS & BENEDICT

327 Broadway, New York

TREASURER'S OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, January, 1896.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

First. Every remittance to the treasurer must be accompanied by a letter of transmittal written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expenses must be reported, like any other item, in the monthly account current (form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

Second. Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5 00, 5 cts.	Over \$40.00 to \$50 00, 18 cts.
Over \$5 00 to 10 00, 8 cts.	Over 50 00 to 60 00, 20 cts.
Over 10 00 to 20 00, 10 cts.	Over 60 00 to 75 00, 25 cts.
Over 20 00 to 30 00, 12 cts.	Over 75 00 to 100 00, 30 cts.
Over 30 00 to 40 00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

Third. If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

Fourth. If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

Fifth. If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

Sixth. Drafts, express money orders and post office money orders must be made payable to M. T. WILBUR, TREASURER, and sent by mail. They must not be made payable to M. T. WILBUR without the title.

Seventh. The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

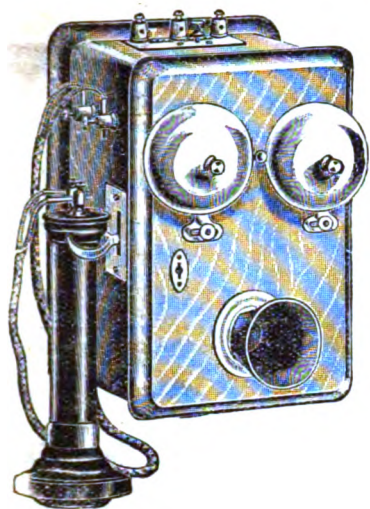

Eighth. The large envelope, Form 124, should be used only for making remittances by express.

Ninth. Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

M. T. WILBUR, Treasurer.

## TELEPHONE OUTFITS.

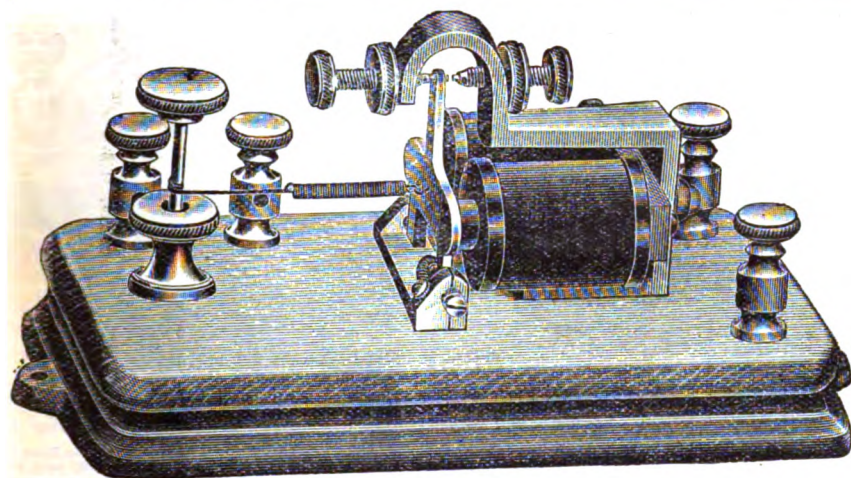

This cut illustrates our No. 14 Telephone Outfit, which is guaranteed to give perfect satisfaction on lines up to 30 miles in length.

The transmitter is our well known granular carbon type of which there is none better made at any price. The receivers are fitted with compound bar magnets and are the best that can be made. Two Mesco Dry Batteries are furnished with each outfit.

**PRICE EACH STATION, NET, \$6.50**

### DESCRIPTION OF EUREKA OUTFIT.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

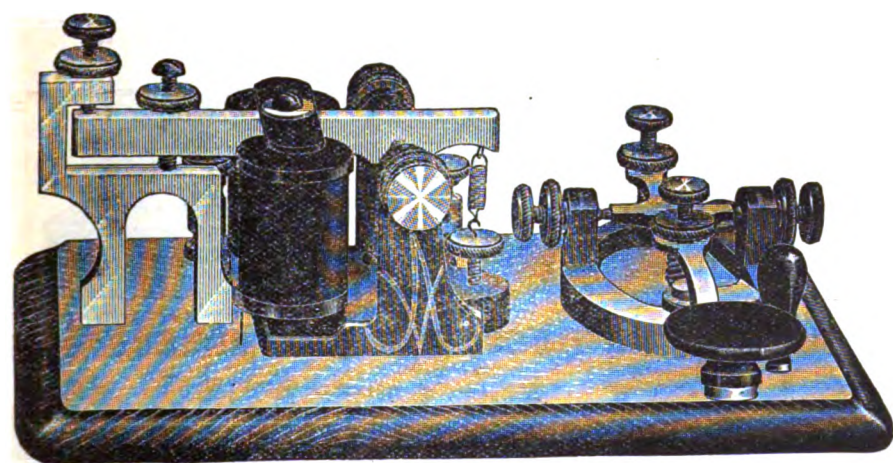

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. Steel lever key and sounder gives a loud and clear sound, equal to the best expensive instrument.

### THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.,	\$2.25
Eureka instrument only (no battery or wire), for short lines	1.75
Eureka instrument only, wound for lines 1 to 15 miles.	2.00
Postage on instrument only (battery not mailable).....	.40

We claim this the BEST low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

### EUREKA TELEGRAPH OUTFIT.

Outfit Complete With Battery, \$2.25.  
(Without Battery, \$1.75.)

If goods are to be sent C. O. D. one-third of the amount must be remitted with order or express charges guaranteed by express agent

Our No. 10 Catalogue (336 pages) is now ready. Mailed on receipt of ten cents.

## JOURNAL OF THE TELEGRAPH.

PUBLISHED MONTHLY, ON 20th OF EACH MONTH, AT  
195 BROADWAY.

THE JOURNAL is issued on the 20th of each month. Its circulation is nearly 25,000 and is steadily increasing. It goes to every State, Territory and Province on the Continent, and is delivered to all the offices of the Western Union Telegraph Company, which now exceed 23,000 in number. Hence it is the best advertising medium of its class in the world.

tier, whence connection is continued by Russian-Siberian lines to Europe. The capital is also connected with all the treaty ports and principal cities in China proper, and these again with each other. Canton has connection also through Yunnan with Burma. China learned the value of the telegraph in the war with France, and it has long since been admitted to have 'become indispensable.' The telegraph, however, is under imperial control, and there is probably little opportunity for its

Chinese writing, syllabic, and as there are ages are sent cribing message is used; on the other the message is sent, and then the end."

lapses during the year, 47, which President Hutchinson said seemed unaccountable, in view of the Association's record and history, entitling it to rank first among its kind, for low rates, and for carefulness in selection of members, as well as economy in the conduct of its business.

He invited careful study of the reports, and urged that all friends of the Association work in the direction of increasing its membership, and thus extending its benefits.

THE Luminous Palace for the Paris Exposition of 1900 will probably be the greatest piece of glass and stained glass work ever undertaken. It is to measure about 110 feet high and 175 feet in circumference.

## THE TELEGRAPHERS' MUTUAL BENEFIT ASSOCIATION LEADS THEM ALL.

The Telegraphers' Mutual Benefit Association is the oldest assessment insurance society in the United States. It is a fraternal life insurance association, and was organized in New York city in 1867 by telegraphers, officered by telegraphers and for the benefit of telegraphers. The work of the association can hardly be estimated in figures, and it seems almost beyond belief that its membership is to-day only 4,674. The membership is open to all employed in the telegraph and telephone service. The insurance is given absolutely at cost, and the association has never yet contested a claim, while benefits to the amount of \$800,000 have been paid to the heirs of deceased members. The reserve fund of \$157,000 is so well invested that the interest on the same not only pays the running expenses of the association, but also pays several assessments.

Is it any wonder, then, that the Insurance Commissioners of the state of New York invariably commend its methods and management after each of the periodical state examinations of the books of the association?

It will be interesting to note here that the association began its successful career with but 125 members. It was born in sentiment. Mr. James D. Reid, the first telegraph superintendent, and late United States consul at Dunfermline, Scotland, who holds certificate No. 1, is credited with being its founder. Early in October, in 1867, he wrote the constitution and by-laws of the Telegraphers' Mutual Benefit Association, heading the same with the following: "The undersigned, for the purpose of mutual benefit, agree to the following articles of association." The papers were duly signed, and on October 22, 1867, the organization began its important career. Since its organization its growth in membership and assets has been steady, never once falling behind. When security is considered, its charges are extremely low. Successful business management has forced the organization into the proud position it now occupies, as the leading association of the kind in the United States, and it is likely to occupy this enviable place for all time to come.—*Telegraph Age*.

Applications for membership and full information respecting rates of assessment and benefits to be derived can be obtained from any Agent or from Secretary, P. O. Box 510, New York City.

It is believed that the exports of American electrical machinery for 1898 will exceed \$2,000,000.

In a voltaic cell there is about one and one-twentieth ounce of zinc consumed for every ounce of copper deposited. Copper melts more easily than gold, less easily than silver. The melting point of copper is about 2,450 degrees Fahrenheit.

## FEATURES OF CHINESE TELEGRAPHY.

IN an article in the "Engineering Magazine" on "Industrial progress in China," by J. S. Fearon and E. P. Allen, these interesting statements are made: "The telegraph is the only institution of modern science which has obtained any considerable foothold in China. Peking is connected by wire with Tientsin and with Manchurian points up to the Russian fron-

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, January 20, 1899.

Attention is called to the new exception to rule four given on page 379 of the Tariff Book. Per cent. is to be counted as one word. Heretofore it has been counted as two words.

The following list of "Changes" corrects the Tariff Book of January, 1899, to date. Changes in the list of "New Offices" are not included.

The hand **✱** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Cade, La., which was formerly a three star station, but which is now a Western Union office in Square 476.

See Special Notices, at end of this circular.

## CABLES.

## CUBA.

Telegraphic communication has been opened with Jiguani and San Luis, Province of Santiago. Rate same as to Santiago. Telegraphic communication also opened with Las Minas, Lugareno, Nuevitas and Puerto Principe, Province of Puerto Principe. Rate same as to Santa Cruz del Sur.

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 204). Catskill Mountains (page 208), and Lake George (page 216). When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words, "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that

checks of such messages show, first the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading, "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Offices having special rates should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 445 to 461, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 395 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOMAS T. ECKERT,

President.

## TRANSFER SERVICE.

EXECUTIVE OFFICE  
WESTERN UNION TELEGRAPH COMPANY, }  
NEW YORK, January 18, 1899.

To All Transfer Agents and Offices:

The transfer service has been resumed at Gainesville, Ga.

The transfer service was temporarily discontinued at Newport News, Va., on December 19th, and resumed on January 9th, and temporarily discontinued at Lewistown, Pa., on December 21st, resumed on January 9th, and temporarily discontinued on same date.

On January 9th, Palm Beach, Fla., was added to the list of I. O. T. Class E, transfer offices in B. F. Dillon's district.

On January 16th, Dodge City, Kans., was added to the list of Class D, transfer offices in J. J. Dickey's district.

Managers will correct their lists accordingly.

THOS. T. ECKERT,  
President.

## THE POPULATION OF EGYPT.

"DURING the last hundred years the population of Egypt has shown a constant increase." "In 1800 it consisted of 2,460,200 souls, in 1846 this number had increased to 4,476,440, and in 1882 to 6,813,919. At the present time the population is estimated at 9,734,405, and if it continues to increase in the future in the same proportion as in the past, it will amount by the year 1912 to about 12,000,000. As regards the distribution of the sexes, there are 4,947,850 males, and 4,786,555 females, and these figures include 112,526 foreigners. France has supplied 14,155, the United Kingdom, 19,557. The most numerous of the foreign inhabitants are the Greeks, who number 38,172; then come the Italians, 24,467; and (after the French and English) Austrians, 7,117; Russians, 3,191; Persians, 1,301; Germans, 1,277; Spaniards, 765; Swiss, 472; Americans, 291; Belgians, 256; Dutch, 247; Portuguese, 151; Swedes and Norwegians, 107; Danes, 72; and 923 of other nationalities. In lower Egypt there are 5,676,109 inhabitants, and in upper Egypt, 4,058,296. Public instruction leaves much to be desired, for of the entire population only 467,886 persons are able to read and write; there are, therefore, 9,266,519 inhabitants, or 95 per cent. of the aggregate population, completely illiterate. What is even more extraordinary is the fact that 6,486,498 persons, or about two-thirds of the entire population, are without any trade or profession."

## ELECTRICITY IN THE SEPARATION OF METALS.

What has been accomplished by the use of electricity in separating the metals on a large scale can be seen from the following data: In 1897 one-third of the entire copper produced (137,000,000 kilograms) was obtained electrolytically. The larger part of the gold and silver were obtained in the same way. Sodium is produced entirely by electrolysis (260,000 kilograms in 1897), and the increase in the aluminum produced, from 9,500 kilograms in 1888 to 321,000 kilograms in 1894, is to be referred to the same cause. This aluminum can now be used for the preparation of other metals which were difficult to obtain. At the last meeting of the Electro-Chemical Society in Leipsic we saw almost chemically pure chromium prepared by suitably igniting a mixture of aluminum and chromium oxide. In the same manner manganese, titanium, tungsten, vanadium, cerium, etc., were found. This opens up a field in the metal alloys which will, perhaps, be of technical importance.—*Science*.

### EUREKA TELEGRAPH OUTFIT.

Outfit Complete With Battery, \$2.25.  
(Without Battery, \$1.75.)

#### DESCRIPTION OF EUREKA OUTFIT.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. Steel lever key and sounder gives a loud and clear sound, equal to the best expensive instrument.

#### THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.,	\$2.25
Eureka instrument only (no battery or wire), for short lines	1.75
Eureka instrument only, wound for lines 1 to 15 miles..	2.00
Postage on instrument only (battery not mailable).....	.40

We claim this the BEST low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

If goods are to be sent C. O. D. one-third of the amount must be remitted with order or express charges guaranteed by express agent

Our No. 10 Catalogue (336 pages) is now ready. Mailed on receipt of ten cents.

**NEW YORK, FEBRUARY 20, 1899.**

**TRANSFER SERVICE.**

EXECUTIVE OFFICE  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, February 18, 1899.

**To All Transfer Agents and Offices:**

The transfer service has been resumed at Lewistown, Pa., and temporarily discontinued at Hot Springs, S. D.

The transfer service has been permanently discontinued at Drifton, Pa., and the name should be stricken from the list of transfer offices in the Tariff Book.

On February 1st, the following changes took effect:

Painesville, O., advanced from Class E, to Class D, and Huntington, W. Va., advanced from Class D, to Class C, transfer offices.

On March 1st, New London, Conn., will be transferred from J. H. Wentworth's district to H. H. Ward's district.

**Managers will correct their lists accordingly.**

THOS. T. ECKERT,  
*President.*

EXECUTIVE OFFICE  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, February, 20, 1899,

This Company is directed to cancel business frank No. 72, issued on account of Atlantic Valdosta & Western Railway Company, the holder having left that Company's service. Managers are requested to take up that frank if presented, and return it to this office for cancellation.

**THOS. T. ECKERT.**  
*President.*

THE Anglo American Telegraph Company's financial reports for last year, indicate that the traffic receipts of "pool" cables that in 1896 were about \$200,000 greater than in 1895, and in 1897 were about \$100,000 greater than in 1896, and were in 1898 about \$400,000 greater than in 1897.

**AMONG the ship canal projects which are making the most progress is the Russian canal from the Baltic to the Black Sea, work on which was commenced last spring. Four years will be required to complete it. It will be 1,080 miles long and 217 feet wide at the top, and 117 feet wide at the bottom, and the depth will be 28½ feet. The canal will be lighted entirely by electricity, and the total cost will be estimated at about \$100,000,000.**

**JESSE H. BUNNELL**, an old time and military telegrapher died suddenly in New York on February 8th.

Mr. Bunnell who was born in Ohio in 1848, was in his earlier life a telegrapher, and in his later life a manufacturer of telegraph and electrical supplies. In 1854 when a telegraph messenger at Massillon, O., he learned to be an operator, and during the greater part of the Civil War was an operator in the U. S. Military telegraph service. In 1872 he engaged in the business of manufacturing telegraph supplies, and for the last 20 years was the senior member of the firm of J. H. Bunnell & Co.

**JOSHUA CASE**, an old time telegraph constructor, died at Cleveland, O., on January 18th, aged 78 years. He was long associated with the Western Union Telegraph Company, in that Company's earlier years as Superintendent of Construction and Repairs within the Western Territory its lines then occupied—but he retired from the telegraph service upward of thirty years ago.

## MINING IN JAPAN.

Regarding gold, silver, copper and coal mining in Japan, the *Zeitschrift für praktische Geologie* furnishes the latest statistics. The development of the mining industries in Japan since the termination of the last war has been a rapid one, and that country now furnishes considerable quantities of precious and useful metals, although little is heard abroad of this production.

The gold production since 1893 has risen almost 5,000 ounces, and in 1896 reached the yield of 28,300 ounces. The nineteen existing gold mines are partly in the emperor's possession, partly in that of private parties. The most important are those of Sado and Ikuno. Latterly gold has been discovered near Nikko, and the gold production will therefore rise considerably more in the near future. Nikko bids fair to become the center of the Japanese production of precious metals, since besides gold, strongly argentiferous lead ores have been found. By virtue of the Japanese laws, foreigners are permitted to participate in mining undertakings.

Silver is found in forty-five places in Japan, and in 1896 afforded a yield of 1,500,000 ounces, which is equal to an increase of almost 650,000 ounces since 1893.

Very considerable is the copper production of Japan, there being at present seventy mines. During the fiscal year ending June 30 last, 35,000 cattiees, or about 500,000 centners of copper, valued at 5,800,000 yen (about \$3,000,000), were mined. Since 1875 the copper production has increased almost ninefold. Most copper is sent to Hong-Kong, then to China and to England, the total export amounting to 350,000 centners, i. e., five-sevenths of the whole production.

Coal mining has, since the war, risen about 1,500,000 tons, and in 1897 more than 2,000,000 tons of coal, valued at about \$6,000,000, were exported. The companies carrying on coal mining are in a very good financial condition. Altogether there are one hundred and twenty coal mines, of which, however, only about fifty are of importance. The most productive is the Miike mine, in the province of Chikugo, yielding 600,000 tons per annum. A new coal field was discovered in 1896, and work has now been commenced on it. It is situated in the province of Iburi, on the river Mukawagawa, and is said to contain 40,000,000 tons above and 30,000,000 below the level of the sea. Aside from this last discovery, however, it has been computed that the coal stores of Japan, at the present rate of production, will be exhausted in forty-five years.—*Scientific American*.

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, February 20, 1899.

Attention is called to the new exception to rule four given on page 379 of the Tariff Book. Per cent. is to be counted as one word. Heretofore it has been counted as two words.

The following list of "Changes" corrects the Tariff Book of January, 1899, to date. Changes in the list of "New Offices" are not included.

The hand **✱** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Cade, La., which was formerly a three star station, but which is now a Western Union office in Square 478.

See Special Notices, at end of this circular.

## CABLES.

## BELGIUM AND HOLLAND.

Taking effect March 1st, the rate for Atlantic Cable messages to Belgium and Holland will be same as the rate to London.

## BRAZIL.

The following rates via London to Brazil are now in force:  
Word rates beyond London.

To:	
Breves	\$1 29
Cameta	1 29
Gurupa	1 29
Mosqueiro	1 29
Pinheiros	1 29
Soure	1 29
Alemquer	1 47
Itacatara	1 47
Munao	1 47
Obidos	1 47
Parintina	1 47
Other places	No change

Correct Tariff Book, pages 458 and 459.

## CABLES.—Continued.

## REDUCED RATES TO CUBA AND PORTO RICO.

The following revised list of rates to Cuba and Porto Rico via Key West and Havana was put in force February 15, 1899, and cancels the rates to those Islands via Key West and Havana given on pages 455, 456, 457 and 461 of the Tariff Book.

The rates to Havana given on page 446 of the Tariff Book remain in force for messages to other places in the West Indies and Central and South America.

TO CUBA	From W. U. and G. N. W. Offices in the U. S., east of the Miss. River, including St. Louis, Mo., and Galveston, Tex.	From W. U. Offices in the U. S., west of the Miss. O. except Vancouver, Victoria and New Westminster and from Northwest Territories.
PORTO RICO.....	\$0.75	\$0.85	\$0.95

## SPECIAL NOTICES.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount

of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading, "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

Offices having special rates should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

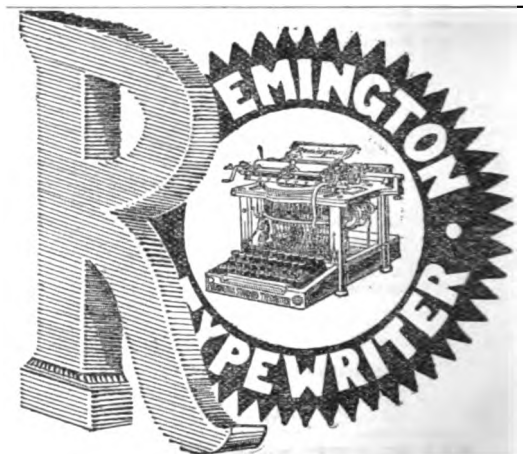

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 445 to 461, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 395 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOMAS T. ECKERT.  
President.

THE only machine that embodies all of the experience achieved in the making of writing machines. It began at the beginning, and led the way up to the utmost perfection of mechanism yet attained, i. e., to the Remington Models Nos. 6, 7 and 8 (wide carriage).

### EUREKA TELEGRAPH OUTFIT.

Outfit Complete With Battery, \$2.25.  
(Without Battery, \$1.75.)

#### DESCRIPTION OF EUREKA OUTFIT.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts--which includes sounder lever, sounder yoke or anvil, adjusting screws, etc.--are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. Steel lever key and sounder gives a loud and clear sound, equal to the best expensive instrument.

#### THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.,	\$2.25
Eureka instrument only (no battery or wire), for short lines	1.75
Eureka instrument only, wound for lines 1 to 15 miles.	2.00
Postage on instrument only (battery not mailable).....	.40

We claim this the ~~best~~ low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

If goods are to be sent C. O. D. one-third of the amount must be remitted with order or express charges guaranteed by express agent

Our No. 10 Catalogue (336 pages) is now ready. Mailed on receipt of ten cents.

NEW YORK, MARCH 20, 1899.

GEORGE W. ROBERTS, for nearly thirty years past in charge of the cable branch of the Western Union Telegraph Co.'s Auditors office, died in New York City on February 22d, aged 55 years. He was a veteran of the Civil War and has been in the continuous service of the Western Union Co. since its close. His funeral services were held on February 25th, at Old St. Luke's Chapel of Trinity Church in New York City, and also at the grave in Greenwood Cemetery, by a delegation from Gen. John A. Dix G. A. R. Post, of which he had long been a member, and of which, at the time of his death, he was Adjutant. There survives him a widow and two sons.

CAPT. SAMUEL TROTT, Commander of the Anglo-American Co.'s cable steamer Minia, died in Florida on March 11th.

Captain Trott was born in England, in 1832, and had followed the sea for fifty years. Twenty-five years ago he began his cable service career with the steamer Faraday, but about twenty years ago he entered the service of the Anglo-American Co., in which he con-

tinued up to the time of his death, and in which he attained the highest reputation in the laying and repairing of ocean sub-marine cables. His remains will be taken to England for burial.

"MORE steel is used in the manufacture of pens than in all the sword and gun factories in the world."—*Inc. Age*.

THE recently issued statement of the Government telegraphs of Great Britain, for the last fiscal year, shows the largest deficiency yet had in any year, about \$3,000,000.

### THE NEW YORK ELECTRICAL EXHIBITION.

DURING the month of May, 1899, there will be an electrical show in Madison Square Garden. The show will be under the auspices of and in connection with the twenty-second annual convention of the National Electric Light Association.

THE underground system, as applied to telegraphy, is about to be tried in England, the two points to be connected by this subterranean line being London and Birmingham. This adoption of the underground system has been forced upon the telegraph authorities by the overhead lines becoming unworkable during the severe gales which periodically afflict Great Britain. The cable to be laid between the two points mentioned will be 224 kilometers in length, and will contain 38 pairs of copper conductors, each wire weighing about 220 kilograms per kilometer, and having a resistance of 3.9 ohms per kilometer.—*Electrical Review*.

A CURIOUS case of telegraphic disturbance is reported from Utah, where the Oregon short line lost six telegraph wires for a distance of eight miles north of Ogden, Utah. It was found, on inspection, that the cross arms and insulators were heavily coated with salt varying from one-sixteenth to a quarter of an inch in thickness. This coating, when wet, taken in connection with the snow lying on the cross-arms, formed a dead cross. During the middle of the day, when the sun was shining brightly, the salt appeared to dry out and the wires could be used to some extent. When the cause of the trouble was determined, an engine was started out equipped with a large hose which was used with hot water for washing off the coating. The salt was carried by the winds blowing over the Great Salt Lake, and as salt is a conductor of electricity, the short circuiting of wires is easily explained.

## QUARTERLY REPORT OF THE WESTERN UNION TELEGRAPH COMPANY, FOR THE QUARTER ENDING MARCH 31st, 1899.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, March 8th, 1899.

The following statement exhibits the condition of the Company at the close of the quarter ended December 31st, 1898.

Surplus October 1st, 1898, as per last Quarterly Report.....	\$8,049,218 99
Net revenues, quarter ended December 31st, 1898.....	1,450,194 22
	\$9,508,408 21

From which appropriating for—

Dividend of 1½ per cent. paid January 16th.....	\$1,216,987 50
Interest on bonded debt.....	224,273 00
	1,441,260 50

Left a surplus January 1st, 1899.....\$8,067,147 71

Surplus January 1st, 1899, as above.....\$8,067,147 71

The net revenues of the quarter ending March 31st, instant, based upon nearly completed returns for January, partial returns for February, and estimating the business for March, will be about.....\$1,260,000 00

\$9,317,147 71

From which appropriating for—

Interest on bonds.....\$224,273 00

It requires for a dividend of 1½ per cent. on capital stock issued, about.....1,216,987 50

Deducting which, leaves a surplus, after paying dividend, of.....\$7,876,887 21

In view of the preceding statements, the Committee recommend the adoption by the Board of the following:

*Resolved*, That a dividend of one and one-quarter per cent. on the capital stock of this Company be hereby declared payable on and after the 15th day of April next, to stockholders of record at the close of the transfer books on the 20th day of March, instant.

*Resolved*, That for the purpose of the dividend hereinbefore declared, the stock books of the Company be closed at three o'clock on the afternoon of the 20th day of March, instant, and be reopened on the morning of the 8d day of April next.

Respectfully submitted,

THOS. T. ECKERT,  
President.

THE Executive Committee of the Association of Railway Telegraph Superintendents have, at the request of the Committee of Arrangements, changed the date of the annual meeting to May 17th, at Wilmington, N. C.

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, March 20, 1899.

The attention of managers is called to the revised list of rates via Key West and Havana to the West Indies, Central America and South America, given on page 34 of this Journal.

Attention is also called to the new exception to rule four given on page 379 of the Tariff Book. Per cent. is to be counted as one word. Herebefore it has been counted as two words.

The following list of "Changes" corrects the Tariff Book of January, 1899, to date. Changes in the list of "New Offices" are not included.

The hand **✱** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Cade, La., which was formerly a three star station, but which is now a Western Union office in Square 476.

See Special Notices, at end of this circular.

## SPECIAL NOTICES.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices should enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include the amounts under the "other" line checks, give only "this" line receipts for "this" line of State.

The lat

shows a place for the state receipts referred to above, and also a place for the total footings of the report. Offices having this latest form should be careful to make the entry of the totals as required.

Offices having special rates should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 445 to 461, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 395 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOMAS T. ECKERT,  
President.

## TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, March 18, 1899.

To All Transfer Agents and Offices:

The transfer service has been resumed at Hot Springs, S. D., and temporarily discontinued at Murfreesboro, Tenn.

The transfer service was temporary discontinued at Greenville, S. C., on February 20th, and resumed on March 13th.

On April 1st, Evanston, Ill., will be added to the list of Class D, transfer offices in E. M. Mulford Jr's district.

On April 1st, Newark, N. J., will be advanced from Class B, to Class A transfer office.

Managers will correct their lists accordingly.

THOS. T. ECKERT,  
President.

## EXHIBIT OF PATENTS AND INVENTIONS.

In connection with the Third Electrical Show to be held in Madison Square Garden, New York City, from May 8th to June 4th, 1899, there will be a Special Exhibition of Patents and Inventions. Inventors can bring their models before a large public and interested parties at small expense.

PREPARATIONS are being made by the Navy Department for the establishment of a school for enlisted men at the Brooklyn Arsenal, to be used to train the former soldiers with a machine gun.

NEW YORK, APRIL 20, 1899.

**THERE** died at his home on April 3d, Charles R. Havens, Western Union Manager at the Highlands of Navesink. N. J., aged 90 years. At the time of his death, Mr. Havens was probably the oldest living telegrapher—having been employed as such continuously for about 65 years in connection with the Marine Service of New York Harbor. His service began about 1833 in New York City, on the old Semaphore Line by which arrivals of vessels were reported from Sandy Hook. Subsequently when the Morse System replaced the Semaphore System, he was transferred to the Highlands of Navesink where he continued as observer, operator, and manager for upwards of 40 years.

THE 80th birthday of James D. Reid was on March 22d, and from his present home at Edinburg, Scotland, the city of his birth, he has sent as a token of loving remembrance to many of his numerous friends here, because the remembrance of many kindnesses was strong upon him, an attractive and characteristic booklet prepared by himself in his own familiar penmanship.

## TELEGRAPH COMMUNICATION IN THE PHILIPPINES.

**THE telegraph lines of the Philippine Islands are much more extensive than is generally known. There are between 1,500 and 2,000 miles of submarine and aerial routes in the archipelago.**

The cable line from Manila to Iloilo runs through a sea sprinkled with small islands, and lands at a seaport called Capiz, on the north shore of the island of Panay. Thence a land-line crosses the island to Iloilo. A British company laid the cable, but was forced to abandon its working. The same cable system extends on southward to the islands of Negros and Cebu. Land-lines connect the cable terminals with various important towns.

There are two cables from the island of Luzon to Hong Kong, one from Manila direct, and the other from Bolinao, on the west coast of the island. The latter line, however, is now abandoned.

S. B. GIFFORD, of Syracuse, N. Y., who entered the telegraph service at that place in 1850, and has been Superintendent of the Western Union Telegraph Co., resident there for the past thirty-five years, has contributed to one of the daily papers there interesting reminiscence of the early days of the telegraph in New York State—when there was as yet no railroad between New York and Albany, and the telegraph line crossed the Hudson River at Troy on masts.

In 1852 he was for a time an operator in New York City, where the telegraph companies then doing business had their offices in Wall Street and vicinity with no branch offices except up town ones at No. 201 Broadway, adjoining the site on which the Western Union main office building now is located, and in the Astor House.

The following year branch offices were opened in the St. Nicholas and Metropolitan Hotels. When the Harlem River drawbridge was open for the passage of vessels, telegraph communication would be interrupted until it was closed. This would sometimes occur at the time a wire was being occupied with the transmission of press report to the interior newspapers, when in consequence they sometimes would get but a brief report, and sometimes would not get any report.

**THE changes that electricity has wrought in metallurgical processes have acted to render less expensive many of the rarer metals. Calcium, the rarest metal as produced by electrical processes, is 280 times as expensive as gold.**

NEW YORK, April 6th, 1899.

*To the Executive Committee, Gold and Stock Life Insurance Association:*

The Auditing Committee begs leave to report they have examined the accounts of the Secretary and of the Treasurer, for quarter ended March 31st, and submits the following report.

Executive  
Committee.

Michael Breslin, the first President of the Association, and its Treasurer for twenty years, resigned the latter office at the April meeting of the Executive Committee.

Mr. Lewis Dresdner was elected to fill the vacancy.

**Mr. Breslin continues as a member of the Executive Committee, and as Chairman of the Trustees.**

## BRIDGE BUILDING BY MEANS OF ELECTRICAL MACHINERY.

**A BRIDGE** of 900 feet span, at Budapest, is being erected entirely by means of electrical machinery. The iron girders used as piles to keep the water back from the excavations for the shore pillars were driven in by an electric ram. The ram was a hammer rising 34 feet with a velocity of 12 feet per second. The spoil out of the hole was raised by an electric windlass. The water was removed by seven centrifugal pumps working day and night. The 5-inch diameter pumps were driven by 10 horse power motors, the 8-inch by 16 horse power, and one 9-inch by a 20 horse power motor.—*Scientific American*.

**TELEGRAPHERS' CONGRESS AT COMO,  
ITALY.**

**THE town of Como, Italy, is preparing to celebrate the centennial of the discovery of the electric battery, Alessandro Volta, the famous scientist having been born there. In connection with the exposition, there will be held an international congress of telegraphers, beginning May 31, 1899, and lasting four days.**

**TREASURER'S OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, January, 1898.**

*To Superintendents:* I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

*First.* Every remittance to the treasurer must be accompanied by a letter of transmittal *written upon blank No. 65*, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, *the amount of such expenses must be reported, like any other item, in the monthly account current (form 4).* Vouchers for such expense must *not* be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

*Second.* Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to \$50.00, 18 cts.
Over \$5.00 to 10.00, 8 cts.	Over 50.00 to 60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over 60.00 to 75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over 75.00 to 100.00, 30 cts.
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (*excepting where bank drafts can be obtained at less expense.*)

*Third.* If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

*Fourth.* If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

*Fifth.* If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

*Sixth.* Drafts, express money orders and post office money orders must be made payable to M. T. WILBUR, TREASURER, and *sent by mail.* They must *not* be made payable to M. T. WILBUR without the title.

*Seventh.* The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

*Eighth.* The large envelope, Form 124, should be used only for making remittances by express.

*Ninth.* Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

**M. T. WILBUR, Treasurer.**

**TARIFF BUREAU.  
MONTHLY CIRCULAR.**

**EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, April 20, 1899.**

The attention of managers is called to the revised list of rates via Key West and Havana to the West Indies, Central America and South America, given on page 51 of this Journal.

Attention is also called to the new exception to rule four given on page 379 of the Tariff Book. Per cent. is to be counted as one word. Herebefore it has been counted as two words.

The following list of "Changes" corrects the Tariff Book of January, 1899, to date. Changes in the list of "New Offices" are not included.

The hand **✱** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Cade, La., which was formerly a three star station, but which is now a Western Union office in Square 476.

See Special Notices, at end of this circular.

**CHANGES.**

**ALABAMA.**

- \*\*\* Andalusia, closed.
- Bon Secour, closed.
- \*\*\* Bridgeville, now 25 2 (20 1 N M) Columbus, Miss., or 25 2 (25 1 N M) Eutaw, Ala.

Other offices.....	1.70	1.80	1.75

\* From Louisiana and Texas to Colon and Panama 93 cents per word.

## SPECIAL NOTICES.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable

groups of letters, and of improper combinations of words.

Managers of Western Union offices should enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading, "This office

checks," give only the amount of your receipts for "this" line with offices of your own State.

The later form of the Check report No. 7 shows a place for the state receipts referred to above, and also a place for the total footings of the report. Offices having this latest form should be careful to make the entry of the totals as required.

Offices having special rates should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 445 to 461, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 395 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOMAS T. ECKERT,  
President.

## TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, April 18, 1899.

To All Transfer Agents and Offices:

The transfer service has been resumed at Murfreesboro, Tenn., and temporarily discontinued at Bloomington, Ind., and Palatka, Fla., and discontinued for the season at Palm Beach, Fla.

The transfer service was temporarily discontinued at Menominee, Minn., on March 22d, and resumed on April 8d.

On May 1st, Vancouver, B. C., will be added to the list of Class B, transfer offices in F. R. Steele's district, and on the same date Las Vegas, N. M., and Princeton, N. J., will be advanced from Class D to Class C, transfer offices.

Managers will correct their lists accordingly.

THOS. T. ECKERT,  
President.

Price each, 5 ohms, \$1.75.  
" " 20 " 2.00.

**Mesco Dry Battery.**  
Acknowledged the Best Dry Cell Manufactured.  
Price each, 20c.

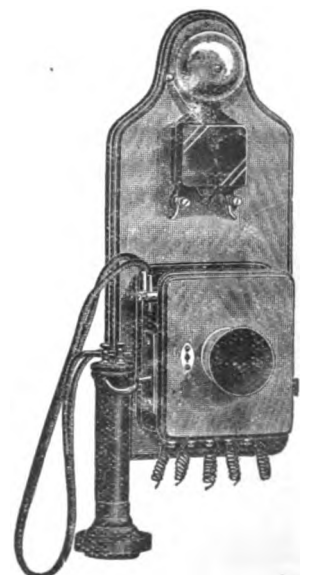

**No. 14 Telephone Outfit.**  
Price, each Station, \$6.50.

The No. 14 Telephone is our most popular private line instrument. We guarantee it will give perfect satisfaction on all lines up to 80 miles in length, with two instruments connected; or on lines of 5 to 10 miles with three to five instruments in circuit.

The transmitter is our well known granular carbon type, of which there is none better made at any price. The receivers are fitted with compound bar magnets and are the best that can be made. Two Mesco Dry Batteries are furnished with each outfit.

The No. 15 Outfit is O. K. for lines up to 1,500 feet in length. The transmitter and receiver is the same grade as furnished with the No. 14 Outfit. The only change is in the signaling apparatus. Five Mesco Batteries are furnished with each outfit.

**Send a trial order and get our No. 10 Catalogue (336 pages) free. Or send 10c. for postage and one will be mailed.**

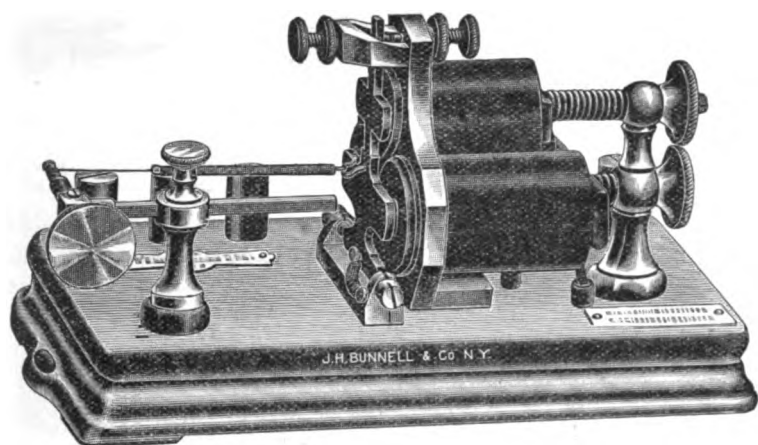

**No. 15 Telephone Outfit.**  
Price, each Station, \$4.50.

**32 CORTLANDT STREET, NEW YORK.**

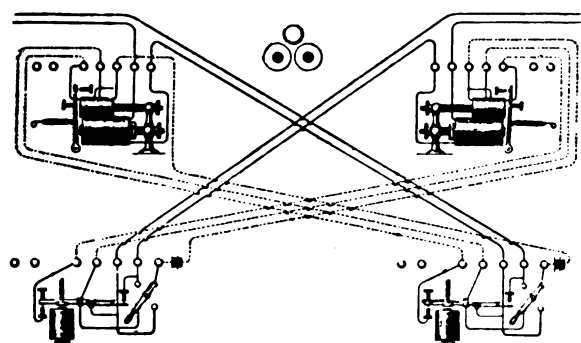

# Automatic Telegraph Repeaters.

**WEINY-PHILLIPS RELAY.**

**WEINY-PHILLIPS TRANSMITTER.**

**Weiny-Phillips Repeater Connections.**

The operation of this repeater is simple and easily understood. The third spool of relay is differentially wound, so that normally the windings neutralize each other and no magnetism is developed in this spool. One of the coils of the differential spool is in circuit with the front contact of the transmitter of opposite side, so that the instant the transmitter circuit is broken the corresponding coil of the differentially wound spool is opened thereby permitting the second coil to act and hold the relay armature closed.

The differential magnet being energised by the breaking instead of the closing of the auxiliary circuit enables this repeater to act quicker and thereby very materially increases its capacity for rapid signalling over any other type.

We take pleasure in calling attention to the merits of the

## WEINY-PHILLIPS REPEATER.

It has stood the test and comes out **AHEAD** of all **OTHERS** for **SIMPLICITY, RELIABILITY** and **QUICK POSITIVE ACTION.**

It is the **easiest** to **adjust** and requires the **least attention** of any Automatic Repeater.

It is extensively used and **preferred** over all other forms by the **Western Union** and **Postal Telegraph Companies**, the **Associated Press** and every **Railroad** that has tried it.

We might say that the **WEINY-PHILLIPS REPEATER** is particularly adapted for **railroad work** as, unlike some other types, there is no danger of "kicks" from the vibrations caused by passing trains, or other jars.

In brief, for all conditions of Railroad or Commercial work we unhesitatingly claim the **WEINY-PHILLIPS REPEATER AWAY AHEAD** of any other heretofore devised type of Automatic Telegraph Repeater.

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, May 20, 1899.

The attention of managers is called to the revised list of rates via Key West and Havana to the West Indies, Central America and South America, given on page 67 of this Journal.

Attention is also called to the new exception to rule four given on page 379 of the Tariff Book. Per cent. is to be counted as one word. Heretofore it has been counted as two words.

The following list of "Changes" corrects the Tariff Book of January, 1899, to date. Changes in the list of "New Offices" are not included.

The hand **(S)** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Cade, La., which was formerly a three star station, but which is now a Western Union office in Square 476.

See Special Notices, at end of this circular.

### CHANGES.

#### ALABAMA.

- \*\*\* Andalusia, closed.
- \* Bon Secour, closed.
- \*\*\* Bridgeville, now 25 2 (20 1 N M) Columbus, Miss., or 25 2 (25 1 N M) Eutaw, Ala.

\* From Louisiana and Texas to Colon and Panama 93 cents per word.

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 204), Catskill Mountains (page 208), and Lake George (page 216). When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words, "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices should enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading, "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

The later form of the Check report No. 7 shows a place for the state receipts referred to above, and also a place for the total footings of the report. Offices having this latest form should be careful to make the entry of the totals as required.

Offices having special rates should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 445 to 461, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 395 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

THOMAS T. ECKERT,  
President

## TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, May 18, 1899.

To All Transfer Agents and Offices:

The transfer service has been resumed at Palatka, Fla., and temporarily discontinued at Salisbury, N. C.

Managers will correct their lists accordingly.

THOS. T. ECKERT,  
President.

**Mesco Dry Battery.**

Acknowledged the Best Dry Cell  
Manufactured  
Price each, 20c.

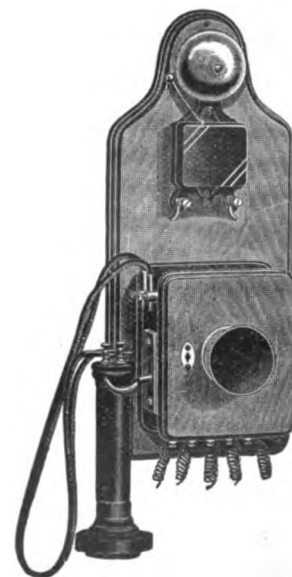

**No. 14 Telephone Outfit.**  
Price, each Station, \$6.50.

The No. 14 Telephone is our most popular private line instrument. We guarantee it will give perfect satisfaction on all lines up to 30 miles in length, with two instruments connected; or on lines of 5 to 10 miles with three to five instruments in circuit.

The transmitter is our well known granular carbon type, of which there is none better made at any price. The receivers are fitted with compound bar magnets and are the best that can be made. Two Mesco Dry Batteries are furnished with each outfit.

The No. 15 Outfit is O. K. for lines up to 1,500 feet in length. The transmitter and receiver is the same grade as furnished with the No. 14 Outfit. The only change is in the signaling apparatus. Five Mesco Batteries are furnished with each outfit.

**Send a trial order and get our No. 10 Catalogue (336 pages) free. Or send 10c. for postage and one will be mailed.**

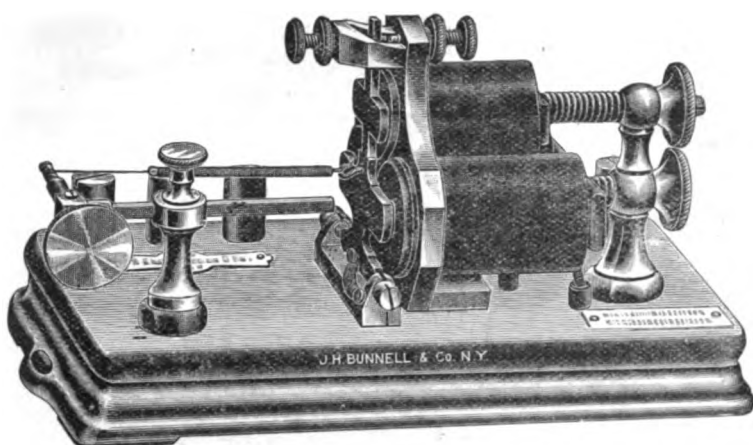

**No. 15 Telephone Outfit.**  
Price, each Station, \$4.50.

32 CORTLANDT STREET, NEW YORK.

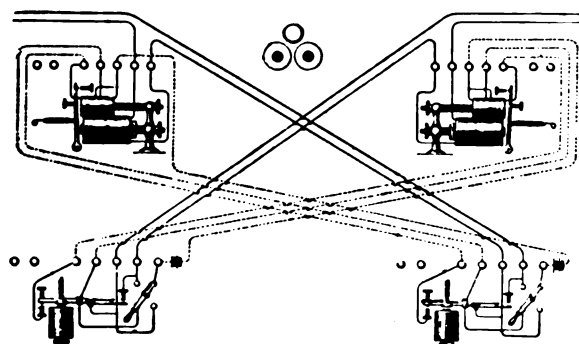

# Automatic Telegraph Repeaters.

**WEINY-PHILLIPS RELAY.**

**WEINY-PHILLIPS TRANSMITTER.**

**Weiny-Phillips Repeater Connections.**

The operation of this repeater is simple and easily understood. The third spool of relay is differentially wound, so that normally the windings neutralize each other and no magnetism is developed in this spool. One of the coils of the differential spool is in circuit with the front contact of the transmitter of opposite side, so that the instant the transmitter circuit is broken the corresponding coil of the differentially wound spool is opened thereby permitting the second coil to act and hold the relay armature closed.

The differential magnet being energised by the breaking instead of the closing of the auxillary circuit enables this repeater to act quicker and thereby very materially increases its capacity for rapid signalling over any other type.

We take pleasure in calling attention to the merits of the

## WEINY-PHILLIPS REPEATER.

It has stood the test and comes out **AHEAD** of all **OTHERS** for **SIMPLICITY, RELIABILITY** and **QUICK POSITIVE ACTION.**

It is the **easiest** to **adjust** and requires the **least attention** of any Automatic Repeater.

It is extensively used and **preferred** over all other forms by the **Western Union** and **Postal Telegraph Companies**, the **Associated Press** and every **Railroad** that has tried it.

We might say that the **WEINY-PHILLIPS REPEATER** is particularly adapted for **railroad work** as, unlike some other types, there is no danger of "kicks" from the vibrations caused by passing trains, or other jars.

In brief, for all conditions of Railroad or Commercial work we unhesitatingly claim the **WEINY-PHILLIPS REPEATER AWAY AHEAD** of any other heretofore devised type of Automatic Telegraph Repeater.

For prices and further particulars apply to

## THE ANDERSON SHORTHAND TYPEWRITER

Pat. April 27, 1897.

Is taking the place of Ste-  
nography because it is so  
quickly learned and because  
a typewriter that prints a word at one  
stroke is plainer and faster than short-  
hand. No teacher—no knowledge of stenography neces-  
sary. Enclose 2c. stamp for circular.

G. K. ANDERSON, 258 Broadway, New York City.

MODEL OF '99 NOW READY.

# JOURNAL OF THE TELEGRAPH

VOL. XXXII.

NEW YORK, JUNE 20, 1899.

WHOLE NO. 552.

## JOURNAL OF THE TELEGRAPH.

PUBLISHED MONTHLY, ON 30th OF EACH MONTH, AT  
195 BROADWAY.

THE JOURNAL is issued on the 30th of each month. Its circulation is nearly 25,000 and is steadily increasing. It goes to every State, Territory and Province on the Continent, and is delivered to all the offices of the Western Union Telegraph Company, which now exceed 23,000 in number. Hence it is the best advertising medium of its class in the world.

NEW YORK, JUNE 20, 1899.

At the 18th Annual Convention of the Association of Railway Telegraph Superintendents held at Wilmington, N. C., May 17th and 18th, the following officers were elected for the ensuing year.

President, L. B. Foley, Delaware, Lackawanna & Western Railroad, New York; Vice-president, W. F. Williams, Seaboard Air Line, Portsmouth, Va.; Secretary and Treasurer, P. W. Drew, Wisconsin Central Railroad, Milwaukee, Wis.

The next Convention will be held at Detroit, Mich., on June 8d, 1900.

EXECUTIVE OFFICE  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, June 17, 1899.

Half-rate frank No. 187 issued on account of Erie Dispatch is hereby revoked.

Managers will please take up that frank if presented and return it to this office for cancellation.

THOS. F. CLARK,  
Vice-President.

## QUARTERLY REPORT OF THE WESTERN UNION TELEGRAPH COMPANY, FOR THE QUARTER ENDING JUNE 30TH, 1899.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, June 14th, 1899.

The following statement exhibits the condition of the Company at the close of the quarter ended March 31st, 1899.

Surplus January 1st, 1899, as per last Quarterly Report.....	\$8,067,147 71
Net revenues, quarter ended March 31st, 1899.....	1,239,571 92
	\$9,306,719 63

### From which appropriating for—

Dividend of 1½ per cent. paid April 15th.....	\$1,216,987 50
Interest on bonded debt.....	224,272 90
	1,441,260 38

Left a surplus April 1st, 1899.....	\$7,856,459 25
-------------------------------------	----------------

Surplus April 1st, 1899, as above.....	\$7,856,459 25
The net revenues of the quarter ending June 30th, instant, based upon nearly completed returns for April, partial returns for May, and estimating the business for June, will be about.....	\$1,660,000 00
	\$9,506,459 25

### From which appropriating for—

Interest on bonds.....	\$224,272 90
	\$9,281,186 35

It requires for a dividend of 1½ per cent. on capital stock issued, about.....	1,216,987 50
--	--------------

Deducting which, leaves a surplus, after paying dividend, of.....	\$8,064,198 85
---	----------------

In view of the preceding statements, the Committee recommend the adoption by the Board of the following:

*Resolved*, That a dividend of one and one-quarter per cent. on the capital stock of this Company be hereby declared payable on and after the 15th day of July next, to stockholders of record at the close of the transfer books on the 20th day of June, instant.

*Resolved*, That for the purpose of the dividend hereby declared, the stock books of the Company be closed at three o'clock on the afternoon of the 20th day of June, instant, and be reopened on the morning of the 5th day of July next.

Respectfully submitted,  
THOS. T. ECKERT,  
President.

THE total length of electric railways in Switzerland is 105 miles, of which 47 miles were opened last year. The power for nearly one-half of the lines is obtained from waterfalls.

## TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, June 17, 1899.

### To All Transfer Agents and Offices:

The transfer service has been temporarily discontinued at Logansport, Ind.

The transfer service was temporarily discontinued at Bozeman, Mont., on May 22d, and will be resumed on July 1st.

On June 1st, the following changes took effect:

Albuquerque, N. M., Beatrice, Neb., and Santa Fe, N. M., were advanced from Class D, to Class C, transfer offices.

Emporia, Kans., and Newton, Kans., were advanced from Class E, to Class C, transfer offices.

Victor, Col., was advanced from Class D, to Class B, transfer office.

On July 1st, the transfer service will be resumed at Cape May, N. J., and on the same date, Long Branch, N. J., will be advanced from Class D, to Class B, transfer office.

Managers will correct their lists accordingly.

The list of State Holidays will hereafter be published in the Tariff Book, immediately following the list of Transfer Agents.

THOS. T. ECKERT,  
President.

## THE WORLD'S COAL PRODUCTION AND CONSUMPTION.

THE coal production and consumption of the world during the past fifteen years are presented in some tables just prepared by the Treasury Bureau of Statistics. These show that while the United Kingdom is still the largest coal producer of the world, the United States is a close second, and if the present rate of gain is continued will soon become the leading coal producing country in the world. The coal production of the United Kingdom in 1897 was 202,000,000 tons, that of the United States 179,000,000 tons, Germany 91,000,000, France 30,000,000, Belgium 22,000,000, Austria-Hungary 12,000,000, Russia nearly 10,000,000, Australasia nearly 5,000,000, Japan over 5,000,000, British India 4,000,000, Canada nearly 4,000,000, and Spain 2,000,000, while no other country reached 1,000,000 tons in production. The United States, however, has gained much more rapidly during the fifteen years under consideration than has the United Kingdom or, indeed, any of the important coal producing countries of the world, her gain during the fifteen years being over 73 per cent. and that of the United Kingdom less than 24 per cent.

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, June 20, 1899.

The July, 1899, edition of the Tariff Book is now being distributed, and every office should be supplied with one or more copies on or before July 1, when the new book takes effect.

Managers should read carefully the pages of instruction at the beginning of the book; they should also examine the names, square numbers and P. O. addresses of their offices, and the names and rates of "other" line offices with which they connect, and report at once to their Superintendent any errors which they may discover.

On pages 421 and 422 will be found new instructions as to the treatment of free and half-rate frank messages to and from offices of the International Ocean Telegraph Company, given with instructions for the same kind of business, with offices of the Great Northwestern Telegraph Company.

Note paragraph of instructions on page VI in reference to the acceptance of night messages to "other" line offices.

The following list of "changes" corrects the Tariff Book "of July 1899" to date.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Central Point, Org., which was formerly a three star station, but which is now a Western Union office in Square 1244.

See Special Notices, at end of this circular.

**SPECIAL NOTICES.**

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 210), Catskill Mountains (page 214), and Lake George (page 222). When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words, "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices should enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading, "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

The later form of the Check report No. 7 shows a place for the state receipts referred to above, and also a place for the total footings of the report. Offices having this latest form should be careful to make the entry of the totals as required.

Offices having special rates should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 453 to 467, both inclusive, are CABLE

messages and should be reported in accordance with rule No. 71, page 408 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

**Ocean Steamers.** The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

THOMAS T. ECKERT,  
President.

Western Union Telegraph Company.

NEW YORK, June 14, 1899.

**DIVIDEND NO. 123.**

THE Board of Directors have declared a quarterly dividend of ONE AND ONE-QUARTER PER CENT. upon the capital stock of this company, payable at the office of the Treasurer on and after the 15th day of July next to shareholders of record at the close of the transfer books on the 20th day of June inst.

The transfer books will be closed at 3 o'clock on the afternoon of June 20th inst., and reopened on the morning of July 1st next.

M. T. WILBUR,  
Treasurer.

ASK any experienced user of writing machines which one is unquestionably the best known because the oldest, most durable, easiest to run and to get operators for.

The answer will invariably be the

**Mesco Dry Battery.**  
Acknowledged the Best Dry Cell Manufactured.  
Price each, 20c.

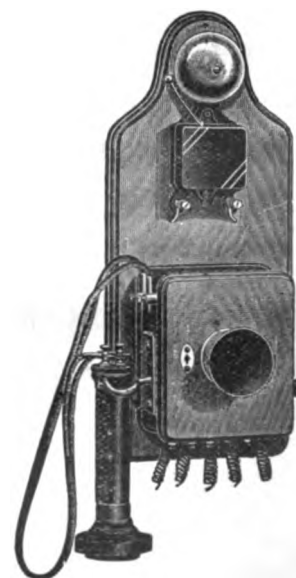

**No. 14 Telephone Outfit.**  
Price, each Station, \$6.50.

The No. 14 Telephone is our most popular private line instrument. We guarantee it will give perfect satisfaction on all lines up to 30 miles in length, with two instruments connected; or on lines of 5 to 10 miles with three to five instruments in circuit.

The transmitter is our well known granular carbon type, of which there is none better made at any price. The receivers are fitted with compound bar magnets and are the best that can be made. Two Mesco Dry Batteries are furnished with each outfit.

The No. 15 Outfit is O. K. for lines up to 1,500 feet in length. The transmitter and receiver is the same grade as furnished with the No. 14 Outfit. The only change is in the signaling apparatus. Five Mesco Batteries are furnished with each outfit.

**Send a trial order and get our No. 10 Catalogue (336 pages) free. Or send 10c. for postage and one will be mailed.**

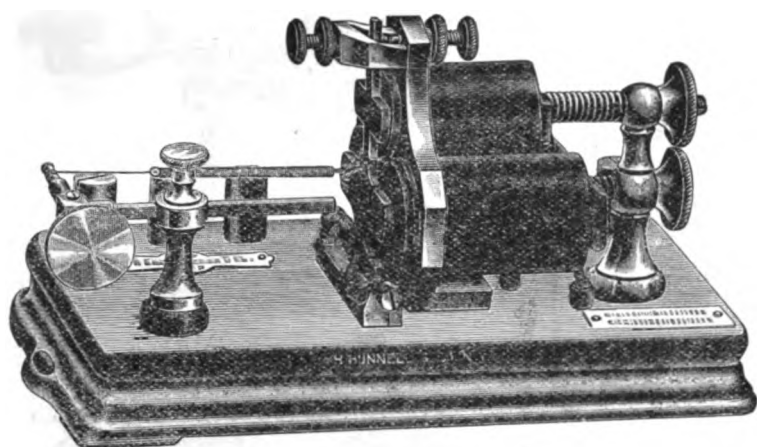

**No. 15 Telephone Outfit.**  
Price, each Station, \$4.50.

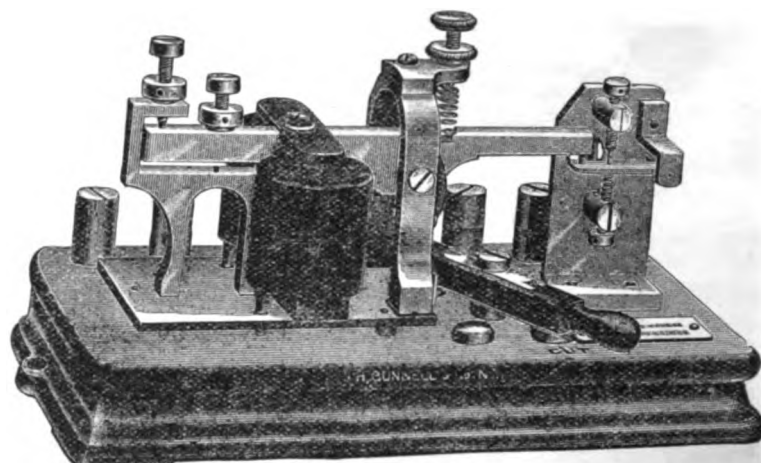

**MANHATTAN ELECTRICAL SUPPLY CO.,**  
32 CORTLANDT STREET, NEW YORK.

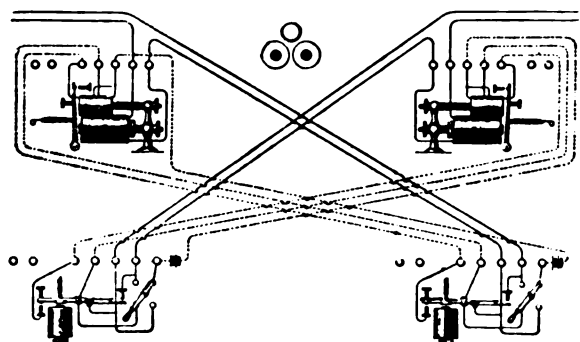

# Automatic Telegraph Repeaters.

**WEINY-PHILLIPS RELAY.**

**WEINY-PHILLIPS TRANSMITTER.**

**Weiny-Phillips Repeater Connections.**

The operation of this repeater is simple and easily understood. The third spool of relay is differentially wound, so that normally the windings neutralize each other and no magnetism is developed in this spool. One of the coils of the differential spool is in circuit with the front contact of the transmitter of opposite side, so that the instant the transmitter circuit is broken the corresponding coil of the differentially wound spool is opened thereby permitting the second coil to act and hold the relay armature closed.

The differential magnet being energised by the breaking instead of the closing of the auxillary circuit enables this repeater to act quicker and thereby very materially increases its capacity for rapid signalling over any other type.

We take pleasure in calling attention to the merits of the

## WEINY-PHILLIPS REPEATER.

It has stood the test and comes out **AHEAD** of all **OTHERS** for **SIMPLICITY**, **RELIABILITY** and **QUICK POSITIVE ACTION**.

It is the **easiest** to **adjust** and requires the **least attention** of any Automatic Repeater.

It is extensively used and **preferred** over all other forms by the **Western Union** and **Postal Telegraph Companies**, the **Associated Press** and every **Railroad** that has tried it.

We might say that the **WEINY-PHILLIPS REPEATER** is particularly adapted for **railroad work** as, unlike some other types, there is no danger of "kicks" from the vibrations caused by passing trains, or other jars.

In brief, for all conditions of Railroad or Commercial work we unhesitatingly claim the **WEINY-PHILLIPS REPEATER AWAY AHEAD** of any other heretofore devised type of Automatic Telegraph Repeater.

For prices and further particulars apply to

**Mesco Dry Battery.**  
Acknowledged the Best Dry Cell  
Manufactured  
Price each, 20c.

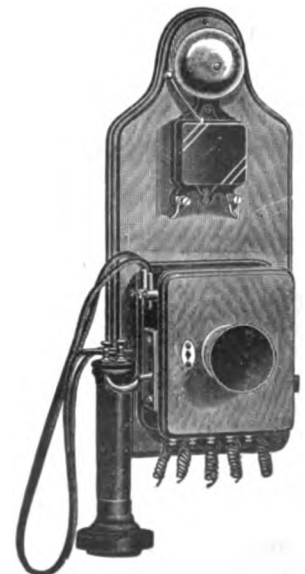

**No. 14 Telephone Outfit.**  
Price, each Station, \$6.50.

The No. 14 Telephone is our most popular private line instrument. We guarantee it will give perfect satisfaction on all lines up to 80 miles in length, with two instruments connected; or on lines of 5 to 10 miles with three to five instruments in circuit.

The transmitter is our well known granular carbon type, of which there is none better made at any price. The receivers are fitted with compound bar magnets and are the best that can be made. Two Mesco Dry Batteries are furnished with each outfit.

The No. 15 Outfit is O. K. for lines up to 1,500 feet in length. The transmitter and receiver is the same grade as furnished with the No. 14 Outfit. The only change is in the signaling apparatus. Five Mesco Batteries are furnished with each outfit.

**Send a trial order and get our No. 10 Catalogue (336 pages) free. Or send 10c. for postage and one will be mailed.**

**No. 15 Telephone Outfit.**  
Price, each Station, \$4.50.

## CABLES.

## CHANGES.

VENEZUELA: Rates to Caracas via Key West should be \$1.50, \$1.60 and \$1.55, instead of \$1.70, \$1.80 and \$1.75, as given in fourth, fifth and sixth columns, page 467 of Tariff Book.

CUBA: Rates to Hato Nuevo and Jovellanos via Key West, should be 45, 55 and 50, instead of 25, 35 and 30 as given in fourth, fifth and sixth columns, page 463 of Tariff Book.

## SOUTH AFRICA.

Taking effect September 1st, the rates given under South Africa on page 457 of the Tariff Book should be cancelled and the following substituted:

## SOUTH AFRICA.

Via Aden and East Coast, or Lisbon or Cadiz, and West Coast.

Word rates beyond London.

Cape Colony.....	\$0.98
Natal.....	.98
Northern Rhodesia.....	1.08
Nyasaland.....	1.08
Orange Free State.....	.98
Portuguese Zambesi.....	1.10
South African Republic (Transvaal).....	.98
Southern Rhodesia.....	1.02
Swakopmund.....	1.02

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 210), Catskill Mountains (page 214), and Lake George (page 222). When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words, "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices should enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading, "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

The later form of the Check report No. 7 shows a place for the state receipts referred to above, and also a place for the total footings of the report. Offices having this latest form should be careful to make the entry of the totals as required.

## CABLES.—Continued.

## NEW OFFICES.

## CUBA.

Following additional places in Cuba can now be reached by telegraph via Key West at word rates given below.

TO	From W. U. offices in the U. S., east of the Miss. River, including St. Louis, Mo., and Minneapolis, Minn.	From W. U. offices in the U. S., west of the Miss. River, except St. Louis, Mo., and Minneapolis, Minn., and from W. U. offices in R. C., and from G. N. W. offices in Manitoba.	From W. U. offices in R. C., and from G. N. W. offices in Quebec.
	Per Word	Per Word.	Per Word.

Union.....	.45	.55	.50
Yaguajay.....	.45	.55	.50

Offices having special rates should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 453 to 467, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 403 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOMAS T. ECKERT,  
President.

## TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, August 18, 1899.

## To All Transfer Agents and Offices:

The transfer service has been resumed at Bloomington, Ind., Logansport, Ind., and Narragansett Pier, R. I., and temporarily discontinued at Corning, N. Y., Orlando, Fla., and Palatka, Fla.

The transfer service was temporarily discontinued at Ft. Monroe, Va., on August 1st, and resumed on August 18th.

On July 24th, Joplin, Mo., was advanced from Class E to Class D, transfer office.

On August 15th, Ouray, Col., was advanced from Class D to Class C, transfer office.

On September 1st, Decorah, Ia., and Hespeler, Ont., will be added to the list of Class E, transfer offices, the former in I. McMichael's district and the latter in Arthur Cox's district.

On September 1st, Atlantic, Ia., will be reduced from Class D to Class E, transfer office.

P. E. Murray has been appointed Transfer Agent at Atlanta, Ga., vice J. C. Courtney, deceased.

Managers will correct their lists accordingly.

THOS. T. ECKERT,  
President.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, August 18, 1899.

The following franks are hereby revoked:  
Full business frank No. 8140, issued on account of Intercolonial Railway.

Branch Office, 625 F St., Washington, D. C.

THE early reports of the disastrous fire in the electrical exhibition at Como, Italy, gave the impression that all the priceless relics of Alessandro Volta, which were on view had been destroyed. It is a great satisfaction, therefore, to learn that a part of the historical collection was saved. The original Voltaic pile, about 20 manuscripts and some autograph letters, a few books from his library and about 50 drawings, paintings and medals are among the Volta relics which escaped the flames.

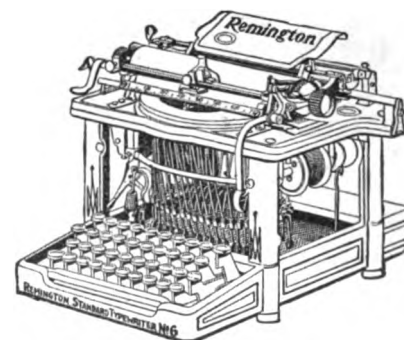

ASK any experienced user of writing machines which one is unquestionably the best known because the oldest, most durable, easiest to run and to get operators for.

The answer will invariably be the

SHORTHAND TYPEWRITER**

Is taking the  
place of Steno-  
graphy because  
it is so quickly  
learned and  
because a type-  
writer that  
prints a word at one stroke is plainer and  
faster than shorthand. No teacher—no knowl-  
edge of stenography necessary. You can learn  
at home and make a good living at home. Mr.  
Clinton Stegall, Amite City, La., clears about  
\$2,000 a year with his Anderson. Enclose 2c. stamp  
for circular. G. K. ANDERSON, 253 Broadway, New York.

# JOURNAL OF THE TELEGRAPH

VOL. XXII.

NEW YORK, SEPTEMBER 20, 1899.

WHOLE NO. 555.

## QUARTERLY REPORT OF THE WESTERN UNION TELEGRAPH COMPANY, FOR THE QUARTER ENDING SEPT. 30TH, 1899.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, September 18th, 1899.

The following statement exhibits the condition of the Company at the close of the quarter ended June 30th, 1899.

Surplus April 1st, 1899, as per last Quarterly Report .....	\$7,855,480 25
Net revenues, quarter ended June 30th, 1899..	1,652,729 93
	\$9,508,199 18

### From which appropriating for—

Dividend of 1½ per cent. paid July 15th.....	\$1,316,988 75
Interest on bonded debt.....	224,273 90
	1,441,261 65

Left a surplus July 1st, 1899..... \$8,066,927 53

Surplus July 1st, 1899, as above.....	\$8,066,927 53
The net revenues of the quarter ending September 30th, instant, based upon nearly completed returns for July, partial returns for August, and estimating the business for September, will be about.....	\$1,660,000 00
	\$9,716,927 53

### From which appropriating for—

Interest on bonds.....	\$224,273 90
	\$9,492,654 53
It requires for a dividend of 1½ per cent. on capital stock issued, about.....	1,316,988 75
	\$8,275,665 78

In view of the preceding statements, the Committee recommend the adoption by the Board of the following:

*Resolved*, That a dividend of one and one-quarter per cent. on the capital stock of this Company be hereby declared payable on and after the 15th day of October next, to stockholders of record at the close of the transfer books on the 20th day of September, instant.

*Resolved*, That for the purpose of the Annual Meeting of Stockholders, to be held on Wednesday, the 11th day of October next, and of the dividend hereinbefore declared, the stock books of the Company be closed at three o'clock on the afternoon of the 20th day of September, instant, and be reopened on the morning of the 12th day of October next.

Respectfully submitted,

THOS. T. ECKERT,  
President.

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, September 20, 1899.

The following list of "changes" corrects the Tariff Book "of July, 1899" to date.

The hand indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Central Point, Org., which was formerly a three star station, but which is now a Western Union office in Square 1244.

See Special Notices, at end of this circular.

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 210), Catskill Mountains (page 214), and Lake George (page 222). When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words, "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices should enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading, "This office

checks," give only the amount of your receipts for "this" line with offices of your own State.

The later form of the Check report No. 7 shows a place for the state receipts referred to above, and also a place for the total footings of the report. Offices having this latest form should be careful to make the entry of the totals as required.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 452 to 467, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 403 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOMAS T. ECKERT,  
President.

## TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, September 18, 1899.

To All Transfer Agents and Offices:

The transfer service has been resumed at

Corning, N. Y., and will be resumed at Newbern, N. C., and Palatka, Fla., on October 1st.

On September 11th, Hot Springs, Ark., was advanced from Class C to Class B, transfer office.

On September 20th, Long Branch, N. J., will be reduced from Class B to Class D, transfer office.

Managers will correct their lists accordingly.

THOS. T. ECKERT,  
President.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, September 18, 1899.

The following franks are hereby revoked:

Full business frank No. 8140, issued on account of Intercolonial Railway.

Full business frank No. 6184 issued on account of Georgia & Alabama Railway,

Full business frank No. 7750, issued on account of South Carolina & Georgia Railroad.

Full business frank No. 7778, issued on account of South Carolina & Georgia Railroad.

Half-rate business frank No. 187, issued on account of Erie Despatch.

Half-rate business frank No. 1707, issued on account of Atchison Daily Champion.

Managers will please take up those franks if presented and return them to this Office for cancellation.

THOS. F. CLARK,  
Vice-President

The Telegraphers' Mutual Benefit Association was organized and commenced business in October, 1887, with 125 members, who banded themselves together for mutual benefit.

Its primary purpose was to afford immediate aid to the families of deceased telegraphers, but as it rapidly increased in membership it soon assumed the full duties of a co-operative assessment insurance organization, prescribing regulations for admission to membership, payment of assessments, and limiting the payment of death claims to an amount not exceeding \$1,000 each.

The rates for assessments were subsequently graded (in 1887) according to age, and a further extension of benefit was secured by the establishment in 1896 of the Half Grade insurance of \$500, at one-half the rates prevailing for the Full Grade.

The Association has never Contested a Death Claim.

During its existence, it has afforded protection to upwards of 9,000 members of the telegraph fraternity; death claims aggregating nearly \$800,000 have been paid, and the present membership is nearly 5,000. A RESERVE FUND NOW AMOUNTING TO \$160,000 has been accumulated, which is securely invested for the protection of its present members, and of the new members who are constantly added to its ranks.

This Reserve Fund represents nearly \$33 for every \$1,000 of insurance in force, and is a larger reserve in proportion to liabilities than is held by any other fraternal insurance order or society.

At present the yearly interest from its in-

vestments pays all the expenses of management, and two or more death claims in addition

Insurance is in two classes:

"FULL GRADE,"	\$1.00
"HALF GRADE,"	\$500

An applicant can elect to take either or both grades, and if admitted to membership can subsequently increase or diminish the insurance carried, subject to the regulations of the Constitution and By Laws:

The initiation fee is \$2 for each grade, and there is no charge made for benefit certificate, nor other expense of any kind, save the assessments as they are levied, which are at following rates:

AGE.	FULL GRADE.	HALF GRADE.
18 to 30	\$1.00	50 cents
30 to 35	1.25	63 cents
35 to 40	1.50	75 cents
40 to 45	2.00	\$1 00

In the 32 years since the date of organization but 352 assessments have been levied; an average of only 11 per annum; and the By-Laws provide that should the revenue from 15 assessments in any one year be insufficient to meet the death claims, the Reserve Fund shall be used for the payment of such claims as may be unprovided for by the aforesaid 15 assessments.

This most important provision limits the maximum number of assessments which can be levied in any one fiscal year, and assures to the membership that the cost of the insurance can not become excessive.

The Association is highly commended by the officials of the Western Union Telegraph Company, the Postal Telegraph-Cable Company, the Association of Railway Telegraph Superintendents and the Train Despatchers' Association. It is also under the supervision, and subject to the periodical examination, of the Superintendent of the Insurance Department of State of New York, who certified after his last examination, January, 1898, that the affairs of the Association were in a most prosperous condition, that claims were paid promptly and in full, and that the expense of management was confined to the expenses attending collections of assessments.

Notice of assessment containing full particulars of claims filed and proved, last claim paid, number of members in good standing, rates, etc., is issued on the first of each month and sent to every member.

Agents have been appointed in every large city and wherever practicable, who aid in the collection of assessments and cheerfully furnish information to all interested in the work of the Association.

Application blanks and any additional information will be furnished by any of the above, or by

M. J. O'LEARY, Secretary,  
P. O. Box 510, New York City, N. Y.

WESTERN UNION TELEGRAPH COMPANY,  
New York, January, 1898.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

First. Every remittance to the treasurer must be accompanied by a letter of transmittal written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expense must be reported, like any other item, in the monthly account current (form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

Second. Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00, 8 cts.	Over \$40.00 to \$50.00, 18 cts.
Over \$5.00 to 10.00, 8 cts.	Over 50.00 to 60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over 60.00 to 75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over 75.00 to 100.00, 30 cts.
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

Third. If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

Fourth. If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

Fifth. If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

Sixth. Drafts, express money orders and post office money orders must be made payable to M. T. WILBUR, TREASURER, and sent by mail. They must not be made payable to M. T. WILBUR without the title.

Seventh. The small treasurer's envelope, Form 128, must be used where remittances are made by mail.

Eighth. The large envelope, Form 124, should be used only for making remittances by express.

Ninth. Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

M. T. WILBUR, Treasurer.

M. J. O'LEARY, Secretary,

P. O. Box 510. New York City, N. Y.

### THE ANDERSON SHORTHAND TYPEWRITER

Is taking the  
place of Steno-  
graphy because  
it is so quickly  
learned and  
because a type-  
writer that  
prints a word at one stroke is plainer and  
faster than shorthand. No teacher—no knowl-  
edge of stenography necessary. You can learn  
at home and make a good living at home. Mr.  
Clinton Stegall, Amite City, La., clears about  
\$3,000 a year with his Anderson. Enclose 2c. stamp  
for circular. S. L. ANDERSON, 245 Broadway, New York.

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, October 20, 1899.

The following list of "changes" corrects the Tariff Book "of July, 1899" to date. Changes in the list of "New Offices" are not included. The hand **33** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book. See Special Notices, at end of this circular.

### LINE TO THE KLONDIKE.

There is now a telegraph line from Skaguay (or Skagway), Alaska, to Dawson City, in one of the N. W. Territories of Canada. The offices on this line with other line rates are given under Alaska and N. W. Territories in the usual manner.

Messages for places on this line are carried by steamer from Seattle, Wash., or Victoria or Vancouver, B. C., to Skaguay, at which place they are transferred to the telegraph line for transmission to destination.

Steamers leave Seattle, Victoria and Vancouver at frequent intervals.

### CHANGES.

## SPECIAL NOTICES.

All requests to destroy or omit a message, or change the check, should be disregarded except to refer the matter to your Superintendent for benefit of the service. This applies to missent as well as uncollected messages.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 210), Catskill Mountains (page 214), and Lake George (page 222). When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words, "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices should enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus:

Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading, "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

The later form of the Check report No. 7 shows a place for the state receipts referred to above, and also a place for the total footings of the report. Offices having this latest form should be careful to make the entry of the totals as required.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 453 to 467, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 403 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOMAS T. ECKERT,  
President.

M. S. CORBETT, Manager of the Western Union Telegraph Co. at Detroit, Mich., died there on September 28th, and W. F. Snyder, Manager of the Western Union Telegraph Co. at North Sydney, Cape Breton, died there on October 9th.

THOS. T. ECKERT,  
President.

### TELEGRAPHERS' MUTUAL BENEFIT ASSOCIATION.

THE thirty-third annual meeting of the Telegraphers' Mutual Benefit Association, was held at 195 Broadway, New York, on 16th inst.

The meeting was called to order at 4 P. M. by President Walter C. Humstone who expressed his pleasure at seeing such a large meeting and at the attendance of so many agents as delegates from their respective districts.

From the reports of the secretary and treasurer, which were submitted, it was shown that the Association has 4,479 members in the Full Grade (\$1,000 certificates); and 351 in the Half Grade (\$500 certificates).

The collections from members during the year amounted to \$66,464.82, and for interest on the Reserve Fund and current deposit account, \$3,855.30.

The amount paid for death claims, 60 in the Full Grade and 2 in the Half Grade, was \$61,000. The sum of \$10,000 was carried to the Reserve Fund making the total par value \$160,968.68.

The report of the Auditors show that the surplus of assets over liabilities at the close of the fiscal year, September 30, was \$174,531.26 which is an increase of \$10,000 over the preceding year.

The following officers were duly elected: President, Walter C. Humstone, 1st Vice-President, W. H. Young, 2d Vice-President, Chas. P. Bruch, Secretary, M. J. O'Leary, Treasurer, A. R. Brewer. Executive Committee: James Merrihew, E. J. Nally, B. Brooks, Jos. L. Edwards, C. W. Hammond, S. S. Garwood. Auditing Committee: E. B. Pillsbury, Boston, Chairman; W. J. Dealy and T. E. Fleming.

MR. WALTER C. HUMSTONE'S ADDRESS:

To the Members of the Telegraphers' Mutual Benefit Association:

It affords me pleasure to welcome you to this the thirty-third anniversary of your Association, and to congratulate you on its prosperous condition, increasing usefulness and stability, as will be seen from reports of Secretary and Treasurer to be presented.

During the year fifty-seven deaths were reported, and \$61,000 paid out for death claims. These figures are the largest yet recorded in the history of the Association, and prove the statements made to you from year to year that the time is at hand when heavy mortality may be expected from among the older members.

Among the deaths reported was that of Captain George H. Tilly, who was killed in action at Escalante, Island of Negros, Philippine Islands, May 27th last. It is satisfactory to note that although many of our members participated in the Spanish-American War, this was the only casualty involving a claim on the Association.

A larger number of applications was received and a larger number of new members were admitted than during the previous year, yet owing to the death rate and the heavy lapse rate, the net increase of membership is less than last year.

Many of the lapsed members have had membership ranging from ten to twenty-nine years, and it is difficult to understand why such insurance should lapse, except that circumstances were such that a necessity for it no longer existed.

It has been suggested that of those who lapsed, many did so because of cost of the insurance being greater than they could afford. The establishment of the Half Grade was to enable any that desired to reduce the amount of insurance carried and the consequent expense, but as no applications for reduction to Half Grade were received during the year, it is fair to assume that the cause of lapsing is not due to excessive cost.

In this connection it is worthy of note that the Fraternal Congress assembled at Chicago in August last, adopted a table of rates which will bring the cost of insurance in the fraternal orders to a higher figure than our rates.

From the Treasurer's Report you will note that the sum of \$10,000 was carried to the Reserve Fund, bringing its par value to \$160,968.68, an amount equal to 3.45 per cent. of the total insurance.

Of the amount thus carried but \$1,144.70 was drawn from current income, as the interest received from our investments amounted to \$3,855.30

**TREASURER'S OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, January, 1898.**

To *Superintendents*: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1891) which have been given before but have been disregarded by some forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

*First.* Every remittance to the treasurer must be accompanied by a letter of transmittal *written upon blank No. 65*, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, *the amount of such expense must be reported, like any other item, in the monthly account current (form 4).* Vouchers for such expense must *not* be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

*Second.* Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5 00, 5 cts.	Over \$40.00 to \$50 00, 18 cts.
Over \$5 00 to 10 00, 8 cts.	Over 50 00 to 60 00, 20 cts.
Over 10 00 to 20 00, 10 cts.	Over 60 00 to 75 00, 25 cts.
Over 20 00 to 30 00, 12 cts.	Over 75 00 to 100 00, 30 cts.
Over 30 00 to 40 00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (*excepting where bank drafts can be obtained at less expense.*)

*Third.* If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

*Fourth.* If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

*Fifth.* If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

*Sixth.* Drafts, express money orders and post office money orders must be made payable to M. T. WILBUR, TREASURER, and sent by mail. They must *not* be made payable to M. T. WILBUR without the title.

*Seventh.* The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

*Eighth.* The large envelope, Form 124, should be used only for making remittances by express.

*Ninth.* Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

**M. T. WILBUR, Treasurer.**

**TARIFF BUREAU.  
MONTHLY CIRCULAR.**

**EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, November 20, 1899.**

The following list of "changes" corrects the Tariff Book "of July, 1899" to date. Changes in the list of "New Offices" are not included.

The hand  indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Central Point, Org., which was formerly a three star station, but which is now a Western Union office in Square 1244.

See Special Notices, at end of this circular.

**LINE TO THE KLONDIKE.**

There is now a telegraph line from Skaguay (or Skagway), Alaska, to Dawson City, in one of the Northwest Territories of Canada. The offices on this line with other line rates are given under Alaska and Northwest Territories in the usual manner.

Messages for places on this line are carried by steamer from Seattle, Wash., or Victoria or Vancouver B. C., to Skaguay, at which place they are transferred to the telegraph line for transmission to destination.

Steamers leave Seattle, Victoria and Vancouver at frequent intervals.

## CABLES.

## CHANGES.

VENEZUELA: Rates to Caracas via Key West should be \$1.50, \$1.00 and \$1.55, instead of \$1.70, \$1.80 and \$1.75, as given in fourth, fifth and sixth columns, page 467 of Tariff Book.

CUBA: Rates to Hato Nuevo and Jovellanos via Key West, should be 45, 55 and 50, instead of 25, 35 and 30 as given in fourth, fifth and sixth columns, page 462 of Tariff Book.

FORMOSA ISLAND: Rate to Formosa Island via Eastern, Indo, or Northern (Siberia) is now \$1.51 per word beyond London. Correct page 460 of Tariff Book.

## SOUTH AFRICA.

The following, which was issued by telegraph November 18th, as a special notice, contains the latest information (to November 20th) as to telegraphic communication with South Africa:

"The transmission via Aden as well as via Cape Colony of all telegrams in secret language, is suspended, either from Foreign Governments or private persons, to or from Zanzibar, Seychelles, Mauritius, Madagascar, and all places in British East Africa, German East Africa, Mozambique, Delagoa Bay, Rhodesia, British Central Africa, Orange Free State, Transvaal, Cape Colony and Natal. Telegrams in plain language are subject to censorship, and should only be accepted at sender's risk."

The above notice is subject to modification at any time by special order.

Taking effect September 1st, the rates given under South Africa on page 457 of the Tariff Book should be cancelled and the following substituted:

## SOUTH AFRICA.

Via Aden and East Coast or Lisbon or Cadiz, and West Coast.

	Word rates beyond London.
Cape Colony.....	\$0.98
Natal.....	.98
Northern Rhodesia.....	1.08

## SPECIAL NOTICES.

All requests to destroy or omit a message, or change the check, should be disregarded except to refer the matter to your Superintendent for benefit of the service. This applies to missent as well as uncollected messages.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 210), Catskill Mountains (page 214), and Lake George (page 222). When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words, "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices should enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus:

Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading, "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

The later form of the Check report No. 7 shows a place for the state receipts referred to above, and also a place for the total footings of the report. Offices having this latest form should be careful to make the entry of the totals as required.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 453 to 467, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 408 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

NEW YORK, DECEMBER 20, 1899.

At the Boston Scientific Society's first meeting in its new quarters, the subject of the lecture was "Wireless Telegraphy."

"Wireless telegraphy," the speaker said, "has a history that runs much farther back than most people imagine. The idea of magnetically communicating through space is more than two centuries old, and electrical means of accomplishing this end were devised in the last century. Curiously enough, the first successful attempt at space telegraphy was made some six years before the first practical telegraph line was in operation, and the system then employed is a practical one for long distances." He spoke of Lindsay's experiments across the River Tay in 1831, a system which was taken up later by Prof. Sylvanus Thompson. The Lindsay system, interesting historically, was a direct transmission of an electrical current, and differs radically from the methods of to-day. In all of the modern operations involving space telegraphy, it is a pulse or wave that is transmitted, and not a current; a stress of some kind is produced in the ether, which is transmitted as a wave to the distant receiver.

In 1879 Dolbear, in experimenting with kites, established the fact that signals intelligible in the telephone could be sent between wires separated by considerable distances, and in 1882 applied for a patent, which was refused him because the claim was held to be contrary to science. Experiments made with his apparatus by the patent officials resulted in the issue of his patents in 1886. These cover telephonic or other receiving devices, making the claim a very broad one.

In 1888 Hertz demonstrated the existence of electrical waves in ether, waves possessing all the properties of light, but of a very great wave-length. Hertzian waves are generated by every electric spark, no matter what its origin. These long Hertzian waves have the power of penetrating great thicknesses of material, few substances, metals excepted, being opaque to them. Some apparatus which will generate Hertzian waves is employed at the sending station, and the signals sent out are caught at the receiving station by some form of detector. The one devised by Hertz himself, a ring of wire broken only by a minute gap, is not sensitive to any practice extent. At this point, Lodge, the English physicist invented a detector of these waves, the little instrument now called the "coherer." This is a tube containing filings of some metal, and when these filings are affected by the Hertzian waves, their resistance to the passage of electrical currents, which is their normal condition, is changed, and electrical currents are permitted to pass through them. The filings, it was found, did not readily fall apart after the passage of the current, so Marconi devised a tapper which strikes the tube containing the filings and mechanically shakes them apart. This is Marconi's contribution to the apparatus for space telegraphy.

The action of the wireless telegraph is, therefore, this: A spark is made at the sending station. The Hertzian waves travel out in all directions from this, and at the receiving station, no matter in what direction it may be, affect the coherer. The coherer, becoming for the instant a conductor of electricity, permits the current from a local battery to pass and affect a relay, which in its turn works an ordinary telegraph sounder, reproducing the dots and dashes of the signals made at the sending station. As would naturally be expected, the apparatus is complicated by minor devices, like the tapper, each of which has its own special office to perform.

## QUARTERLY REPORT OF THE WESTERN UNION TELEGRAPH COMPANY, FOR THE QUARTER ENDING DEC. 31st, 1899.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, December 18th, 1899.

The following statement exhibits the condition of the Company at the close of the quarter ended September 30th, 1899.

Surplus July 1st, 1899, as per last Quarterly Report.....	\$8,066,927 53
Net revenues, quarter ended September 30th, 1899.....	1,666,567 03
	<u>\$9,733,494 56</u>

### From which appropriating for—

Dividend of 1½ per cent. paid October 15th.....	\$1,216,991 25
Interest on bonded debt.....	224,120 16
	<u>1,441,111 40</u>

Left a surplus October 1st, 1899.....\$8,292,383 16

Surplus October 1st, 1899, as above.....	\$8,292,383 16
The net revenues of the quarter ending December 30th, instant, based upon nearly completed returns for October, partial returns for November, and estimating the business for December, will be about.....	\$1,600,000 00
	<u>\$9,892,383 16</u>

### From which appropriating for—

Interest on bonds.....	224,120 16
	<u>\$9,668,263 01</u>
It requires for a dividend of 1½ per cent. on capital stock issued, about.....	1,216,992 00
Deducting which, leaves a surplus, after paying dividend, of.....	<u>\$8,451,271 01</u>

In view of the preceding statements, the Committee recommend the adoption by the Board of the following:

*Resolved*, That a dividend of one and one-quarter per cent. on the capital stock of this Company be hereby declared payable on and after the 15th day of January next, to stockholders of record at the close of the transfer books on the 20th day of December, instant.

*Resolved*, That for the purpose of the dividend hereinbefore declared, the stock books of the Company be closed at three o'clock on the afternoon of the 20th day of December, instant, and be reopened on the morning of the 2d day of January next.

Respectfully submitted,

THOS. T. ECKERT,  
President.

**TREASURER'S OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, January, 1898.**

*To Superintendents:* I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

*First.* Every remittance to the treasurer must be accompanied by a letter of transmittal written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expense must be reported, like any other item, in the monthly account current (form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

*Second.* Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to \$50.00, 18 cts.
Over \$5.00 to 10.00, 8 cts.	Over 50.00 to 60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over 60.00 to 75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over 75.00 to 100.00, 30 cts.
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

*Third.* If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

*Fourth.* If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

*Fifth.* If neither of the above means is available then, as a last resort, the remittance should be forwarded by registered letter.

*Sixth.* Drafts, express money orders and post office money orders must be made payable to M. T. WILBUR, TREASURER, and sent by mail. They must not be made payable to M. T. WILBUR without the title.

*Seventh.* The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

*Eighth.* The large envelope, Form 124, should be used only for making remittances by express.

*Ninth.* Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

**M. T. WILBUR, Treasurer.**

## TARIFF BUREAU. MONTHLY CIRCULAR.

**EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, December 20, 1899.**

The January, 1900, edition of the Tariff Book is now being distributed, and every office should be supplied with one or more copies on or before January 1, when the new book takes effect.

Managers should read carefully the pages of instruction at the beginning of the book; they should also examine the names, square numbers and P. O. addresses of their offices, and the names and rates of "other" line offices with which they connect, and report at once to their Superintendents any errors which they may discover.

The new book shows among other changes a new and reduced rate to Havana and other places in Cuba, and also changes to most of the West India stations; and to British Guiana in South America.

The interruption of the cable between Kingston (Jamaica) and Colon (U. S. of Colombia), cutting off route via that cable to Central America and South America, and the interruption of the cable between Cayenne, French Guiana, and Para, Brazil, still continue.

The following list of "changes" corrects the Tariff Book of January, 1900, to date.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Shelley, Ida., which was formerly a three star station, but which is now a Western Union office in Square 982.

See Special Notices at end of this circular.

### CHANGES.

#### ALABAMA.

- \*\*\* Hamburg. Erase route via Montrose.
- \*\*\* Lake Village, should be erased.
- 432 Lamlson. Sq. number should be 332.
- \*\*\* Snyder, should be erased.

#### ARIZONA TERRITORY.

- \*\*\* Washington Camp, now 35 0 Nogales.

#### ARKANSAS.

- \*\*\* Fort Lynn. Add: or 25 2 (25 1 N M) (telegraph) Shreveport, La.
- 514 Magnolia, closed.
- 487 Millville, closed.

#### CALIFORNIA.

- 1233 Ahwahnee. Summer office, closed.
- 1280 Farmersville, closed.
- \*\*\* Garlock, or Cow Wells, now 25 2 Randsburg.
- 1261 Middle Creek, closed.
- \*\*\* Moody's Gulch, closed.
- 1262 Norman, closed.
- 1241 Terminal Island, now \*\* Terminal Island, 15 0 East San Pedro.
- 1238 Wawona. Summer office, closed.
- 1238 Yosemite. Summer office, closed.

#### COLORADO.

- \* Midland, closed.
- 897 Wagon Wheel Gap. Erase: "Summer office."

#### CONNECTICUT.

- 87 New Preston, changed to New Preston Depot.
- 29 Northford, or Clintonville, now checks direct. P. O. Northford.
- 32 West Winsted, now checks Winsted.

#### FLORIDA.

- \* Dry Tortugas, now 2.15 15 Jacksonville.
- 296 Fulford, closed.
- \* Key West (on Cuba Cable), now 40 3 Jacksonville.

### CHANGES.—Continued.

#### GEORGIA.

- \* Autreyville. January 1 will be Sq. 232 Autreyville
- 175 Bon Air Hotel, Winter office, reopened.
- \*\*\* Doerun. January 1 will be Sq. 232 Doerun.
- \*\*\* Moultrie. January 1 will be Sq. 232 Moultrie.
- \* Pavo. January 1 will be Sq. 232 Pavo.
- 221 Suwanee Springs Hotel. Winter office reopens January 1.

#### IDAHO.

- \*\*\* Albion, now 20 2 Minidoka.
- \*\*\* Cottonwood, now 40 8 Lewiston.
- \*\*\* Denver, now 25 2 Lewiston
- 989 Dubois. Erase "P. O. Camas."
- \*\*\* Grangeville, now 40 8 Lewiston.
- \*\*\* Mount Idaho, now 40 3 Lewiston.
- \*\*\* Osburn, now Sq. 1031 Osburne. P. O. Osburn.
- \*\*\* Rexburg, now Sq. 982 Rexburg.
- \*\*\* Shelley, now Sq. 982 Shelley.
- \*\*\* St. Anthony, now Sq. 967 St. Anthony.
- \*\*\* Waha, now 25 2 Lewiston.
- \*\*\* West Lake, now 25 2 Lewiston.

#### ILLINOIS.

- 338 Globe. P. O. now Bernice.

#### INDIANA.

- \*\*\* Bristow, now 25 2 Troy.
- \*\*\* Evanson, now 20 2 Troy.
- \*\*\* Fulda, now 25 2 Evansville.
- \*\*\* Hatfield. Erase route via Boonville.
- \*\*\* Holland. Erase route via Birdseye.
- \*\*\* Huff, now 25 2 Troy.
- \*\*\* Lamar, now 25 2 Troy.
- \*\*\* Southport. Accept only prepaid messages.
- \*\*\* Trafalgar. Accept only prepaid messages.

#### IOWA.

- \*\*\* Sharpsburg, should now be Sharpeburg. See Sharps. Erase telephone route via Maryville, Mo.

#### KENTUCKY.

- \*\*\* Bell, C. Co. Erase route via Clarksville, Tenn.
- \*\*\* Brownsville, now 25 0 Smith's Grove, or Bowling Green.
- \*\*\* Elmo. Erase route via Clarksville, Tenn.
- \*\*\* Ferguson, now 25 0 Bowling Green, or 25 2 Hopkinsville.
- \*\*\* Helena Station, now 10 0 Johnson Junction, or 15 0 Maysville.
- 316 Livermore, now \* \* Livermore, 10 0 Livermore Depot.
- \*\*\* Middletown, closed.
- \*\*\* Olmstead, now 25 0 Bowling Green, or 25 2 Hopkinsville.
- \*\*\* Petroleum, now 30 2 Nashville, Tenn.
- \*\*\* Rochester. Add: or 25 2 Owensboro.
- \*\*\* Scottsville. Erase "t."

#### LOUISIANA.

- 488 Blenville, closed.
- \* Fort Lynn, closed.
- 501 Haynesville, closed.
- 501 Homer, closed.
- \* West Alexandria, now Sq. 475 West Alexandria. Ck. Alexandria.

#### MAINE.

- \*\*\* Pleasant Beach. Summer office, closed.

#### MANITOBA.

- \* Darwin, closed.
- Marleapolls, closed.
- Myrtle, closed.
- Track End, closed.

#### MINNESOTA.

- 532 Carlisle, closed.
- \* \* Dayton, should be erased.
- 532 Elbow Lake Depot, closed.
- 519 Erdahl, closed.
- 451 Gowan, closed.
- 547 Green Valley, closed.

The cable from Cape Town to St. Helena Island has been extended to Ascension Island. Rate to Ascension Island \$1.71 per word beyond London

**SPECIAL NOTICES.**

Particular attention should be given to messages addressed to Race Tracks, Baseball or Bicycle Parks, Fair Grounds, Camps, Asylums, Poor Houses, Hospitals, Infirmarys, Colleges, Schools, Convents, or to any institution or place, the situation of which is usually in the suburbs of some town or city. To such places there is very frequently a charge for delivery, and when a sender offers a message addressed as indicated, the Tariff Book and Journal should be consulted, and if there be a delivery charge, it should be collected from the sender and entered in the check as required by Rule 5.

All requests to destroy or omit a message, or change the check, should be disregarded except to refer the matter to your Superintendent for benefit of the service. This applies to misssent as well as uncollected messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices should enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus:

Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading. "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

The later form of the Check report No. 7 shows a place for the state receipts referred to above, and also a place for the total footings of the report. Offices having this latest form should be careful to make the entry of the totals as required.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 468 to 493, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 417 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

**Ocean Steamers.** The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

**THOMAS T. ECKERT,**  
*President.*

**TRANSFER SERVICE.**

**EXECUTIVE OFFICE,**  
**WESTERN UNION TELEGRAPH COMPANY,**  
NEW YORK, December 18, 1899.

*To All Transfer Agents and Offices:*

The transfer service has been resumed at Durham, N. C., Hampton, Va., Newport News, Va., and Sault Ste. Marie, Mich., and permanently discontinued at Ayr, Ontario.

The transfer service will be resumed at Palm Beach, Fla., in Class E, on January 1st.

John P. Altberger has been appointed Transfer Agent, vice A. M. Fisher, with Headquarters at Denver, Col.

Managers will correct their lists accordingly.

**THOS. T. ECKERT,**  
*President.*

UNITED STATES government messages sent by ARMY officers, that are written upon the blue Form No. 87 for WAR DEPARTMENT OFFICIAL TELEGRAMS furnished by the QUARTERMASTER'S DEPARTMENT UNITED STATES ARMY, should always be checked "paid govt. rate" WITHOUT REQUIRING PAYMENT FROM THEIR SENDERS.

Such messages should be taken credit for in the Western Union monthly Form No. 4 Report Account Current, for collection from the government, the original messages being returned therewith, as vouchers for such credit taken.

**EXECUTIVE OFFICE,**  
**WESTERN UNION TELEGRAPH COMPANY,**  
NEW YORK, December 20, 1899.

The following franks are hereby revoked:

Full business franks Nos. 6112 and 10390, issued on account of Atlanta & West Point Railroad and Western Railway of Alabama.

Full business frank No. 6184 issued on account of Georgia & Alabama Railroad.

Full business frank No. 7750, issued on account of South Carolina & Georgia Railroad.

Full business frank No. 7778, issued on account of South Carolina & Georgia Railroad.

Full business frank No. 8140, issued on account of Intercolonial Railway.

Half-rate business frank No. 187, issued on account of Erie Despatch.

Half-rate business frank No. 1707, issued on account of Atchison Daily Champion.

Managers will please take up those franks if presented and return them to this Office for cancellation.

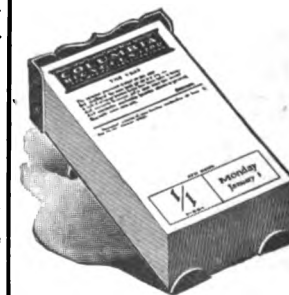

**THOS. F. CLARK,**  
*Vice President*

THE Telegraphers' Mutual Benefit Association, that has recently closed its thirty-third year, is the oldest existing fraternal insurance association. During its life it has paid to the beneficiaries of deceased telegraphers nearly \$1,000,000, and accumulated a reserve fund to protect the members against extraordinary or excessive assessments of upwards of \$160,000. This has been effected at a cost averaging less than \$12 per annum for \$1,000 insurance. The manifest advantages of membership in this Association are extended to all persons of either sex between the ages of 18 and 45 in good health and employed in the telegraph business.

Full information and application blanks, etc., will be furnished by any of the agents in the principal cities in care of the Western Union Telegraph Co., or from the Secretary, Box No. 510, New York City.

**A USEFUL CALENDAR.**

For fifteen years the Pope Manufacturing Company, of Hartford, Conn., makers of Columbia bicycles, have issued the Columbia Desk Calendar, which presents a separate page, with ample memorandum space, for each day of the year. The edition for 1900, which is now being distributed, is artistically printed and mounted. As in previous years, the top of each inner page is devoted to some bright and original paragraph in verse or prose, furnished by a contributor. The date lines at the foot are printed in large, clear type. The compilation is both useful and entertaining. The company will send a calendar to any address upon receipt of five two-cent stamps.

**THOS. T. ECKERT.**

*President and General Manager.*

FOLLOWING upon the opening of the Dortmund-Ems Canal, in Germany, an interesting series of tests is now being made to determine the practicability of electric traction for the canal boats of this system. The trials have been carried on in the neighborhood of Eberswalde, on the canal of Finow, under the direction of the government. The electrical installation has been furnished by Siemens & Halske. The results obtained have been on the whole satisfactory, and it is expected that before long this method of traction will be put in practical operation. The Lamb and Koettgen systems have been tested over distances of 300 and 1,000 meters respectively. The routes have been chosen so as to encounter all the different kinds of obstacles and difficulties which are to be found over the whole length of the canal, such as bridges, locks, sharp curves, etc. By the Lamb system, the traction is carried out by the aid of small locomotives which travel upon wire cables, 32 millimeters in diameter, fixed to strong posts along the bank about 4 or 5 meters apart. The current is not transmitted by these cables, but by a system of contacts contained in a special conduit. The locomotive will give 5 horse power and weighs about 900 kilogrammes. By this means the speed of traction reached 1 meter per second or about 4 kilometers per hour: this system works very well in practice.

its only inconvenience being in the passage of sharp curves. The Koettgen system uses also a small locomotive, which runs on rails along the bank, these rails being arranged so that one of them carries 85 per cent. of the weight, the other insuring stability. The current is taken by a contact wheel which runs along a conducting wire. The locomotive designed for this purpose has a weight of 2,000 kilogrammes, and the average speed is  $4\frac{1}{2}$  kilometers per hour; it is strong enough to haul three loaded boats or two loaded and two empty. The cost of traction amounts to about 0.1 pfennig per ton-kilometer, and if the traffic is carried on extensively, this figure will be still more reduced and will give an economy of transportation which has been valued approximately at 4,000,000 marks per year. This system has, besides, the advantage of being able to furnish light and power to all points in the region of the canal.

**THEORY AND PRACTICE.**

"I WAS greatly interested in reading the description of the Gardner electric gun," said a well-known engineer, "and am curious to know how the device will work when it undertakes to handle a projectile weighing thirty or forty pounds. A number of years ago—it was all of a dozen, if my memory serves me correctly—a Maryland engineer conceived the idea of an electric passenger carrier, in which a cylindrical carriage was to be projected through an enormous tube. The principle was more or less similar to the electric gun. As I remember it, there were huge relays of magnets on the outside that dragged the carriage through at a tremendous speed. The model worked all right, and the little car shot through like a streak of lightning, but when they attempted to construct a section of the line on a practical scale it was a total failure. That, of course, might have been foreseen by anybody of common sense, the size and weight of the carriage and the necessity of keeping the tube on a mathematically straight line being conditions of a prohibitive character. With the cannon none of those difficulties would arise, but unforeseen things have a disagreeable habit of cropping up when a working model is built. In my opinion, the chief value of the arm will be to hurl large quantities of high explosives over greater distances than are possible with compressed air. No special accuracy of aim can be secured with a dynamite shell or torpedo, on account of its absence of rifling, but accurate aim is not necessary. If three or four hundred pounds of explosive gelatine or A quality of gun-cotton is dropped anywhere on land or water it will destroy everything in a radius of 500 yards. No marksman is needed for that kind of missile."

**TREASURER'S OFFICE.**  
**WESTERN UNION TELEGRAPH COMPANY,**  
 NEW YORK, January, 1898.

*To Superintendents:* I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

*First.* Every remittance to the treasurer must be accompanied by a letter of transmittal written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expense must be reported, like any other item, in the monthly account current (form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

*Second.* Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to \$50.00, 18 cts.
Over \$5.00 to 10.00, 8 cts.	Over 50.00 to 60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over 60.00 to 75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over 75.00 to 100.00, 30 cts.
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

*Third.* If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

*Fourth.* If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

*Fifth.* If neither of the above means is available then, as a last resort, the remittance should be forwarded by registered letter.

*Sixth.* Drafts, express money orders and post office money orders must be made payable to M. T. WILBUR, TREASURER, and sent by mail. They must not be made payable to M. T. WILBUR without the title.

*Seventh.* The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

*Eighth.* The large envelope, Form 124, should be used only for making remittances by express.

*Ninth.* Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

M. T. WILBUR, Treasurer.

## TARIFF BUREAU. MONTHLY CIRCULAR.

**EXECUTIVE OFFICE,**  
**WESTERN UNION TELEGRAPH COMPANY,**  
 NEW YORK, January 20, 1900.

The following list of "changes" corrects the Tariff Book "of January, 1900" to date. Changes in the list of "New Offices" are not included.

The hand **✱** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Pavo, Ga., which was formerly a single star station, but which is now a Western Union office in Square 232.

See Special Notices at end of this circular.

### CHANGES.

#### ALABAMA.

- ✱ 319 Birmingham Junction, changed to Wilton.
- ✱ 291 Christine, changed to Ganitt.
- ✱ 291 Goshen, closed.
- ✱ Hamburg. Erase route via Montrose.

## CABLES.

The cable from Cape Town to St. Helena Island has been extended to Ascension Island. Rate to Ascension Island \$1.71 per word beyond London.

During the continuance of the war in South Africa, telegrams forwarded via the West Coast and Cape Town to East Coast places in consequence of interruption will be charged the same rates as those "via Aden" given on page 478 of January Tariff Book.

## SPECIAL NOTICES.

Particular attention should be given to messages addressed to Race Tracks, Baseball or Bicycle Parks, Fair Grounds, Camps, Asylums, Poor Houses, Hospitals, Infirmarys, Colleges, Schools, Convents, or to any institution or place, the situation of which is usually in the suburbs of some town or city. To such places

there is very frequently a charge for delivery, and when a sender offers a message addressed as indicated, the Tariff Book and Journal should be consulted, and if there be a delivery charge, it should be collected from the sender and entered in the check as required by Rule 5.

All requests to destroy or omit a message, or change the check, should be disregarded except to refer the matter to your Superintendent for benefit of the service. This applies to missent as well as uncollected messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices should enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading. "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

The later form of the Check report No. 7 shows a place for the state receipts referred to above, and also a place for the total footings of the report. Offices having this latest form should be careful to make the entry of the totals as required.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 468 to 483, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 417 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOMAS T. ECKERT,  
President.

### TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, January 18, 1900.

#### To All Transfer Agents and Offices:

The transfer service has been temporarily discontinued at New Iberia, La., and permanently discontinued at Hastings, Ont.

On February 1st, Canton, Ill., will be added to the list of Class D, transfer offices in E. M. Mulford, Jr.'s, district.

On January 2d, a new Transfer Agency was established at Spokane, Wash., and placed in charge of A. D. Campbell. Spokane, Wash., was transferred to the new district, and all transfers for such office should be addressed to A. D. Campbell, Spokane, Wash.

The following changes should be made in list of Transfer offices in January Tariff Book:

Defiance, Ohio, and Dekalb, Ill., should read E. M. Mulford, Jr., instead of I. McMichael.

Albuquerque, N. M., should read J. P. Altberger, instead of A. M. Fisher.

Boise City, Ida., should read Boise, Ida.  
Managers will correct their lists accordingly.

THOS. T. ECKERT,  
President.

NEW YORK, FEBRUARY 20, 1900.

J. B. TREK, Superintendent of the First District, Southern Division of the Western Union Telegraph Company, who has been in the telegraph service continuously since 1847, celebrated the Fiftieth Anniversary of his wedding by a reception at his home at Richmond, Va., on the evening of St. Valentine's day, the 14th inst.

Golden words of remembrance and congratulations, as well as golden gifts, came to him and his estimable wife from loving friends far and near, at home and abroad, of which not the least were those from telegraph friends in New York accompanying a loving cup of beauty.

PERRY MCD. COLLINS, who some forty years ago obtained from the Russian and United States Governments the concessions for overland telegraph lines to Europe, via Alaska, the Behring Sea and Siberia, which although partly completed were abandoned in 1863 on the finally successful laying of the Atlantic cable, died in New York on January 18th.

THERE died in New York on January 21st, Mrs. Roswell Smith. Mrs. Smith was Miss

Annie Ellsworth, daughter of the first Commissioner of Patents. She carried the news to Professor Morse of the passing by Congress in 1848 of the bill appropriating \$30,000 for the construction of a trial telegraph line between Washington and Baltimore. Professor Morse told her that she should write the first message transmitted over that line, and the following year she did so. It was the famous message "What hath God wrought"

PROFESSOR HUGHES, the inventor of the Hughes printing telegraph instrument which is largely used in Europe, died at London on January 23d.

UNITED STATES government messages sent by ARMY officers, that are written upon the blue Form No. 87 for WAR DEPARTMENT OFFICIAL TELEGRAMS furnished by the QUARTERMASTER'S DEPARTMENT UNITED STATES ARMY, should always be checked "paid govt. rate" WITHOUT REQUIRING PAYMENT FROM THEIR SENDERS.

Such messages should be taken credit for in the Western Union monthly Form No. 4 Report Account Current, for collection from the government, the original messages being returned therewith, as vouchers for such credit taken.

NEW YORK, June 20th, 1899.

### To All Western Union Managers:

You are authorized to send "collect" without the guarantee required by Rule 18, messages of traveling agents or representatives addressed to their home firms, upon sufficient evidence of their connection with those firms.

THOS. T. ECKERT,  
President and General Manager.

### TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, February 17, 1900.

### To All Transfer Agents and Offices:

The transfer service has been resumed at Medina, N. Y., and temporarily discontinued at Bloomington, Ind., and New Brunswick, N. J.

On March 1st, Hancock, Mich., will be added to the list of Class E, transfer offices in I. McMichael's district.

Managers will correct their lists accordingly. Frank E. Sullivan has been appointed Acting Transfer Agent at Pittsburg, Pa., vice N. E. Church. Transfers for Pittsburg, Pa., should be addressed to Frank E. Sullivan, instead of N. E. Church.

THOS. T. ECKERT,  
President.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, February 16, 1900.

Business frank No. 2128 issued on account of Chicago, Milwaukee & St. Paul Railway, is hereby revoked.

Managers will please take up that frank if presented and return it to this Office for cancellation.

THOS. F. CLARK,  
Vice-President.

### SERIAL BUILDING LOAN AND SAVINGS INSTITUTION.

On January 16th the officers of the Serial Building Loan and Savings Institution, New York, were elected as follows: D. B. Mitchell, president; E. F. Cummings, vice-president; Thomas M. Brennan, treasurer; Edwin F. Howell, secretary; J. B. Sabine and A. A. Rich, attorneys. Directors: John Brant, T. F. Laing, E. W. H. Cogley, W. J. Quinn, Max Wustrow, F. W. Gregory, W. C. Burton, T. A. Brooks, M. J. O'Leary, E. F. Vacheron, T. E. Fleming, M. W. Rayens, H. G. King, G. H. Schnitgen and William Holmes. Auditors: R. M. Nesbitt, James R. Beard and George H. Murphy. The auditing committee, comprising Robert M. Nesbitt, James R. Beard and George H. Murphy, have examined the books and accounts of the secretary and treasurer and certify to their correctness.

**TREASURER'S OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, January, 1898.**

*To Superintendents:* I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

*First.* Every remittance to the treasurer must be accompanied by a letter of transmittal written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expense must be reported, like any other item, in the monthly account current (form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

*Second.* Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to \$50.00, 18 cts.
Over \$5.00 to 10.00, 8 cts.	Over 50.00 to 60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over 60.00 to 75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over 75.00 to 100.00, 30 cts.
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

*Third.* If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

*Fourth.* If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

*Fifth.* If neither of the above means is available then, as a last resort, the remittance should be forwarded by registered letter.

*Sixth.* Drafts, express money orders and post office money orders must be made payable to **M. T. WILBUR, TREASURER**, and sent by mail. They must not be made payable to **M. T. WILBUR** without the title.

*Seventh.* The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

*Eighth.* The large envelope, Form 124, should be used only for making remittances by express.

*Ninth.* Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

**M. T. WILBUR, Treasurer.**

**TARIFF BUREAU.  
MONTHLY CIRCULAR.**

**EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, February 20, 1900.**

The following list of "changes" corrects the Tariff Book "of January, 1900" to date. Changes in the list of "New Offices" are not included.

The hand **13** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Pavo, Ga., which was formerly a single star station, but which is now a Western Union office in Square 232.

See Special Notices at end of this circular.

**CHANGES.**

**ALABAMA.**

- 319 Birmingham Junction, changed to Wilton.
- 291 Christine, changed to Ganit.
- 357 Eps, closed.
- 291 Goshen, closed.
- \*\*\* Hamburg. Erase route via Montrose.
- \*\*\* Lake Village, should be erased.
- 432 Lamison. Sq. number should be 332.
- 319 Pearson, closed.
- \*\*\* Snyder, should be erased.

**ARIZONA TERRITORY.**

- Clifton, should be 75 5 Lordsburg, N. M.
- Congress, should be 25 2 (25 1 N M) Phoenix or Prescott.
- 1040 Maine, now \*\*\* Maine. Free Williams.
- \*\*\* Washington Camp, now 35 0 Nogales.

**ARKANSAS.**

- Bentonville. Add: or 25 0 (telephone) Gravette.
- Caralle, now 25 2 (25 1 N M) El Dorado, Ark., or Ruston, La.
- Fort Lynn. Add: or 25 2 (25 1 N M) (telegraph) Shreveport, La.
- \*\*\* Haynes, should be erased.
- Junction City, now 25 2 (25 1 N M) El Dorado, Ark., or Ruston, La.
- 614 Magnolia, now \* Magnolia, 25 2 Gibb Island, La., or McNeil, Ark.
- 487 Millville, closed.
- Upland, now 25 2 (25 1 N M) El Dorado, Ark., or Ruston, La.
- \*\*\* Waldron, should be erased.

**BRITISH COLUMBIA.**

- \*\*\* Anaconda, now \* Anaconda, 50 3 (30 2 N M) Spokane, Wash.
- Eholt. Add: (55 4 N M.)
- Ferguson, now \* Ferguson, 1.00 4 (60 3 N M) Spokane, Wash.
- Hardy's, now 75 5 (55 4 N M) Spokane, Wash.
- Moyle City, now \* Moyle City, 50 3 (30 2 N M) Spokane, Wash.

## CABLES.

The rate to Pescadore Islands—Makong, is now \$1.51 per word beyond London. Correct Tariff Book, page 476.

The cable from Cape Town to St. Helena Island has been extended to Ascension Island. Rate to Ascension Island \$1.71 per word beyond London.

During the continuance of the war in South Africa, telegrams forwarded via the West Coast and Cape Town to East Coast places in consequence of interruption will be charged the same rates as those "via Aden" given on page 478 of January Tariff Book.

## SPECIAL NOTICES.

Particular attention should be given to messages addressed to Race Tracks, Baseball or Bicycle Parks, Fair Grounds, Camps, Asylums, Poor Houses, Hospitals, Infirmaries, Colleges, Schools, Convents, or to any institution or place, the situation of which is usually in the suburbs of some town or city. To such places there is very frequently a charge for delivery, and when a sender offers a message addressed as indicated, the Tariff Book and Journal should be consulted, and if there be a delivery charge, it should be collected from the sender and entered in the check as required by Rule 5.

All requests to destroy or omit a message, or change the check, should be disregarded except to refer the matter to your Superintendent for benefit of the service. This applies to misssent as well as uncollected messages.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL, which together furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line, delivery, or telephone charges which should be provided for when messages are accepted.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices should enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading, "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

The later form of the Check report No. 7

shows a place for the state receipts referred to above, and also a place for the total footings of the report. Offices having this latest form should be careful to make the entry of the totals as required.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 468 to 483, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 417 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

**Ocean Steamers.** The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

NEW YORK, MARCH 20, 1900

UNITED STATES government messages sent by ARMY officers, that are written upon the blue Form No. 87 for WAR DEPARTMENT OFFICIAL TELEGRAMS furnished by the QUARTERMASTER'S DEPARTMENT UNITED STATES ARMY, should always be checked "paid govt. rate" WITHOUT REQUIRING PAYMENT FROM THEIR SENDERS.

Such messages should be taken credit for in the Western Union monthly Form No. 4 Report Account Current, for collection from the government, the original messages being returned therewith, as vouchers for such credit taken.

NEW YORK, June 20th, 1899.

To All Western Union Managers:

You are authorized to send "collect" without the guarantee required by Rule 13, messages of traveling agents or representatives addressed to their home firms, upon sufficient evidence of their connection with those firms.

THOS. T. ECKERT,  
President and General Manager.

NEW YORK, March 20, 1900.

To All Western Union Managers:

Messages upon the official business of the United States Census, filed by United States Census officials and endorsed "OFFICIAL BUSINESS; CHARGE CENSUS OFFICE, WASHINGTON, D. C.," may be accepted without prepayment. When addressed to Washington such messages should be sent checked "COLLECT GOVERNMENT RATE," and when addressed to places other than Washington should be sent checked "PAID GOVERNMENT RATE." Those sent checked "PAID GOVERNMENT RATE" should be taken credit for in the Account Current portion of the monthly Form No. 4 report, the original messages being sent in therewith.

THOS. T. ECKERT,  
President and General Manager.

### TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, March 17, 1900.

To All Transfer Agents and Offices:

The transfer service has been temporarily discontinued at Charleroi, Pa.  
Managers will correct their lists accordingly.

THOS. T. ECKERT,  
President.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, March 15, 1900.

Business frank No. 2128 issued on account of Chicago, Milwaukee & St. Paul Railway, and business frank No. 10120 on account of Louisiana & North West Railway, are hereby revoked.

Managers will please take up those franks if presented and return them to this Office for cancellation.

THOS. F. CLARK,  
Vice-President.

Western Union Telegraph Company.

NEW YORK, March 14, 1900.

### DIVIDEND NO. 126.

THE Board of Directors have declared a quarterly dividend of ONE AND ONE-QUARTER PER CENT. upon the capital stock of this company, payable at the office of the Treasurer on and after the 16th day of April next, to shareholders of record at the close of the transfer books on the 20th day of March, inst.

The transfer books will be closed at three o'clock on the afternoon of March 20th, inst., and reopened on the morning of April 2d, next.

M. T. WILBUR,  
Treasurer

## QUARTERLY REPORT OF THE WESTERN UNION TELEGRAPH COMPANY, FOR THE QUARTER ENDING MARCH 31st, 1900.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, March 14th, 1900.

The following statement exhibits the condition of the Company at the close of the quarter ended December 31st, 1899.

Surplus October 1st, 1899, as per last Quarterly Report.....	\$8,192,383 16
Net revenues, quarter ended December 31st, 1899.....	1,579,486 85
	\$9,771,870 01

From which appropriating for—

Dividend of 1½ per cent. paid January 15th.....	\$1,216,996 25
Interest on bonded debt.....	224,120 15
	1,441,116 40

Left a surplus January 1st, 1900.....\$8,430,753 61

Surplus January 1st, 1900, as above.....	\$8,430,753 61
The net revenues of the quarter ending March 31st, instant, based upon nearly completed returns for January, partial returns for February, and estimating the business for March, will be about.....	\$1,250,000 00
	\$9,680,753 61

From which appropriating for—

Interest on bonds.....	\$224,120 15
Sinking funds.....	9,991 00
	234,111 15

It requires for a dividend of 1½ per cent. on capital stock issued, about.....1,216,997 00

Deducting which, leaves a surplus, after paying dividend, of.....	\$9,229,646 46
---	----------------

In view of the preceding statements, the Committee recommend the adoption by the Board of the following:

*Resolved*, That a dividend of one and one-quarter per cent. on the capital stock of this Company be hereby declared payable on and after the 16th day of April next, to stockholders of record at the close of the transfer books on the 20th day of March, instant.

*Resolved*, That for the purpose of the dividend hereinbefore declared, the stock books of the Company be closed at three o'clock on the afternoon of the 20th day of March, instant, and be reopened on the morning of the 2d day of April next.

Respectfully submitted,  
THOS. T. ECKERT,  
President.

## TARIFF BUREAU.

## MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, March 20, 1900.

The following list of "changes" corrects the Tariff Book "of January, 1900" to date. Changes in the list of "New Offices" are not included.

The hand **337** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Pavo, Ga., which was formerly a single star station, but which is now a Western Union office in Square 282.

## PRESS MESSAGES TO THE KLONDIKE.

Press messages for Glacier, Log Cabin, Middle Lake, Shops and Summit in Alaska; Atlin and Bennett in British Columbia, Caribou, Dawson (City), Five Fingers, Fort Selkirk, Hootalinqua, Lower Labarge, Miles Canyon, Ogilvie or Sixty Mile River, Selwyn or Fort Selwyn, Tagiah and White Horse in Northwest Territories, can now be accepted at "other" line rate of four cents per word for day and night messages beyond Seattle, Wash., or beyond Vancouver, B. C. No press message to be accepted for less than \$2.50 for "other" lines. Business to be prepaid.

See Special Notices at end of this circular.

# JOURNAL OF THE TELEGRAPH

VOL. XXXIII.

NEW YORK, APRIL 20, 1900.

WHOLE NO. 562.

WILLIAM J. HOLMES, Superintendent of the Seventh District Eastern Division Western Union Telegraph Company, and Superintendent of Telegraph of the Erie Railroad system, died at his home at Paterson, N. J., on April 11th, aged 61 years.

Mr. Holmes was born at Auriesville, N. Y., September 13th, 1838, and entered the telegraph service in 1856 on the Erie Railroad lines, with which Company (with the exception of a period during the Civil War when he was in the United States military telegraph service) he was connected continuously for a period of nearly 45 years.

In 1866 he succeeded the late L. G. Tillotson both as a District Superintendent of the Western Union Telegraph Company, and the telegraph superintendent of the Erie Railroad Company. As both, a commercial and a railroad telegraph superintendent, of long experience, he was a superior manager, and in all the duties of life he was an excellent man.

He leaves a widow, two sons and two daughters. His funeral services were held at Paterson, on April 14th, and his interment was at Port Jervis on the same day.

NEW YORK, March 20, 1900.

#### To All Western Union Managers:

Messages upon the official business of the United States Census, filed by United States Census officials and endorsed "OFFICIAL BUSINESS; CHARGE CENSUS OFFICE, WASHINGTON, D. C.," may be accepted without prepayment. When addressed to Washington such messages should be sent checked "COLLECT GOVERNMENT RATE," and when addressed to places other than Washington should be sent checked "PAID GOVERNMENT RATE." Those sent checked "PAID GOVERNMENT RATE" should be taken credit for in the Account Current portion of the monthly Form No. 4 report, the original messages being sent in therewith.

THOS. T. ECKERT,  
*President and General Manager.*

THE first railroad company in the United States to construct a telegraph line and operate its road by telegraph, was the Erie R. R. Co., in 1851.

Since then, for a period of nearly fifty years, it has had but two Superintendents of Telegraph—L. G. Tillotson prior to 1866, and W. J. Holmes since then until his death recently.

#### THE TELEGRAPH AT VICTORIA NYANZA.

THE completion of the telegraph from the Indian Ocean to Victoria Nyanza puts the world in communication with the sources of the Nile. The telegraph line has been completed as far as Ripon Falls, which is the point where the White Nile leaves the lake. The people of Lower Egypt will now be able to tell what the water conditions of the Lower Nile will be for months in advance, so that they can regulate the quantity to be taken from the Nile for irrigation purposes. Information as to the state of the water in the Upper Nile would at times be worth millions of dollars to Lower Egypt. At present despatches from Victoria Nyanza will have to be sent by steamer to be put on the cable at Zanzibar. This will, of course, delay messages for several days, but five years ago, says the *New York Sun*, when the building of this line and the railroad alongside of it was commenced, the shortest time in which the news from the lake could reach Europe was about four months.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, April 20, 1900.

#### NOTICE.

Attention of offices is specially called to the necessity of complying with Rule 79, as to dating free messages with the names of the places at which they are filed, as well as indicating thereon plainly and correctly the amount of the tolls, in the manner stated.

THOS. T. ECKERT,  
*President and General Manager.*

F. L. BLENDINGER has been appointed Superintendent of the Seventh District, Eastern Division, Western Union Telegraph Co., vice W. J. Holmes, deceased. Mr. Blendinger has also been appointed in place of Mr. Holmes, Superintendent of Telegraph of the Erie R. R. Co.

#### REMARKABLE METALLURGICAL EXPERIMENTS.

SOME interesting experiments were carried on in the laboratory of Mr. T. A. Edison, at Orange, N. J., on April 7th, by the agent of a German chemical concern, who exhibited a new process of attaining great heat in an almost incredibly short time by the combustion of a secret chemical compound used in connection with powdered aluminium. A cupful of the chemical was placed in a crucible, a small amount of powdered aluminium was added, and then a wrench about half an inch thick and six inches long was placed in the crucible. A match was touched to the compound, and violent combustion took place. It is estimated that the temperature was not far from 3000° C.

#### TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, April 18, 1900.

#### To All Transfer Agents and Offices:

The transfer service has been resumed at Bloomington, Ind., and New Brunswick, N. J., discontinued at Auburn, Cal., temporarily discontinued at Tallahassee, Fla., and discontinued for the season at Palm Beach, Fla.

The transfer service will be resumed at Charleroi, Pa., and Tallahassee, Fla., on May 1st.

On May 1st, the following offices will be added to the list of transfer offices:

In E. M. Mulford, Jr.'s district: Excelsior Springs, Mo., Class E; Waukegan, Ill., Class D. In A. C. Stevenson's district: Chester, S. C., Class E.

In Arthur Cox's district: Waterpower, Sault Ste. Marie, Ont., Class B.

On May 1st, Atlantic, Iowa, and Jefferson City, Mo., will be advanced from Class E, to Class D, and on same date, San Bernardino, Cal., will be reduced from Class C, to Class D, transfer offices.

Managers will correct their lists accordingly.

On April 2d, N. E. Church was appointed Transfer Agent at Pittsburg, Pa., vice Frank E. Sullivan, Acting Transfer Agent. Transfers for Pittsburg, Pa., should be addressed to N. E. Church, instead of Frank E. Sullivan.

THOS. T. ECKERT,  
*President.*

UNITED STATES government messages sent by ARMY officers, that are written upon the blue Form No. 87 for WAR DEPARTMENT OFFICIAL TELEGRAMS furnished by the QUARTERMASTER'S DEPARTMENT UNITED STATES ARMY, should always be checked "paid govt. rate" WITHOUT REQUIRING PAYMENT FROM THEIR SENDERS.

Such messages should be taken credit for in the Western Union monthly Form No. 4 Report Account Current, for collection from the government, the original messages being returned therewith, as vouchers for such credit taken.

NEW YORK, June 20th, 1899.

#### To All Western Union Managers:

You are authorized to send "collect" without the guarantee required by Rule 18, messages of traveling agents or representatives addressed to their home firms, upon sufficient evidence of their connection with those firms.

THOS. T. ECKERT,  
*President and General Manager.*

## TARIFF BUREAU.

## MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, April 30, 1900.

The following list of "changes" corrects the Tariff Book "of January, 1900" to date. Changes in the list of "New Offices" are not included.

The hand **✂** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Pavo, Ga., which was formerly a single star station, but which is now a Western Union office in Square 232.

## PRESS MESSAGES TO THE KLONDIKE.

Press messages for Glacier, Log Cabin, Middle Lake, Shops and Summit in Alaska; Atlin and Bennett in British Columbia, Caribou, Dawson (City), Five Fingers, Fort Selkirk, Hootalinqua, Lower Labarge, Miles Canyon, Ogilvie or Sixty Mile River, Selwyn or Fort Selwyn, Tagish and White Horse in Northwest Territories, can now be accepted at "other" line rate of four cents per word for day and night messages beyond Seattle, Wash., or beyond Vancouver, B. C. No press message to be accepted for less than \$2.50 for "other" lines. Business to be prepaid.

See Special Notices at end of this circular.

## CABLES.

Taking effect May 1st, the rate beyond London, via Eastern or India route to South and Western Australia and Tasmania, will be 98 cents per word. Correct Tariff Book, page 474.

Makong, given after Pescadore Islands in Tariff Book, is in Formosa Island. Rate \$1.51 per word beyond London. The rate to Pescadore Islands remains as at present, viz: \$1.35 per word beyond London.

Ascension and St. Helena Islands can now be reached via Madeira and Cape Verde Islands at following rates per word beyond London:

Ascension Island.....	\$0.98
St. Helena Island.....	.98

During the continuance of the war in South Africa, telegrams forwarded via the West Coast and Cape Town to East Coast places in consequence of interruption will be charged the same rates as those "via Aden" given on page 473 of January Tariff Book.

## SPECIAL NOTICES.

Particular attention should be given to messages addressed to Race Tracks, Baseball or Bicycle Parks, Fair Grounds, Camps, Asylums, Poor Houses, Hospitals, Infirmaries, Colleges, Schools, Convents, or to any institution or place, the situation of which is usually in the suburbs of some town or city. To such places there is very frequently a charge for delivery, and when a sender offers a message addressed as indicated, the Tariff Book and Journal should be consulted, and if there be a delivery charge, it should be collected from the sender and entered in the check as required by Rule 5.

All requests to destroy or omit a message, or change the check, should be disregarded except to refer the matter to your Superintendent for benefit of the service. This applies to missent as well as uncollected messages.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL, which together furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line, delivery, or telephone charges which should be provided for when messages are accepted.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 468 to 483, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 417 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOS. T. ECKERT,  
President.

## TARIFF BUREAU.

## MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
- NEW YORK, May 20, 1900.

The following list of "changes" corrects the Tariff Book "of January, 1900" to date. Changes in the list of "New Offices" are not included.

The hand **B** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Pavo, Ga., which was formerly a single star station, but which is now a Western Union office in Square 232.

See Special Notices at end of this circular:

## CHANGES.

## CABLES.

Taking effect May 1st, the rate beyond London, via Eastern or India route to South and Western Australia and Tasmania, will be 98 cents per word. Correct Tariff Book, page 474.

Makong, given after Pescadore Islands in Tariff Book, is in Formosa Island. Rate \$1.51 per word beyond London. The rate to Pescadore Islands remains as at present, viz: \$1.35 per word beyond London.

Ascension and St. Helena Islands can now be reached via Madeira and Cape Verde Islands at following rates per word beyond London:

Ascension Island.....	90.98
St. Helena Island.....	98

During the continuance of the war in South Africa, telegrams forwarded via the West Coast and Cape Town to East Coast places in consequence of interruption will be charged the same rates as those "via Aden" given on page 478 of January Tariff Book.

## SPECIAL NOTICES.

Particular attention should be given to messages addressed to Race Tracks, Baseball or Bicycle Parks, Fair Grounds, Camps, Asylums, Poor Houses, Hospitals, Infirmaries, Colleges, Schools, Convents, or to any institution or place, the situation of which is usually in the suburbs of some town or city. To such places there is very frequently a charge for delivery, and when a sender offers a message addressed as indicated, the Tariff Book and Journal should be consulted, and if there be a delivery charge, it should be collected from the sender and entered in the check as required by Rule 5.

All requests to destroy or omit a message, or change the check, should be disregarded except to refer the matter to your Superintendent for benefit of the service. This applies to misssent as well as uncollected messages.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL, which together furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line, delivery, or telephone charges which should be provided for when messages are accepted.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 468 to 488, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 417 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOS. T. ECKERT,  
President.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, May 19, 1900.

Business Notices, on Editorial page, 50 cents per line for each insertion.

Nothing inserted for less than one dollar.

A reasonable discount will be allowed on advertisements to remain standing, for which special arrangements can be made.

NEW YORK, JUNE 20, 1900.

### TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, June 18, 1900.

To All Transfer Agents and Offices:

On July 1st, Crookston, Minn., will be added to the list of Class E, transfer offices in I. McMichael's district, and on same date London, Ont., will be advanced from Class C to Class B, transfer offices.

Managers will correct their lists accordingly.

THOS. T. ECKERT,  
President.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, May 19, 1900.

Business franks No. 10120, issued on account of Louisiana and North West Railroad, and No. 10164, issued on account of Omaha, Kansas City & Eastern Railroad, and Complimentary franks Nos. B-392 and C-1203 are hereby revoked.

Managers will please take up those franks if presented and return them to this Office for cancellation.

THOS. F. CLARK,  
Vice-President.

On May 28th a message reporting results of observation of the eclipse of the sun, sent by attaches of the Lowell Observatory from Washington, Georgia, at 8.53 A. M., New York time, was transmitted by the Atlantic cables of the Western Union Telegraph Company and of the Eastern Telegraph Company to an observer at Tripoli, in Africa, and delivered at 1.55 Greenwich, or two minutes later. This is said to break the record for fast ocean telegraphy.

At the annual meeting of the Associated Press held in Chicago on May 16th, the following officers were elected for the ensuing year: President, Charles W. Knapp; First Vice-President, Harrison G. Otis; Second Vice-President, Samuel Bowles; Secretary and General Manager, Charles S. Diehl; Treasurer, John R. Walsh.

THE annual convention of the Association of Railroad Telegraph Superintendents began at Detroit, Mich., on June 20th.

At the seventh annual meeting of the Telegraphic Historical Society of North America held in New York on May 23d, officers were re-elected as follows: President, Chas. A. Tinker, New York; First Vice-President, Geo. C. Maynard, Washington, D. C.; Second Vice-President, H. P. Dwight, Toronto, Ont.; Third Vice-President, J. P. McKinstry, Cleveland, O.; Secretary and Treasurer, J. B. Taltavall, New York.

NEW YORK, June 20th, 1899.

To All Western Union Managers:

You are authorized to send "collect" without the guarantee required by Rule 13, messages of traveling agents or representatives addressed to their home firms, upon sufficient evidence of their connection with those firms.

THOS. T. ECKERT,  
President and General Manager.

Western Union Telegraph Company.  
NEW YORK, June 12, 1900.

### DIVIDEND NO. 127.

THE Board of Directors have declared a quarterly dividend of ONE AND ONE-QUARTER PER CENT. upon the capital stock of this company, payable at the office of the Treasurer on and after the 16th day of July next, to shareholders of record at the close of the transfer books on the 20th day of June, instant.

The transfer books will be closed at three o'clock on the afternoon of June 20th, inst., and be reopened on the morning of July 2d, next.

M. T. WILBUR,  
Treasurer.

Sinking Funds.....	9,797 00
	1,450,913 40

Left a surplus April 1st, 1900.....\$8,298,224 26

Surplus April 1st, 1900, as above.....\$8,298,224 26

The net revenues of the quarter ending June 30th, instant, based upon nearly completed returns for April, partial returns for May and estimating the business for June, will be about.....1,700,000 00

\$9,998,224 26

From which appropriating for—

Interest on bonds.....	\$225,000 00
	225,000 00
	\$9,773,224 26

It requires for a dividend of 1½ per cent. on capital stock issued, about.....1,216,996 25

Deducting which, leaves a surplus, after paying dividend, of.....\$8,556,228 01

In view of the preceding statements, the Committee recommend the adoption by the Board of the following:

Resolved, That a dividend of one and one-quarter per cent. on the capital stock of this Company be hereby declared payable on and after the 16th day of July next, to stockholders of record at the close of the transfer books on the 20th day of June, instant.

Resolved, That for the purpose of the dividend hereinbefore declared, the stock books of the Company be closed at three o'clock on the afternoon of the 20th day of June, instant, and be reopened on the morning of the 2d day of July next.

Respectfully submitted,  
THOS. T. ECKERT,  
President.

SPECIAL attention of Western Union Managers is called to the Tariff changes in this issue with points on Martha's Vineyard and Nantucket Island, Massachusetts, which are now checked with Woods Hole JUNCTION, Mass.

## TARIFF BUREAU.

## MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, June 30, 1900.

The July, 1900, edition of the Tariff Book is now being distributed, and every office should be supplied with one or more copies on or before July 1, when the new book takes effect.

The numerous additions to the list of offices in Mexico and the important changes in rates to places in Cuba other than Havana should be noted.

Managers should read carefully the pages of instruction at the beginning of the book; they should also examine the names, square numbers and P. O. addresses of their offices, and the names and rates of "other" line offices with which they connect, and report at once to their Superintendents any errors which they may discover.

The following list of "changes" corrects the Tariff Book "of July, 1900" to date.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Daleton, Ohio, which was formerly a three star station, but which is now a Western Union office in Square 181.

See Special Notices at end of this circular :

## CHANGES.

## ALABAMA.

- 376 Cox Station, closed.
- 332 Eleanor, closed.
- \* Point Clear. Summer office, reopened.
- 290 Seddon, closed.

## CABLES.

During the continuance of the war in South Africa, telegrams forwarded via the West Coast and Cape Town to East Coast places in consequence of interruption will be charged the same rates as those "via Aden" given on pages 489, 490 and 491 of July Tariff Book.

## SPECIAL NOTICES.

Particular attention should be given to messages addressed to Race Tracks, Baseball or Bicycle Parks, Fair Grounds, Camps, Asylums, Poor Houses, Hospitals, Infirmaries, Colleges, Schools, Convents, or to any institution or place, the situation of which is usually in the suburbs of some town or city. To such places there is very frequently a charge for delivery, and when a sender offers a message addressed as indicated, the Tariff Book and Journal should be consulted, and if there be a delivery charge, it should be collected from the sender and entered in the check as required by Rule 5.

Managers of Western Union offices should enter in figures under the printed heading on

the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading, "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

The later form of the Check report No. 7 shows a place for the state receipts referred to above, and also a place for the total footings of the report. Offices having this latest form should be careful to make the entry of the totals as required.

All requests to destroy or omit a message, or change the check, should be disregarded except to refer the matter to your Superintendent for benefit of the service. This applies to misssent as well as uncollected messages.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL, which together furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line, delivery, or telephone charges which should be provided for when messages are accepted.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls for "this" line, and then the tolls for "other" lines.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

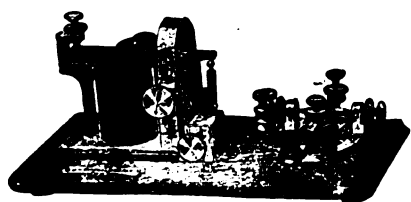

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 484 to 501, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 433 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOS. T. BOKERT,  
President.

## CABLES.

Telegraph stations have been opened at Barcelona, Carupano, Cumana and Port La Mar, in Venezuela. Rate to all same as to Maracaibo.

During the continuance of the war in South Africa, telegrams forwarded via the West Coast and Cape Town to East Coast places in consequence of interruption will be charged the same rates as those "via Aden" given on pages 489, 490 and 491 of July Tariff Book.

## SPECIAL NOTICES.

Particular attention should be given to messages addressed to Race Tracks, Baseball or Bicycle Parks, Fair Grounds, Camps, Asylums, Poor Houses, Hospitals, Infirmarys, Colleges, Schools, Convents, or to any institution or place, the situation of which is usually in the suburbs of some town or city. To such places there is very frequently a charge for delivery, and when a sender offers a message addressed as indicated, the Tariff Book and Journal should be consulted, and if there be a delivery charge, it should be collected from the sender and entered in the check as required by Rule 5.

All requests to destroy or omit a message, or change the check, should be disregarded except to refer the matter to your Superintendent for benefit of the service. This applies to misssent as well as uncollected messages.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL, which together furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line, delivery, or telephone charges which should be provided for when messages are accepted.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

# PHILLIPS'S MORSE AUTOMATIC TELEGRAPH.

## WALTER P. PHILLIPS IN THE TELEGRAPH AGE.

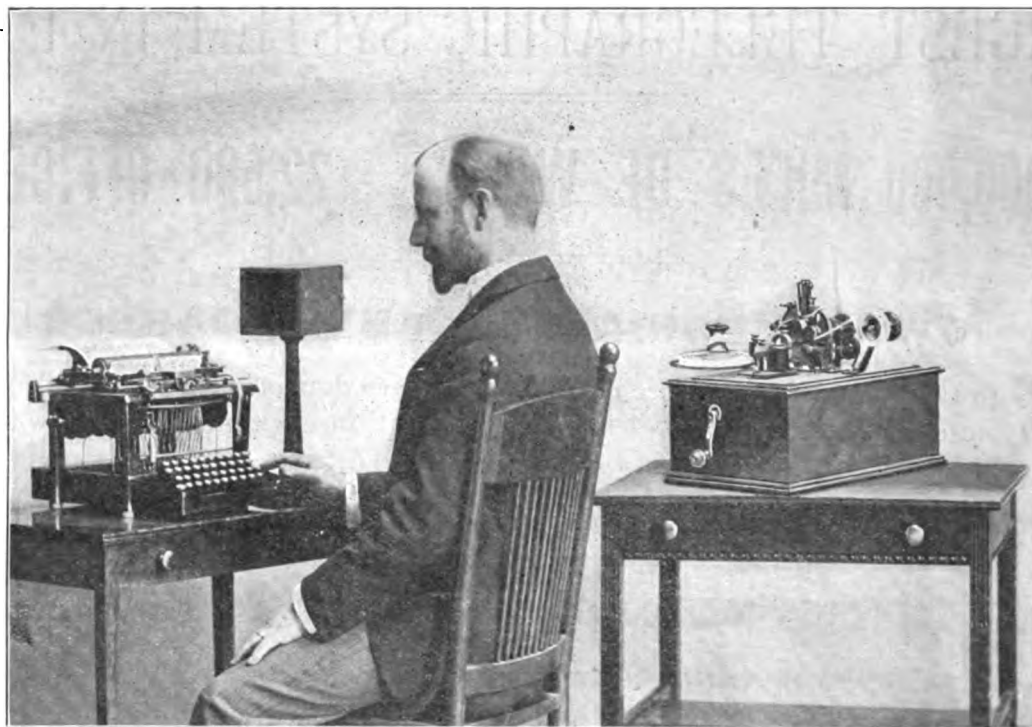

FROM time to time my telegraphic friends who know of my Morse automatic system, write to me asking terms on which I will supply a set to enable them to become proficient as typewriter operators, by practicing typewriting at home from the Morse sending done by the transmitting side of the Morse automatic system. The difficulty in the way of my supplying the demand, which seems to grow rather than to subside, has been that all the sets which were in use on The United Press wires, and which reverted to me when that organization went out of active business,

Kihm, of the *Brooklyn Eagle*, but the Morse Automatic system as arranged for that special purpose, will enable any first-class operator who has familiarized himself with the linotype keyboard, to use that machine with as much ease as he uses the typewriter. My plan contemplates taking the sending on a matrix and delivering it to the operator at any time and at any gait that suits his convenience.

The transmitting part of the machine will be under his absolute control, while the recording half of it will take without breaks, and store anything that comes over the wire. This matter can be reproduced within five seconds, or five years later, if that were necessary. In view of all the tendencies, the day when Morse

hours to wait for a train back to the city. The local fire engine house and the railway station are the least desolate places to put in this time. I usually chose the railway station, in the hope that a belated train of the day before might happen along, and with a view to swapping yarns with the telegraph operator. On these excursions I have often been impressed with the many interruptions to which the average country operator is subjected, and the consequent diminution in the capacity of a wire which passes through a number of these places. Even if he is not called on to check trunks and milk cans, he usually has to sell tickets and answer questions about trains. The noise of passing trains, especially in summer, when the doors and windows are open, is another source of interruption.

All these things mean that a first-class sender in New York, working a circuit through small

were arranged for an incandescent light circuit as the motive power, and it has only been within a short time that I have found it feasible to adapt my mechanism to the power to be had through the medium of a spring motor, such as is used on the graphophone. By this means I am now able to supply a compact instrument that will meet the requirements of the many who have not yet conquered the typewriter, but are anxious to do so, thus putting a premium on their work.

There is no field in which expert telegraphers can make their value felt as markedly as in connection with the slug casting mechanism known as the linotype. The time will come, undoubtedly, when a very great deal of matter will be copied from the wire and set up on the linotype.

This has been done, already, to a considerable extent by some operators, notably by Mr.

men who can use the linotype will be in demand is not far distant, and where the situation admits of their filling the dual positions referred to, their compensations cannot fail to be much better than it is in scarcely any other field.

## ALBERT C. PHILLIPS IN THE TELEGRAPH AGE.

I READ with interest the letter from my father which you published in a recent issue of the *Telegraph Age*, telling of the successful application of his reproducer, for use in connection with the linotype. It strikes me that this type of machine will be of great value in the smaller telegraph offices at way-stations.

A few years ago, when I was a reporter on the *Sun*, I frequently had occasion to visit the small towns near New York. It is every reporter's experience that after his story is covered he has anywhere from one to three

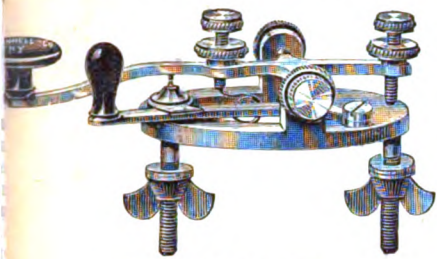

towns, is liable to constant breaks, and that his capacity and that of the wire is greatly reduced. With a Morse automatic machine in each of these offices, this difficulty would be entirely obviated. The country operator, when queried about the next train to Magninville, could shut off his reproducer, let the other operator continue sending into the recorder, and, when he had attended to the other demands on his time, could take up his work again without interrupting the sending at all.

This gain, of course, would be entirely aside from the primary gain due to the possibility of the sender's disposing of the messages for one way-station at top-speed and going ahead with those for another place, leaving the receiving operator to grind out his particular grist at his own particular gait.

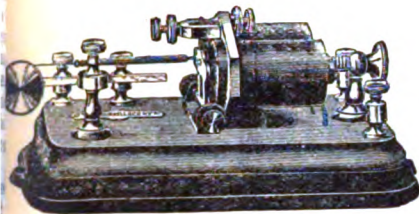

Under these conditions, I feel sure, the country operator would have so much more time and be so much freer from exasperating conditions, that the railway station would be established as a sure winner, as against the fire engine house, as a refuge for the wayfaring reporter.

## TELEGRAPHERS' MUTUAL BENEFIT ASSOCIATION.

—ORGANIZED 1867.—

OLDEST FRATERNAL BENEFIT SOCIETY  
IN UNITED STATES.

Reserve Fund - - - \$176,000

MEMBERSHIP - - - 5,000

**WALTER C. HUMSTONE, President, New York.**

Organized and started on its beneficent career thirty-three years ago, it has since afforded protection to nearly 10,000 telegraphers and has now 5,000 members of both sexes carrying insurance for the protection of their families and dependents. Although death claims aggregating nearly \$1,000,000 have been paid, there has never been a case where the claim was contested, as a clause in the constitution provides that every certificate of membership is incontestable after a membership of one year.

A Reserve Fund of \$176,000 for the protection of its present members, and of the new additions which are constantly being added to its ranks, has been accumulated and securely invested.

The annual revenue from this Reserve Fund for many years past, has been sufficient to pay all current expenses and several death claims in addition.

This explains why the total number of assessments levied for the past thirty-three years has been but 367, or an average of less than twelve per annum.

The Association is under the supervision, and subject to the periodical examination, of the Superintendent of the Insurance Department of the State of New York who certified after his last examination, January, 1898, that the affairs of the Association were in a most prosperous condition, that claims were paid promptly and in full, and that the expense of management was confined to the expenses attending collections of assessments.

As it should always be borne in mind that membership can only be secured while in good health, the present is the time to make application.

All persons in good health between the ages 18 and 45 employed in any capacity in the telegraph or telephone service are eligible for membership.

Insurance Full Grade, \$1,000. Half Grade, \$500, or both grades, \$1,500.

Initiation fee, \$2 for each grade.

Rates from 50 cents to \$3, graded according to age.

Monthly assessments.

Agents in all principal cities.

For further particulars address any agent, or

# JOURNAL OF THE TELEGRAPH

THE NEW YORK  
PUBLIC LIBRARY  
ASTOR, LENOX AND  
TILDEN FOUNDATIONS.

VOL. XXXIII.

NEW YORK, AUGUST 20, 1900.

WHOLE NO. 566.

WILLIAM P. WESTERVELT died at his home at Cranford, N. J., on Sunday, August 12th, aged 85 years.

Mr. Westervelt was an oldest old-time telegrapher but little known to the present old-time telegraphers. Fifty years ago he was superintendent of the Magnetic Telegraph Co. between New York and Washington, which was organized under the first telegraphic charter issued in the United States. In February, 1856, as superintendent of that Company, he saw successfully laid the first submarine cable across the Hudson River between New York and Hoboken—a three conductor armored cable supplied by S. C. Bishop. Subsequently he was superintendent of the New York and Washington Printing Telegraph Co. When the American Telegraph Co. absorbed both the New York and Washington Printing and the Magnetic Cos., he became superintendent between New York and Washington of the American Co. As such superintendent during the Civil War he was of material aid to the Government, particularly in connection with the night trip from Harrisburg to Washington of President-elect Lincoln prior to his inauguration, when all telegraph communication with Harrisburg was absolutely prevented. Subsequently he was a superintendent of the United States Telegraph Co. After the absorption in 1866 of all these telegraph companies by the Western Union Telegraph Co., he retired from active telegraph life. Later he was connected with the International Ocean Telegraph Co., and for the last twenty years with the Auditor's Department of the Western Union Telegraph Co.

His funeral services were held at his residence at Cranford, N. J., on August 14th, and his burial was at Philadelphia on the following day.

## TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, August 18, 1900.

To All Transfer Agents and Offices:

The transfer service has been resumed at Narragansett Pier, R. I., and temporarily discontinued at Baton Rouge, La., Bloomington, Ind., Bristol, Tenn., Corning, N. Y., Greenville, S. C., Huntington, W. Va., McKeesport, Pa., Newberne, N. C., and Nyack, N. Y.

The transfer service will be resumed at Huntington, W. Va., and Newport News, Va., on September 1st.

On September 1st, the following offices will be added to the list of transfer offices

In J. J. Dickey's district, Coffeyville, Kan.,

Class D.; Concordia, Kan., Class D.; Iola, Kan., Class D.

Managers will correct their lists accordingly.  
THOS. T. ECKERT,  
President.

THE next convention of the Old Time Telegraphers' Association and U. S. Military Telegraph Corps, will be held at St. Paul and Minneapolis, Minn., on September 18th, 19th and 20th.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, August 20, 1900.

Business Franks Nos. 1783, issued on account of Gulf, Colorado & Santa Fe Railway; 10120, on account of Louisiana & Northwest Railroad, and 10164, on account of Omaha, Kansas City & Eastern Railroad, and Complimentary Franks Nos. B-392, C-1208, D-1088 and D-1166 are hereby revoked.

Managers will please take up those franks if presented and return them to this Office for cancellation.  
THOS. F. CLARK,  
Vice-President.

## TARIFF BUREAU.

### MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, August 20, 1900.

The following list of "changes" corrects the Tariff Book "of July, 1900" to date. Changes in the list of "New Offices" are not included.

The hand **3** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

Places marked in the Tariff Book as "Summer" offices are not to be considered as open until notice to that effect is published in the JOURNAL.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Covington, La., which was formerly a single star station, but which is now a Western Union office in Square 423.

See Special Notices at end of this circular.

## CABLES.

Telegraph stations have been opened at Barcelona, Carupano, Cumana and Port La Mar, in Venezuela. Rate to all same as to Maracaibo.

During the continuance of the war in South Africa, telegrams forwarded via the West Coast and Cape Town to East Coast places in consequence of interruption will be charged the same rates as those "via Aden" given on pages 489, 490 and 491 of July Tariff Book

THOS. T. BOKERT,  
President

# PHILLIPS'S MORSE AUTOMATIC TELEGRAPH

## A PRACTICAL SCHEME

(FROM THE NEW YORK SUN)

There was an interesting exhibition on Sunday of a recently invented system of rapid telegraphy. The system is the invention of R. H. Weiny and Walter P. Phillips, both of this city, and it is intended to be applied directly to the ordinary telegraph lines and to be operated by the currents now in use.

What the Phillips's Morse Automatic Telegraph will do is to double or treble the number of words that can be sent over a single wire, and this without requiring that the operators learn anything beyond that which the present Morse operators know now. This result is accomplished by the addition to each office of a set of very simple instruments. When there is no need of hurrying matter forward over the wires the rapid system can be out of use by changing a plug, and the wires can be used in the ordinary way—sending messages directly by the key. The system is one which is of value principally to the telegraph companies themselves and to the users of leased wires, but the public would often find a direct benefit from its adoption through getting messages promptly which are now often delayed when there is trouble with the wires and their capacity is reduced below the normal.

In this system the messages are recorded in raised telegraphic characters on a strip of paper, and this strip being run through a proper machine the characters are repeated by sound at the other end of the wire, and the operator, reading them by ear, takes them upon a typewriter or by hand. The transcribing operator can vary the speed of the taps as it goes through the machine to suit himself, can stop it at any point, and can pull it back if he wants it repeated. It is asserted that the greater number of mistakes that occur in the Wheatstone system are in the reading and transcribing, and that these are done away with in the new system, because the ear is more accurate than the eye and also faster. These claims seemed all to be proved by the tests made yesterday. An article in the *Sun* was chosen for the test. This was handed to a Morse operator, and while he sent it the operator, who was afterward to transcribe it, left the room. The sending operator worked at the ordinary key, just as he would in sending a message over the wire in the present Morse system. The message, however, instead of going over the main wire, was sent only over a local office wire. It was received in a machine, which was, to all intents and purposes, like the registering machine which every operator used

forty years ago, before men had learned to read by sound. The dots and dashes were reproduced in a strip of paper, each being raised above the surface of the paper by a point which pressed that part of the paper into a groove in a wheel which the paper passed over. Instead of producing a single line of these impressions, there were three points which worked side by side and left three sets of duplicate impressions. The duplication is merely to insure accuracy. The message was telegraphed in this part of the process at the ordinary rate of speed.

Now came the second process—the transmission over the main wire. The transmitting instrument and the recording instrument, at opposite ends of the wire, were set going at a speed three times as great as that of the hand operator. The strip of paper with the message imprinted on it was started through the transmitter, and the recorder went rattling away at a rate which no man could read, but every impression was afterward found to be an exact duplicate of those in the strip going through the transmitter. When this process was completed the paper from the recorder was brought over to the transmitter, and the latter machine was slowed down again to a speed equal to that of ordinary telegraphing. The transmitter was now assumed to be only an office machine run upon an office circuit and entirely separate from the line wire, as would be the case in the third process—that of taking the message from the transmitted copy and turning it into ordinary writing. A typewriter who could read telegraphy by sound sat in front of his machine and as soon as the strip was started through the transmitter he began to print out the message. When he had finished, the typewritten copy was compared with the original article in the *Sun* and found to be exactly correct.

In practice, the manner in which the system would be used is this: Since the transmitter is able to send three times as many messages in a given time as a single operator can send or receive, there would be three operators in each office to each wire. In the sending office these operators would be kept busy making the tape copies of the messages by ticking them off on office recorders. As fast as their messages were ready they would be run through the transmitter, which would reproduce them at the triple speed at the other end of the wire. There the three other operators would each take a part of the messages and transcribe them. There is absolutely no loss of time.

### PRICES

Type A, with 1 roll of tape containing 1,000 words. . . . .	\$35.00	Type F. The recording part of this machine fitted with tandem motor. . . . .	\$75.00
Type M. The reproducing part of this machine is put up in a beautiful cabinet and is operated by a duplex tandem motor of recent invention. It will run, at each winding, from one to two hours, according to the speed given it. Price with 4 rolls of tape containing 1,000 words, each. . . . .	50.00	Type F, complete, for fast work and comprising both the reproducer and recorder. . . . .	125.00
Type M. The recording part of this machine is put up in the same way as the preceding. It will run an equal length of time. . . . .	65.00	Type F-E. The reproducing and recording parts of this machine, separately and in combination, sell for the same as Type F. It has an electric motor adaptable to both the incandescent and the storage battery currents.	
Type M, complete, comprising both reproducer and recorder, when desired for use in country office or linotype work. . . . .	108.00	Additional matrices containing 1,000 words for types A and M, 50 cents each.	
Type F. The reproducing part of this machine is the Morse Automatic proper. It is fitted up with the duplex tandem spring motor. . . . .	60.00	In ordering matrices say whether straight sending is wanted or code sending, and whether in the Morse or Continental alphabet. If the language is not specified it will be taken for granted that English matrices are wanted.

## TELEGRAPHERS' MUTUAL BENEFIT ASSOCIATION.

—ORGANIZED 1867.—

OLDEST FRATERNAL BENEFIT SOCIETY  
IN UNITED STATES.

Reserve Fund - - - \$176,000

MEMBERSHIP - - - 5,000

**WALTER C. HUMSTONE, President, New York.**

Organized and started on its beneficent career thirty-three years ago, it has since afforded protection to nearly 10,000 telegraphers and has now 5,000 members of both sexes carrying insurance for the protection of their families and dependents. Although death claims aggregating nearly \$1,000,000 have been paid, there has never been a case where the claim was contested, as a clause in the constitution provides that every certificate of membership is incontestable after a membership of one year.

A Reserve Fund of \$176,000 for the protection of its present members, and of the new additions which are constantly being added to its ranks, has been accumulated and securely invested.

The annual revenue from this Reserve Fund for many years past, has been sufficient to pay all current expenses and several death claims in addition.

This explains why the total number of assessments levied for the past thirty-three years has been but 367, or an average of less than twelve per annum.

The Association is under the supervision, and subject to the periodical examination, of the Superintendent of the Insurance Department of the State of New York, who certified after his last examination, January, 1898, that the affairs of the Association were in a most prosperous condition, that claims were paid promptly and in full, and that the expense of management was confined to the expenses attending collections of assessments.

As it should always be borne in mind that membership can only be secured while in good health, the present is the time to make application.

All persons in good health between the ages 18 and 45, employed in any capacity in the telegraph or telephone service, are eligible for membership.

Insurance Full Grade, \$1,000, Half Grade, \$500, or both grades, \$1,500.

Initiation fee, \$2 for each grade.

Rates from 50 cents to \$3, graded according to age.

Monthly assessments.

Agents in all principal cities.

For further particulars address any agent, or

327 BROADWAY, NEW YORK

## TARIFF BUREAU.

## MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, September 30, 1900.

The following list of "changes" corrects the Tariff Book "of July, 1900" to date. Changes in the list of "New Offices" are not included.

The hand **35** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

Places marked in the Tariff Book as "Summer" offices are not to be considered as open until notice to that effect is published in the JOURNAL.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Covington, La., which was formerly a single star station, but which is now a Western Union office in Square 423.

See Special Notices at end of this circular.

## CABLES.

## THE AZORES.

Hereafter the rate to the Azores—Fayal Graciosa, Pico, St. George, St. Michael and Terceira will be same as the rate to London. Correct Tariff Book, page 491.

## COREA.

The rates beyond London to Corea will hereafter be as follows. Correct Tariff Book, page 492:

	Word Rates beyond London.
COREA, via Northern (Siberia) and Fusan:	
Chempulpo, Fusan and Seoul.....	\$1.51
Other offices.....	1.67
COREA, via Northern (Siberia) and Chinese land lines:	
All offices.....	1.71
COREA, via Eastern or Indo, and Fusan:	
Chempulpo, Fusan and Seoul.....	1.90
All other offices.....	1.95
COREA, via Eastern or Indo, and Chinese land lines:	
All offices.....	2.55

A supplementary charge of 74 cents per message must be collected for telegrams addressed to vessels in the roadstead of Chempulpo.

## VENEZUELA.

Telegraph stations have been opened at Barcelona, Carupano, Cumana and Port La Mar, in Venezuela. Rate to all same as to Maracaibo.

## AFRICA.

During the continuance of the war in South Africa, telegrams forwarded via the West Coast and Cape Town to East Coast places in consequence of interruption will be charged the same rates as those "via Aden" given on pages 489, 490 and 491 of July Tariff Book.

## SPECIAL NOTICES.

Particular attention should be given to messages addressed to Race Tracks, Baseball or Bicycle Parks, Fair Grounds, Camps, Asylums, Poor Houses, Hospitals, Infirmarys, Colleges, Schools, Convents, or to any institution or place, the situation of which is usually in the suburbs of some town or city. To such places there is very frequently a charge for delivery, and when a sender offers a message addressed as indicated, the Tariff Book and Journal should be consulted, and if there be a delivery charge, it should be collected from the sender and entered in the check as required by Rule 5.

All requests to destroy or omit a message, or change the check, should be disregarded except to refer the matter to your Superintendent for benefit of the service. This applies to misssent as well as uncollected messages.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL, which together furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line, delivery, or telephone charges which should be provided for when messages are accepted.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 484 to 501, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 483 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOS. T. ECKERT,  
President

UNITED STATES government messages sent by ARMY officers, that are written upon the blue Form No. 87 for WAR DEPARTMENT OFFICIAL TELEGRAMS furnished by the QUARTERMASTER'S DEPARTMENT UNITED STATES ARMY, should always be checked "paid govt. rate" WITHOUT REQUIRING PAYMENT FROM THEIR SENDERS.

Such messages should be taken credit for in the Western Union monthly Form No. 4 Report Account Current, for collection from the government, the original messages being returned therewith, as vouchers for such credit taken.

NEW YORK, June 20, 1899.

To All Western Union Managers:

You are authorized to send "collect" without the guarantee required by Rule 13, messages of traveling agents or representatives addressed to their home firms, upon sufficient evidence of their connection with those firms.

THOS. T. ECKERT,

President and General Manager.

NEW YORK, March 20, 1900.

To All Western Union Managers:

Messages upon the official business of the United States Census, filed by United States Census officials and endorsed "OFFICIAL BUSINESS; CHARGE CENSUS OFFICE, WASHINGTON, D. C.," may be accepted without prepayment. When addressed to Washington such messages should be sent checked "COLLECT GOVERNMENT RATE," and when addressed to places other than Washington should be sent checked "PAID GOVERNMENT RATE." Those sent checked "PAID GOVERNMENT RATE" should be taken credit for in the Account Current portion of the monthly Form No. 4 report, the original messages being sent in therewith.

THOS. T. ECKERT,

President and General Manager.

COLLIS P. HUNTINGTON, President of the Southern Pacific R. R. Co., and a Director of the Western Union Telegraph Co., died at his summer home in the Adirondacks, on August 13, 1900.

J. E. ZEUBLIN, Superintendent of the Chicago Telephone Co., and formerly Superintendent of the Sixth District of the Eastern Division of the Western Union Telegraph Co., was killed on July 25th, at Bucyrus, Ohio, by falling from a railroad train. Mr. Zeublin from his boyhood until 1889, was a telegraph operator, manager, and superintendent. During the Civil War he was a military telegraph operator. After the close of the war he re-entered the commercial telegraph service and was connected with the Western Union, American Union, and the Baltimore & Ohio, Telegraph Companies. In 1889, he entered the telephone service, with which he was connected up to the time of his death.

J. J. S. WILSON died at Chicago on August 19th, aged 65 years. Colonel Wilson in 1850 was Superintendent of the Hotchkiss Telegraph Line between Chicago and Madison, Wis. In 1861 he was by the Governor of Illinois, commissioned Colonel in charge of the military telegraph system in his district which then was one of the districts of the Illinois & Mississippi Telegraph Co. Prior to 1881 he was for many years Superintendent of the First District of the Western Division of the Western Union Telegraph Co. under the late General Stager, who was then the General Superintendent of that Division.

TREASURER'S OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, January, 1898.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

First. Every remittance to the treasurer must be accompanied by a letter of transmittal written upon blank No. 63, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expenses must be reported, like any other item, in the monthly account current (form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

Second. Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to \$50.00, 18 cts.
Over \$5.00 to 10.00, 8 cts.	Over 50.00 to 60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over 60.00 to 75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over 75.00 to 100.00, 30 cts.
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

Third. If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

Fourth. If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

Fifth. If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

Sixth. Drafts, express money orders and post office money orders must be made payable to M. T. WILBUR, TREASURER, and sent by mail. They must not be made payable to M. T. WILBUR without the title.

Seventh. The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

Eighth. The large envelope, Form 124, should be used only for making remittances by express.

Ninth. Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

M. T. WILBUR, Treasurer,

DAVID FLANERY, an oldest old-time telegrapher, died on August 6th, aged 72 years. Fifty years ago he was manager of the Gallatin, Miss., telegraph office. Subsequently he was manager of the Western Union Co.'s office at New Orleans and superintendent at New Orleans of the Western Union Co.'s then 12th District, Southern Division. For some time past he has been a member of the Western Union Co.'s operating staff at Memphis, Tenn., where he died.

ACCORDING to "The Electro-Technical Gazette," German electrical works show great increase. On March 1st last, there were in operation 652 electrical works, against 489 the previous year. One hundred and twenty-two works were in progress of construction, of which 17 were to be ready for operation on July 1st. Twenty-seven of all the works were completed before 1890; all the others were constructed within the last ten years. The number of places with electric light exceeds that of places illuminated by gas—900 against 850. The largest electrical plant is at Rheinfelden, with 12,380 kilowatts. Then follow one at Berlin, 9,230 kilowatts; one at Hamburg, 7,290 kilowatts; one at Munich, 6,110 kilowatts; two others at Berlin, of 5,453 and 5,812 kilowatts, respectively; one at Strasburg, 4,955 kilowatts; two others at Berlin, of 4,676 and 4,655 kilowatts, respectively; one at Chorzow, 4,310 kilowatts; one at Frankfurt, 4,152 kilowatts; one at Dresden, 3,580 kilowatts; one at Stuttgart, 3,208 kilowatts; and another at Hamburg, 3,150 kilowatts. All the electrical works supplied last year 2,623,893 incandescent lamps, 50,070 arc lamps, 106,688 horse power for electromotors, etc.

BENEFIT ASSOCIATION.

—ORGANIZED 1867.—

OLDEST FRATERNAL BENEFIT SOCIETY  
IN THE UNITED STATES.

Reserve Fund - - \$176,000

MEMBERSHIP - - 5,000

WALTER C. HUMSTONE, President, New York.

Organized and started on its beneficent career thirty-three years ago, it has since afforded protection to nearly 10,000 telegraphers and has now 5,000 members of both sexes carrying insurance for the protection of their families and dependents.

Although death claims aggregating nearly \$1,000,000 have been paid, there has never been a case where the claim was contested, as a clause in the constitution provides that every certificate of membership is incontestable after a membership of one year.

A Reserve Fund of \$176,000 for the protection of its present members, and of the new additions which are constantly being added to its ranks, has been accumulated and securely invested.

The annual revenue from this Reserve Fund for many years past, has been sufficient to pay all current expenses and several death claims in addition.

This explains why the total number of assessments levied for the past thirty-three years has been but 367, or an average of less than twelve per annum.

The Association is under the supervision, and subject to the periodical examination, of the Superintendent of the Insurance Department of the State of New York, who certified after his last examination, January, 1898, that the affairs of the Association were in a most prosperous condition, that claims were paid promptly and in full, and that the expense of management was confined to the expenses attending collections of assessments.

As it should always be borne in mind that membership can only be secured while in good health, the present is the time to make application.

All persons in good health between the ages 18 and 45 employed in any capacity in the telegraph or telephone service, are eligible for membership.

Insurance Full Grade, \$1,000. Half Grade, \$500, or both grades, \$1,500.

Initiation fee, \$2 for each grade.

Rates from 50 cents to \$3, graded according to age.

Monthly assessments.

Agents in all principal cities.

For further particulars address any agent, or

# JOURNAL OF THE TELEGRAPH

THE NEW YORK  
PUBLIC LIBRARY  
ASTOR, LENOX AND  
TILDEN FOUNDATIONS

VOL. XXXIII.

NEW YORK, OCTOBER 20, 1900.

WHOLE NO. 568.

## ANNUAL REPORT OF THE PRESIDENT OF THE WESTERN UNION TELEGRAPH COMPANY FOR THE YEAR ENDED JUNE 30, 1900.

APPROVED BY THE EXECUTIVE COMMITTEE AND  
ORDERED TO BE SUBMITTED TO  
THE STOCKHOLDERS.

### CAPITAL STOCK.

The capital stock outstanding remains the same, namely, \$97,370,000.00, of which \$29,384.95 belongs to and is in the treasury of the company.

### BONDED DEBT.

The bonded debt at the close of the year was as follows:

Collateral Trust Bonds due January 1, 1898, against which bonds and stocks bearing the company's guarantee of interest or dividends at six per cent. per annum have been deposited with the trustee, five per cent.	\$1,502,000 00
Funding and Real Estate Mortgage Bonds due May 1, 1900, four and one-half per cent.	10,000,000 00
Building Bonds due May 1, 1902, seven per cent.	1,158,000 00
	\$19,660,000 00
Less unused balance of sinking funds appropriations for redemption of the Building Bonds, due May 1, 1902.	157,660 54
	\$19,502,339 46

During the year \$5,000 of the seven per cent. Building Bonds have been redeemed by the sinking fund trustees.

At a special meeting of the stockholders of the company, held March 14, 1900, the issue of \$20,000,000 of Four and One-Half Per Cent. Funding and Real Estate Mortgage Fifty-Year Gold Bonds was duly authorized. The mortgage executed to the Farmers' Loan and Trust Company, as Trustee, provides that

"(1) Ten million dollars (\$10,000,000) face value of said bonds shall be certified, issued and delivered upon the request and at the instance of the Telegraph Company as aforesaid, and the proceeds shall be used and applied solely for the purpose of paying and discharging at or before maturity the following indebtedness and of reimbursing the cost of the following property of the Telegraph Company:

- (a) Sterling six per cent. gold twenty-five year bonds, due March 1, 1900, amounting, face value, to about..... \$761,000
- (b) Sterling seven per cent. twenty-five year coupon bonds, due May 1, 1900, amounting, face value, to about..... 4,920,000
- (c) Cost of new property acquired and new lines constructed from 1895 to June 30, 1899, about..... 2,075,500

"The balance of such proceeds remaining after paying the above-mentioned items or providing therefor by the deposit of the principal thereof with the Trustee, shall be applied in payment of the indebtedness of the Telegraph Company incurred since June 30, 1899, or hereafter incurred, or of moneys expended by it for new property, betterments, or the construction of new lines or plant.

"(2) About one million dollars (\$1,000,000) face value of said bonds shall be certified, issued and delivered from time to time, upon the request and at the instance of the Telegraph Company as aforesaid, upon such terms as the Board of Directors of the Telegraph Company may direct, and the proceeds thereof shall be used and applied for the purpose of paying or discharging or providing for the real estate seven per cent. gold thirty-year bonds of the Telegraph Company due May 1, 1902.

"(3) The remaining nine million dollars (\$9,000,000) or thereabouts, face value, of said bonds shall be reserved, and shall be certified, issued and delivered from time to time upon the request and at the instance of the Telegraph Company as aforesaid, but only in each instance upon presentation of a resolution of the Board of Directors of the Telegraph Company duly certified by its president or one of its vice presidents and its secretary or an acting secretary, calling for the certification and delivery of such bonds and setting forth that the bonds called for in such resolution, or the proceeds thereof, are needed and required and will be used solely for or on account of the purchase of improvements, betterments and extensions of the property and the development and enlargement of the business of the Telegraph Company or for such other corporate purposes as may be authorized by law. The Telegraph Company agrees and covenants that the said bonds and the proceeds thereof shall be used and applied solely for the purposes expressed in any such resolution."

In accordance with these provisions, \$10,000,000 of the new bonds were duly issued, and the six per cent. and seven per cent. bonds, due March 1st and May 1, 1900, were discharged and canceled on the respective dates of their maturity.

The interest paid on outstanding bonds last year was \$896,305.60. The amount of the interest payable on the bonds now outstanding is \$956,160, or an increase of \$59,854.40 per year. When the seven per cent. Building Bonds are paid off, in 1902, by the issue of \$1,000,000 of four and one-half per cent. bonds, the increase in the interest account, on the same comparison, will be \$23,794.49 per year; while, in addition to the refunding of matured bonds, \$4,818,924 of the new issue of \$11,000,000 has been provided for the other purposes prescribed in the mortgage, as shown above.

### BUSINESS OF THE YEAR.

Surplus July 1, 1899..... \$8,066,927 58

The net revenues, expenses and profits of the year ended June 30, 1900, were as follows:

Revenues.....	\$24,758,569 56
Expenses.....	18,593,206 87
	6,165,362 68
	\$14,232,291 21

From which there was applied:

For dividends.....	\$4,867,983 78
" interest on bonds.....	896,305 60
" sinking funds.....	9,197 06
	5,774,086 36

Deducting which leaves surplus, June 30, 1900, of..... \$8,458,204 86

The expenses of the year were:

For operating and general expenses.....	\$12,220,009 44
" rentals of leased lines.....	1,566,704 65
" maintenance and reconstruction of lines.....	2,969,998 28
" taxes.....	529,469 09
" equipment of offices and wires.....	317,024 46
Total expenses as above.....	\$18,593,206 87

### BALANCE SHEET—JUNE 30, 1900.

**THOS. F. CLARK,**  
*Vice-President*

### TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, October 18, 1900.

*To All Transfer Agents and Offices:*

The transfer service has been resumed at Hornellsville, N. Y.

Managers will correct their lists accordingly.

*To All Transfer Agents:*

On October 10th, J. R. Terhune was appointed Transfer Agent at New Orleans, La., vice W. D. West. Transfers for New Orleans, La., should be addressed to J. R. Terhune, instead of W. D. West.

On October 16th, E. A. Beardslee was appointed Transfer Agent at Los Angeles, Cal., vice C. B. Goodell. Transfers for Los Angeles, Cal., should be addressed to E. A. Beardslee instead of C. B. Goodell.

THOS. T. ECKERT,  
*President.*

W. C. WALSTRUM, Superintendent of Telegraph at Roanoke, Va., desires to have the address of Mr. Wade H. Hensley.

The lines of the company were increased during the year by 2,849 miles of poles and 23,520 miles of wire.

**There was also an increase of 615 offices.**

The number of messages transmitted was 1,769,626 greater than for 1899.

The increase of \$804,257.50 in the revenues for the year was made up principally of \$457,864.77 from regular commercial messages, \$78,628.06 from press dispatches and \$197,665.12 from leased wires; the balance of \$72,099.55 was derived from sundry minor sources of income.

As compared with the preceding year, the various classified items of expense given on page 1, were increased as follows: For operating and general expenses, \$265,248.89, incident to the larger number of messages transmitted and delivered, and to the operation of more offices; for maintenance and reconstruction of lines, \$206,585.94, partly for cable repairs in the Atlantic, but chiefly for the replacement of old and defective lines with new poles and copper wires; and for equipment, \$48,163.46, on account of new wires and offices. The rentals of leased lines and the payments for taxes were but slightly changed. The total increase in expenses for the year was \$507 626.68.

The net profit for the year was \$6,165,863.68. After paying therefrom the interest on the bonds and the dividend of 5 per cent, there was added to the surplus account \$391,277.33, or \$287,584.92 more than was carried to that account in 1899.

The average tolls received were 30.8 cents per message, and the average cost per message was 25 1 cents, these figures being the same as for 1899. These averages, it should be borne in mind, are confined to the messages transmitted for the public and the press by the employees of the company. They are arrived at by eliminating from the total receipts the revenues from all other sources, and by charging against them only their proper share of the total expenses for operation, maintenance, etc.

During the year \$1,199,587 was expended for the purchase of sundry lines and the construc-

tion of new property, and \$70,000 was paid out for patents.

The weekly reports of receipts continue to show a healthy condition of business, and indicate that we may expect satisfactory returns for the current year, if no unlooked-for setback occurs. Respectfully submitted,

THOMAS T. ECKERT,  
*President.*

At the twentieth annual convention held at St. Paul, Minn., on September 18th, of the Old Time Telegraphers' Association and the United States Military Telegraph Corps, Montreal was chosen as the next place of meeting, and the following were elected officers for the ensuing year of the Old Time Telegraphers' Association.

President, L. B. McFarlane, Superintendent  
of Bell Telephone Co., Montreal, Can.

Vice-President, J. E. Hutcheson, Superintendent of Electric Street Railway, Ottawa, Canada.

Secretary and Treasurer, John Brandt, Western Union Telegraph Co., New York City.

The old officers of the United States Military Telegraph Corps were re-elected.

THE English Consul for Zanzibar reports the discovery of a new guttapercha. This substance is derived from a tree which grows principally at Dunga. When tapped with a knife, a white fluid emanates, which, when placed in boiling water, coagulates into a substance which, in character, bears a very striking resemblance to guttapercha. As the material cools it becomes exceedingly hard, but while soft it can be moulded into any required shape. The fruit of the tree resembles a peach in shape, but grows to the size of a small melon. Experts have experimented with this new product to see if it anyway possesses the qualities of guttapercha, and although it is not expected to prove equal to the genuine article, it is considered that it will be quite suitable for some purposes for which guttapercha is at present utilized, and will thus become a marketable article. It is said to abound in Zanzibar, and will be a very cheap product.

## TARIFF BUREAU.

## MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, October 20, 1900.

The following list of "changes" corrects the Tariff Book "of July, 1900" to date. Changes in the list of "New Offices" are not included. The hand **35** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

Places marked in the Tariff Book as "Summer" offices are not to be considered as open until notice to that effect is published in the JOURNAL.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Covington, La., which was formerly a single star station, but which is now a Western Union office in Square 423.

See Special Notices at end of this circular.

<b>COREA, via Eastern or Indo, and Chinese land lines:</b>	
All offices.....	2.55

A supplementary charge of 74 cents per message must be collected for telegrams addressed to vessels in the roadstead of Chemulpo.

## VENEZUELA.

Telegraph stations have been opened at Barcelona, Carupano, Cumana and Port La Mar, in Venezuela. Rate to all same as to Maracaibo.

## SPECIAL NOTICES.

Particular attention should be given to messages addressed to Race Tracks, Baseball or Bicycle Parks, Fair Grounds, Camps, Asylums, Poor Houses, Hospitals, Infirmarys, Colleges, Schools, Convents, or to any institution or place, the situation of which is usually in the suburbs of some town or city. To such places there is very frequently a charge for delivery, and when a sender offers a message addressed as indicated, the Tariff Book and Journal should be consulted, and if there be a delivery charge, it should be collected from the sender and entered in the check as required by Rule 5.

All requests to destroy or omit a message, or change the check, should be disregarded except to refer the matter to your Superintendent for benefit of the service. This applies to missent as well as uncollected messages.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL, which together furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line, delivery, or telephone charges which should be provided for when messages are accepted.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 484 to 501, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 433 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

**Ocean Steamers.** The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for other lines.

Orders should be addressed to **Manager Marine Department, New York City.**

**THOS. T. ECKERT,**  
*President.*

UNITED STATES government messages sent by ARMY officers, that are written upon the blue Form No. 87 for WAR DEPARTMENT OFFICIAL TELEGRAMS furnished by the QUARTERMASTER'S DEPARTMENT UNITED STATES ARMY, should always be checked "paid govt. rate" WITHOUT REQUIRING PAYMENT FROM THEIR SENDERS.

Such messages should be taken credit for in the Western Union monthly Form No. 4 Report Account Current, for collection from the government, the original messages being returned therewith, as vouchers for such credit taken.

NEW YORK, June 20, 1899.

To All Western Union Managers:

You are authorized to send "collect" without the guarantee required by Rule 13, messages of traveling agents or representatives addressed to their home firms, upon sufficient evidence of their connection with those firms.

**THOS. T. ECKERT,**  
*President and General Manager.*

NEW YORK, March 20, 1900.

To All Western Union Managers:

Messages upon the official business of the United States Census, filed by United States Census officials and endorsed "OFFICIAL BUSINESS; CHARGE CENSUS OFFICE, WASHINGTON, D. C.," may be accepted without prepayment. When addressed to Washington such messages should be sent checked "COLLECT GOVERNMENT RATE," and when addressed to places other than Washington should be sent checked "PAID GOVERNMENT RATE." Those sent checked "PAID GOVERNMENT RATE" should be taken credit for in the Account Current portion of the monthly Form No. 4 report, the original messages being sent in therewith.

**THOS. T. ECKERT,**  
*President and General Manager.*

# TELEGRAPHERS MUTUAL BENEFIT ASSOCIATION.

—ORGANIZED 1867.—

OLDEST FRATERNAL BENEFIT SOCIETY  
IN THE UNITED STATES.

Reserve Fund - - \$176,000

MEMBERSHIP - - 5,000

WALTER C. HUMSTONE, President, New York.

Organized and started on its beneficent career thirty-three years ago, it has since afforded protection to nearly 10,000 telegraphers and has now 5,000 members of both sexes carrying insurance for the protection of their families and dependents.

Although death claims aggregating nearly \$1,000,000 have been paid, there has never been a case where the claim was contested, as a clause in the constitution provides that every certificate of membership is incontestable after a membership of one year.

A Reserve Fund of \$176,000 for the protection of its present members, and of the new additions which are constantly being added to its ranks, has been accumulated and securely invested.

The annual revenue from this Reserve Fund for many years past, has been sufficient to pay all current expenses and several death claims in addition.

This explains why the total number of assessments levied for the past thirty-three years has been but 367, or an average of less than twelve per annum.

The Association is under the supervision, and subject to the periodical examination, of the Superintendent of the Insurance Department of the State of New York, who certified after his last examination, January, 1898, that the affairs of the Association were in a most prosperous condition, that claims were paid promptly and in full, and that the expense of management was confined to the expenses attending collections of assessments.

As it should always be borne in mind that membership can only be secured while in good health, the present is the time to make application.

All persons in good health between the ages 18 and 45 employed in any capacity in the telegraph or telephone service, are eligible for membership.

Insurance Full Grade, \$1,000. Half Grade, \$500. Both grades, \$1,500.

Initiation fee, \$2 for each grade.

Rates from 50 cents to \$3, graded according to age.

Monthly assessments.

Agents in all principal cities.

For further particulars address any agent, or

Chemulpo, Fusan and Seoul.....	1.90
All other offices.....	1.96
<b>COREA, via Eastern or Indo, and Chinese land lines:</b>	
All offices.....	2.66

A supplementary charge of 74 cents per message must be collected for telegrams addressed to vessels in the roadstead of Chemulpo.

## CABLES.—Continued.

## AFRICA.

During the continuance of the war in South Africa, telegrams forwarded via the West Coast and Cape Town to East Coast places in consequence of interruption will be charged the same rates as those "via Aden" given on pages 489, 490 and 491 of July Tariff Book

## VENEZUELA.

Telegraph stations have been opened at Barcelona, Carupano, Cumana and Port La Mar, in Venezuela. Rate to all same as to Maracaibo.

## SPECIAL NOTICES.

Particular attention should be given to messages addressed to Race Tracks, Baseball or Bicycle Parks, Fair Grounds, Camps, Asylums, Poor Houses, Hospitals, Infirmarys, Colleges, Schools, Convents, or to any institution or place, the situation of which is usually in the suburbs of some town or city. To such places there is very frequently a charge for delivery, and when a sender offers a message addressed as indicated, the Tariff Book and Journal should be consulted, and if there be a delivery charge, it should be collected from the sender and entered in the check as required by Rule 5.

All requests to destroy or omit a message, or change the check, should be disregarded except to refer the matter to your Superintendent for benefit of the service. This applies to misssent as well as uncollected messages.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL, which together furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line, delivery, or telephone charges which should be provided for when messages are accepted.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 484 to 501, both inclusive, are CABLE

messages and should be reported in accordance with rule No. 71, page 433 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

**Ocean Steamers.** The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

## THOS. T. ECKERT

President

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, November 16, 1900.

Business franks Nos. 7196, issued on account of Great Northern Railway; 8911 on account of New Louisville Jockey Club; 10120, on account of Louisiana and Northwest Railroad; and 10164, on account of Omaha, Kansas City and Eastern Railroad, and Complimentary Franks Nos. B-392, C-1203, D-1038 and D-1166 are hereby revoked.

Managers will please take up those franks if presented, and return them to this office for cancellation.

## THOS. F. CLARK,

Vice-President.

## CABLES.

The following changes in word rates beyond London, will be put in effect January 1, 1901:

Ascension Island.....\$ .86  
St. Helena Island..... .86

Via Aden and East Coast  
or via Lisbon or Cadiz  
and West Coast, or  
Ascension.

## AFRICA:

Cape Colony.....\$ .86  
Natal..... .86  
Northern Rhodesia..... .96  
Nyasaaland..... .96  
Orange River Colony..... .56  
South Africa Republic (Transvaal)..... .86  
Southern Rhodesia..... .90

Via Lisbon and St. Vincent,  
or Cadiz, Teneriffe.

German Southwest Africa.....\$ .90

Via Eastern or Indo.

## AUSTRALIA AND TASMANIA:

South Australia.....\$ .86  
Western Australia..... .85  
Tasmania..... .86

Correct Tariff Book, pages 535, 536, 537 and 539.

## AFRICA.

During the continuance of the war in South Africa, telegrams forwarded via the West Coast and Cape Town to East Coast places in consequence of interruption will be charged the same rates as those "via Aden" given on pages 535, 536 and 537 of January 1901 Tariff Book.

## SPECIAL NOTICES.

Particular attention should be given to messages addressed to Race Tracks, Baseball or Bicycle Parks, Fair Grounds, Camps, Asylums, Poor Houses, Hospitals, Infirmeries, Colleges, Schools, Convents, or to any institution or place, the situation of which is usually in the suburbs of some town or city. To such places there is very frequently a charge for delivery, and when a sender offers a message addressed as indicated, the Tariff Book and Journal should be consulted, and if there be a delivery charge, it should be collected from the sender and entered in the check as required by Rule 5.

All requests to destroy or omit a message, or change the check, should be disregarded except to refer the matter to your Superintendent for benefit of the service. This applies to missent as well as uncollected messages.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL, which together furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line, delivery, or telephone charges which should be provided for when messages are accepted.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls for "this" line, and then the tolls for "other" lines.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 530 to 547, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 477 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

**Ocean Steamers.** The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to **Manager Marine Department, New York City.**

**THOS. T. ECKERT,**  
*President.*

**FRANK R. STEELE,** Western Union Telegraph Co.'s San Francisco manager died there on December 1st, of heart disease, being suddenly stricken on his way home from business.

Mr. Steele was born in Vicksburg, Miss., January 16, 1862. In 1877, he entered the telegraph service as a messenger in the Western Union office at that place. During the yellow fever epidemic there in 1879, Manager Flippen and Mr. Steele were the only employees remaining in the Western Union office, the remainder of the force having died or left the city. These two received a vote of thanks from the citizens of Vicksburg for faithfully remaining at their post of duty. Subsequently Mr. Steele served at New Orleans, Chicago, Galveston, Deming and El Paso, at which latter place he was the Western Union manager until about two years ago, when he was transferred to San Francisco as manager.

**Western Union Telegraph Company.**

NEW YORK, September 12, 1900.

### DIVIDEND NO. 129.

THE Board of Directors have declared a quarterly dividend of ONE AND ONE QUARTER PER CENT. upon the capital stock of this company, payable at the office of the Treasurer on and after the 15th day of January next, to shareholders of record at the close of the transfer books on the 20th day of December last.

The transfer books will be closed at 3 o'clock on the afternoon of December 20th inst., and reopened on the morning of January 2d next.

**M. T. WILBUR,**  
*Treasurer.*

**TREASURER'S OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, January, 1898.**

*To Superintendents:* I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

*First.* Every remittance to the treasurer must be accompanied by a letter of transmittal written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expense must be reported, like any other item, in the monthly account current (form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

*Second.* Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to \$50.00, 15 cts.
Over \$5.00 to 10.00, 8 cts.	Over 50.00 to 60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over 60.00 to 75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over 75.00 to 100.00, 30 cts.
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

*Third.* If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

*Fourth.* If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

*Fifth.* If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

*Sixth.* Drafts, express money orders and post office money orders must be made payable to **M. T. WILBUR, TREASURER,** and sent by mail. They must not be made payable to **M. T. WILBUR** without the title.

*Seventh.* The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

*Eighth.* The large envelope, Form 124, should be used only for making remittances by express.

*Ninth.* Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

**M. T. WILBUR, Treasurer.**

# TELEGRAPHERS' MUTUAL BENEFIT ASSOCIATION.

—ORGANIZED 1867.—

OLDEST FRATERNAL BENEFIT SOCIETY  
IN THE UNITED STATES.

Reserve Fund - - \$178,000

MEMBERSHIP - - 5,000

WALTER C. HUMSTONE, President, New York.

Organized and started on its beneficent career thirty-four years ago, it has since afforded protection to nearly 10,000 telegraphers and has now 5,000 members of both sexes carrying insurance for the protection of their families and dependents.

Although death claims aggregating nearly \$1,000,000 have been paid, there has never been a case where the claim was contested, as a clause in the constitution provides that every certificate of membership is incontestable after a membership of one year.

A Reserve Fund of \$178,000 for the protection of its present members, and of the new additions which are constantly being added to its ranks, has been accumulated and securely invested.

The annual revenue from this Reserve Fund for many years past, has been sufficient to pay all current expenses and several death claims in addition.

This explains why the total number of assessments levied for the past thirty-three years has been but 372, or an average of less than twelve per annum.

The Association is under the supervision, and subject to the periodical examination, of the Superintendent of the Insurance Department of the State of New York, who certified after his last examination, January, 1898, that the affairs of the Association were in a most prosperous condition, that claims were paid promptly and in full, and that the expense of management was confined to the expenses attending collections of assessments.

As it should always be borne in mind that membership can only be secured while in good health, the present is the time to make application.

All persons in good health between the ages 18 and 45, employed in any capacity in the telegraph or telephone service, are eligible for membership.

Insurance Full Grade, \$1,000. Half Grade, \$500, or both grades, \$1,500.

Initiation fee, \$2 for each grade.

Rates from 50 cents to \$3, graded according to age.

Assessments levied monthly; 30 days allowed for payment, and number issued in any year strictly limited by By-Laws, and there is no other expense of any kind.

Applications for membership are solicited from all in telegraphic service. The necessary blanks and any further information will be furnished by any Agent, or direct from

M. J. O'LEARY, Secretary.

P. O. Box 510. New York City, N. Y.

## TELEGRAPHERS' MUTUAL BENEFIT ASSOCIATION.

THE thirty-fourth annual meeting of the Telegraphers' Mutual Benefit Association, was held at 195 Broadway, New York, on 21st ult.

The meeting was called to order at 4 P. M. by President Humstone, who expressed his pleasure at seeing such a large meeting and at the attendance of so many agents as delegates from their respective districts.

From the reports of the Secretary and Treasurer, which were submitted, it was shown that the Association has 4,567 members in the Full Grade (\$1,000 certificates); and 438 in the Half Grade (\$500 certificates).

The collections from members during the year amounted to \$60,501.59, and for interest on the Reserve Fund and current deposit account, \$9,709.88.

The amount paid for death claims, 44 in the Full Grade and 1 in the Half Grade, was \$44,500. The sum of \$15,000 was carried to the Reserve Fund, making the total par value \$178,203.00.

The report of the Auditors show that the surplus of assets over liabilities at the close of the fiscal year, September 30, was \$192,841.58 which is an increase of \$18,000 over the preceding year.

The following officers were duly elected: President, W. C. Humstone, 1st Vice-President, W. H. Young, 2d Vice-President, C. P. Bruch, Secretary, M. J. O'Leary, Treasurer, A. R. Brewer. Executive Committee: James Merrihew, E. J. Nally, B. Brooks, Jos. L. Edwards, C. W. Hammond, S. S. Garwood. Auditing Committee: E. B. Pillsbury, Boston, Chairman; W. J. Dealy and T. E. Fleming.

## MR. WALTER C. HUMSTONE'S ADDRESS TO THE MEMBERS OF THE TELEGRAPHERS' MUTUAL BENEFIT ASSOCIATION.

In bidding you welcome to the thirty-fourth annual meeting of the Association, it affords me great pleasure to present, through the reports of the Secretary and Treasurer, an uninterrupted record of its prosperity.

Our death rate for the year was unusually favorable—but 50 deaths being reported, a number of which occurred in the closing months of the year; consequently, but 12 assessments were levied and the Executive Committee was thus enabled to place \$15,000 to the Reserve Fund, as well as to carry forward a substantial balance to meet claims maturing in the current year.

Membership in the full grade, as reported, shows about the same average increase, while that in the half grade has increased in larger proportion. The line of investment in the half grade appears to be more in the addition to full grade membership and not in individual memberships. The records show that 252 are members of the full grade and only 176 in the half grade solely.

I wish again to impress upon you the necessity of vigorous action on the part of the entire membership to increase our numbers. We are doing well, but we can do much better, and work in that direction is most important, in view of the fact that the time is at hand when

we must expect heavy mortality among our older members, necessitating additional new material in order that the continued prosperity and permanence of the Association may be assured.

In this connection I cannot do better than quote from one of the annual reports of my immediate predecessor:

"The commission of your officers is first to give you reliable insurance. There must be no question on that point. The question of reliability being assured, the next question is to make the cost as small as possible. The whole matter rests entirely with yourselves. The healthy growth of membership will, with the proper reserve fund, result in the material reduction in cost of your insurance."

I wish again to place on record my appreciation of the assistance rendered by the Executive Committee and the faithful and efficient services rendered by the agents during the past year.

UNITED STATES government messages sent by ARMY officers, that are written upon the blue Form No. 87 for WAR DEPARTMENT OFFICIAL TELEGRAMS furnished by the QUARTERMASTER'S DEPARTMENT UNITED STATES ARMY, should always be checked "paid govt. rate" WITHOUT REQUIRING PAYMENT FROM THEIR SENDERS.

Such messages should be taken credit for in the Western Union monthly Form No. 4 Report Account Current, for collection from the government, the original messages being returned therewith, as vouchers for such credit taken.
